

REPORT OF THE CORPORATE DIRECTOR, PLACE

FLOOD RISK MANAGEMENT SECTION 19 REPORT SUTTON ON TRENT – 2 JUNE 2018

Purpose of the Report

1. This report sets out the County Council's duties as the Lead Local Flood Authority to report on flooding incidents under Section 19 of the Flood and Water Management Act (2010) and to present its report in relation to the flooding in Sutton on Trent on 2 June 2018

Information

2. Following the severe flooding in many parts of the country during the summer of 2007, the Government commissioned an independent review (the 'Pitt Review') which in 2008 recommended that local authorities should lead on the management of local flood risk, working in partnership with other organisations. Two key pieces of legislation have brought this forward; the Flood Risk Regulations 2009 which transposed the EU Floods Directive into UK Law and the Flood and Water Management Act 2010 (FWMA).
3. Nottinghamshire County Council (NCC) is a Lead Local Flood Authority (LLFA) and has powers and statutory duties to manage and co-ordinate local flood risk management activities. NCC does this by working together with other organisations including the Environment Agency (EA), who manage flooding from generally larger rivers known as Main Rivers, such as the River Trent; Internal Drainage Boards (IDB) managing low lying areas; District, Borough, Parish and Town Councils; and infrastructure/ utility providers, such as Severn Trent Water (STW) and the Highways Agency (HA). This partnership work is overseen by the Strategic Flood Risk Management Board, jointly chaired by NCC and Nottingham City Council (NCiC) and attended by all Risk Management Authorities (RMAs).
4. Local flood risk means flooding from surface water (overland runoff), groundwater and smaller watercourses (known as Ordinary Watercourses).
5. Section 19 of the FWMA gives NCC, as LLFA, the following duties:
 1. On becoming aware of a flood in its area, a lead local flood authority must, to the extent that it considers it necessary or appropriate, investigate:
 - (a) Which Risk Management Authorities (RMAs) have relevant flood risk management functions.
 - (b) Whether each of those risk management authorities has exercised, or is proposing to exercise, those functions in response to the flood.

2. Where an authority carries out an investigation under subsection (1) it must:-

- (a) Publish the results of its investigation.
- (b) Notify any relevant risk management authorities.

6. It should be noted that the purpose of a Section 19 Report is to outline what happened during a flooding incident and whether the relevant RMAs have exercised or will exercise their responsibilities, it does not identify specific measures to prevent future flooding. It is up to the LLFA if it wishes to then carry out further investigation into possible flood prevention and protection measures that could be implemented.
7. At Transport and Highways Committee on 31 Oct 2013 it was approved that Section 19 Reports should be undertaken where NCC is aware that five or more properties in a locality have been affected by internal flooding (over the threshold [doorstep level] of the property).

Section 19 Report summary for Sutton on Trent

8. As a result of the flooding in Sutton on Trent on the 2 June 2018 the LLFA carried out investigations and is now able to present its Section 19 Report as contained in Appendix A.
9. The report identifies the main source of flooding to be from a Trent Valley Internal Drainage Board (TVIDB) watercourse called the Bulham Lane Drain that overtopped due to the severity of the storm. This flooding resulted in 32 properties and businesses suffering from significant internal flooding.
10. As part of the investigations NCC officers liaised closely with TVIDB who have commissioned a detailed study into the hydraulic performance of their assets in the catchment. A community drop in session was held on Monday 9th July where those affected by the flooding were able to share their experiences and witness accounts of the flooding mechanisms with NCC and the IDB in order to assist in our understanding of what happened and how the risk of flooding in the future may be reduced.
11. The report also identifies that all relevant RMAs carried, and continue to carry, out their respective duties.

Reason/s for Recommendation/s

12. The report delivers a duty defined within the Flood and Water Management Act 2010 and in line with approved County Council Policy

Statutory and Policy Implications

13. The County Council has a number of new statutory duties and powers under the Flood and Water Management Act 2010 and the Flood Risk Regulations 2009 including preparation of Section 19 Reports.
14. This report has been compiled after consideration of implications in respect of crime and disorder, data protection and information governance, finance, human resources, human rights, the NHS Constitution (public health services), the public sector equality duty,

safeguarding of children and adults at risk, service users, smarter working, sustainability and the environment and where such implications are material they are described below. Appropriate consultation has been undertaken and advice sought on these issues as required.

Financial Implications

15. The costs of these studies will be contained within existing budgets. Since becoming an LLFA NCC has worked in collaboration with colleagues, risk management authorities, partners and local communities to help reduce the risk of flooding in Nottinghamshire.

Implications for Sustainability and the Environment

16. It is anticipated that the recommendations will ultimately result in delivery of a sustainable projects that reduce flood risk across the county whilst also reducing the negative impacts the flooding has on the environment.

RECOMMENDATION/S

It is recommended that:

- 1) The Committee approves the publishing of the Section 19 report Appendice A in line with Section 19 of the Flood and Water Management Act 2010 and our LLFA responsibilities.
- 2) The Committee endorses the work outlined in the report.

Adrian Smith
Corporate Director, Place

Constitutional Comments []

17. This decision falls within the Terms of Reference of the Communities & Place Committee to whom responsibility for the exercise of the Authority's functions relating to flood risk management scrutiny has been delegated.

Financial Comments [DJK 03.08.18]

18. The financial implications are set out in the report.
19. Since becoming an LLFA Nottinghamshire County Council has worked in collaboration with colleagues, risk management authorities, partners and local communities to help reduce the risk of flooding in Nottinghamshire.
