

Joint City / County Health Scrutiny Committee

Tuesday, 10 January 2017 at 10:15

County Hall, County Hall, West Bridgford, Nottingham, NG2 7QP

AGENDA

- | | | |
|---|--|---------|
| 1 | Minutes of the meeting held on 13 Dec 2016 | 3 - 8 |
| 2 | Apologies for Absence | |
| 3 | Declarations of Interests by Members and Officers:- (see note below)
(a) Disclosable Pecuniary Interests
(b) Private Interests (pecuniary and non-pecuniary) | |
| 4 | Winter Pressures - East Midlands Ambulance Service | 9 - 18 |
| 5 | Nottingham University Hospitals - Research and Innovation Update | 19 - 32 |
| 6 | Nottingham University Hospitals - Technology in Care | 33 - 44 |
| 7 | Work Programme | 45 - 54 |

Notes

- (1) Members of the public wishing to inspect "Background Papers" referred to in the reports on the agenda or Schedule 12A of the Local Government Act should contact:-

Customer Services Centre 0300 500 80 80

- (2) Persons making a declaration of interest should have regard to the Code of Conduct and the Council's Procedure Rules. Those declaring must indicate the nature of their interest and the reasons for the declaration.

Councillors or Officers requiring clarification on whether to make a declaration of interest are invited to contact Julie Brailsford (Tel. 0115 977 4694) or a colleague in Democratic Services prior to the meeting.

- (3) Councillors are reminded that Committee and Sub-Committee papers, with the exception of those which contain Exempt or Confidential Information, may be recycled.
- (4) A pre-meeting for Committee Members will be held at 9.45 am on the day of the meeting.
- (5) This agenda and its associated reports are available to view online via an online calendar - <http://www.nottinghamshire.gov.uk/dms/Meetings.aspx>

MINUTES

JOINT HEALTH SCRUTINY COMMITTEE

13 December 2016 at 10.15am

Nottinghamshire County Councillors

Councillor P Tsimbiridis (Chair)
Councillor Joyce Bosnjak
Councillor Kay Cutts MBE
Councillor Richard Butler
Councillor John Clarke
Councillor John Handley
Councillor Colleen Harwood
Councillor Jacky Williams

Nottingham City Councillors

Councillor A Peach (Vice- Chair)
Councillor M Bryan
Councillor E Campbell
Councillor C Jones
Councillor G Klein
Councillor B Parbutt
Councillor C Tansley
A Councillor M Watson

Officers

David Ebbage - Nottinghamshire County Council
Martin Gately - Nottinghamshire County Council
Jane Garrard - Nottingham City Council

Also in attendance

Officers

Dr Ken Deacon - Medical Director, North Midlands, NHS England
Dr Stephen Fowlie- Deputy Chief Executive, NUH
David Pearson - STP Lead
Andy Haynes - Sherwood Forest Hospital Trust

MINUTES

The minutes of the last meeting held on 8th November 2016, having been circulated to all Members, were taken as read and were confirmed and signed by the Chair.

APOLOGIES

Apologies were received from Councillor Watson

MEMBERSHIP

There were no membership changes for this meeting.

DECLARATIONS OF INTEREST

There were no declarations of interest.

ENVIRONMENT, WASTE AND CLEANLINESS AT NOTTINGHAM UNIVERSITY HOSPITALS

Dr Stephen Fowlie, Medical Director Head of Clinical gave a short presentation introducing the latest data on Environment, Waste and Cleanliness at Nottingham University Hospitals (NUH).

During his presentation, he raised the following points:-

- In October 2016 an independent cleaning assessment concluded that the standards achieved by Carillion were unacceptable.
- The Contract Management Team oversaw the contract, but it had proved extremely difficult to obtain from Carillion the standards set out within the original contract.
- The NUH Board had required significant improvements in standards from Carillion, but these had not been delivered on. Both NUH and Carillion are jointly exploring a managed exit from the contract.
- Currently, staff remain employed by Carillion until further arrangements are agreed which is likely to be around January 2017.
- NUH are doing a great deal to promote a more smoke free environment around the hospital. Staff are advised not to smoke in uniforms, on the spot fines are being handed out for littering of cigarettes, new advice cards are available at hospital entrances and also new signage. Patients are also being asked to smoke away from entrances to the hospital.
- Planning approval has been granted for a platform to the hospital bridge to be built, this will be open in summer 2017.
- NUH are limiting patient movement between wards from 10pm and each patient is given ear plugs to help with the noise level. There is a renewed focus from reducing 'noise at night' to 'quieter wards' all times of the day.

During discussion and answering questions, the following points were raised:

- A staged process negotiation is currently taking place with Carillon, NUH are developing plans to rescue back services and staff which will allow them to make improvements.
- The supervision of cleaning staff was not at the standard the Trust expected and required. Systems are still in place for staff to report concerns in the usual way.
- NUH will look how staff can be better supported when they are back in the employment of the Trust. They will also examine how the contract is designed and written, and what standards of cleanliness are expected. The board do not want to find the Trust in this position again.
- The new smoking policy is in place; staff must not smoke around the hospital building, and must not to assist patients who request to be taken outside for a cigarette.

The Chair thanked Dr Fowlie for his attendance.

RESOLVED:

That the issue be brought back to the committee for an update in 3 months' time.

DAYBROOK DENTAL PRACTICE REPORT FINDINGS

Dr Ken Deacon, Medical Director, NHS England North Midlands introduced a briefing on the findings of the report examining breaches of infection control procedures at Daybrook Dental Practice by Mr Desmond D'Mello.

During discussion the following points were raised:

- Dr D'Mello was suspended from the Dental Performers List in June 2014, when the allegations from the whistleblower were confirmed. He then was suspended by the General Dental Council in August 2014, this action prevented him from working as an NHS or private dentist.
- Removed from the Dental Performers list by NHS England in September 2015, erased from the dental register by the GDC in August 2016. The GDC also found significant failings and misconduct on the part of a dental nurse who worked at the practice.
- Dr D'Mello had a fairly big contract, he had 20th biggest out of 90 contracts, bigger the contract, the more hours are worked.
- Testing of D'Mello patients (as part of the largest patient recall in NHS history) resulted in no newly diagnosed cases of Hepatitis B or HIV. There were 5 newly diagnosed cases of Hepatitis C, which is congruent with testing a similarly sized random sample of the population.
- Both NHS England and the CQC inspected the practice, Dr D'Mello was able to demonstrate understanding of and ability to comply with the relevant infection

control standards. He understood what was required of a good dentist, but wilfully chose not to operate to proper standards unless he was under direct observation.

- A number of changes have been made to prevent such events happening again. The CQC have increased the clinical input into their inspections, there is always a dentist as part of the inspection team. All complaints about doctors and dentists are subject to impartial clinical review.
- The dental nurse was aware that what she was doing was unacceptable, and was complicit in the delivery and concealment of poor practice. In her evidence to the GDC, she reported that Dr D'Mello deliberately suspended cross-infection procedures. She decided not to report this as she considered her responsibility to her employer outweighed that to her patients.
- The GDC have now stopped D'Mello from working as a dentist in the UK.
- The whole process from allegations through to him being removed has taken over two years.

The Chair thanked Dr Deacon for his attendance.

SUSTAINABILITY AND TRANSFORMATION PLAN

David Pearson, Sustainability and Transformation Plan Lead and Andy Haynes, Sherwood Forest Medical Director introduced the Sustainability and Transformation Plan to the Committee.

During discussion, the following points were raised:-

- The draft plan which was submitted to NHS England on 21st October 2016 is a reflection on local organisations' current thinking about what needs to be done to improve health and wellbeing, the quality of care and local services, and address the financial challenge.
- STPs will drive a genuine and sustainable transformation in health and care outcomes over the next five years and help accelerate the implementation of the NHS Five Year Forward View locally.
- The STP for Nottingham and Nottinghamshire addressed how organisations will close the 'three gaps' identified in the NHS Five Year Forward View - the future vision for the NHS and social care – which related to health and wellbeing, care and quality, and finance and efficiency.
- Following publication of the draft plan, the STP partner organisations are keen to hear feedback on the draft plan as a general direction of travel for health and care services across Nottingham and Nottinghamshire. There will be further statutory consultation on specific service changes as required.
- The consultation period had been extended to February to allow more time for feedback to be submitted. 7 public meetings are being organised around Clinical Commissioning Group areas with Healthwatch facilitating a public

conversation. Existing consultation and engagement mechanisms will also be used to engage with specific groups, and requests to speak with specific sections of the population, for example the voluntary sector are being responded to. A public report will be produced detailing the consultation findings.

- It is important that the Plan has democratic engagement and oversight from local politicians and the Joint Health Scrutiny Committee.
- Governance proposals are currently being developed and should be able to be shared by January 2017.
- 2017/18 is going to be the most challenging year financially and they will work to ensure that responsibilities are clear and there is sufficient capacity in the right place to support delivery of the plans at sufficient pace. As a system they have £314m to save next year.
- The STP does not need to be agreed by government, they are entitled to comment but the statutory partners will need to approve it via their own governance processes.
- Further work needs to take place on assessing equality implications.
- Members requested for the STP leadership to come back with their governance proposals as soon as they are available, to help the Committee in deciding on its role in relation to the Plan; and also findings from the current engagement exercise with details of if/how the Plan is developing to take the feedback received into account.

RESOLVED:

That STP governance arrangements be brought back to the Joint Health Committee as soon as they are available.

The Chair thanked David Pearson and Andy Haynes for their attendance.

WORK PROGRAMME

In relation to Congenital Heart Disease Services, the consultation pre engagement phase has now been announced so NHS England will be invited to attend either the February or March meeting.

The Care Quality Commission have recently had an unannounced inspection of Urgent and Emergency Care at NUH, when the results are known the Joint Health Committee will schedule consideration of any actions by NUH which arise from the inspection.

The meeting closed at 12.34pm.

10 January 2017

Agenda Item: 4

REPORT OF THE CHAIRMAN OF JOINT CITY AND COUNTY HEALTH SCRUTINY COMMITTEE

WINTER PRESSURES – EAST MIDLANDS AMBULANCE SERVICE

Purpose of the Report

1. To introduce the latest briefing from the East Midlands Ambulance Service (EMAS) on the response to winter pressures.

Information and Advice

2. The Joint Health Committee has been examining how provider trusts plan for and cope with winter pressures. The committee has previously examined
3. A presentation on EMAS' Nottinghamshire Division Seasonal Plan for 2016-17 is attached as an appendix to this report.
4. Ian Cross and Keith Underwood, EMAS Locality Managers will attend the meeting to brief Members and answer questions as necessary.
5. Members may wish to focus on how EMAS communicate and co-operate with hospital trusts and other stakeholders, as well as what lessons are learned year on year. It would be useful for the Joint Health Committee to gain an understanding of the impact of handover time on EMAS performance, the extent to which flu vaccinations of staff have a positive impact on attendance, the diversion of patients away from the Emergency Department by means of 'hear and treat' and 'see and treat' measures. In addition, what is the role of EMAS within A&E Delivery Boards – and how have these boards assisted the role of EMAS?

RECOMMENDATION

That the Joint City and County Health Scrutiny Committee:

- 1) Consider and comment on the information provided.
- 2) Schedule further consideration as necessary.

Councillor Parry Tsimbiridis
Chairman of Joint City and County Health Scrutiny Committee

For any enquiries about this report please contact: Martin Gately – 0115 9772826

All

Nottinghamshire Division Seasonal Plan 2016-17

Date: 10 January 2017

Key Issues

1. Increase in emergency, urgent and hospital admissions/discharges/call demand
2. Availability of fleet and equipment for additional resources
3. Increase in hospital turnaround times
4. Increase to staff sickness levels and absences
5. Outbreak of pandemic influenza/infectious disease (e.g. noro-virus)
6. Adverse weather

Increase in demand

- Use activity prediction tool and plan resource output to adjusted levels
- Plan core and additional managerial cover across the Christmas period.
- Ensure maximum coverage from Community First Responders (CFRs) and Emergency Fire Responders (EFRs) during high activity for two week period over Christmas and New Year.
- Identify and promote care pathways that are available over the seasonal period.
- Proactively manage hospital turnaround and mobilization times, initialising the HALO role if appropriate.
- Utilise support from other EMAS teams eg, Events team and clinical education staff support.

Fleet and equipment

- Equipment – The Division will create central stock of spare equipment at each of the two locality HUB's (Beechdale and Kingsmill), to maintain a capability to deploy additional resources.
- The output of the Make Ready function needs to be maximised to avoid down time of vehicles for deep cleaning.
- Ensure fleet (mechanic) availability over the seasonal planning period, including bank holiday / weekend working arrangements and on-call

Increase in hospital turnaround times

- Management team to attend acute units in order to support and encourage turnaround times.
- Light duties members of staff to be identified to be placed at acute hospitals to support turnaround of crews.
- Senior team to take appropriate action based upon capacity level
- Encourage the use of Paramedic Pathfinder and alternative care pathways in order to prevent unnecessary admissions and appropriately clinically safety net the patient

Increase to staff sickness levels

- Managers to proactively manage sickness absence and return to work interviews in line with Divisional Sickness Absence Management Policy
- Proactively monitor and manage abstractions from core rotas.

Outbreak of pandemic influenza

- Refer to the EMAS 'Influenza Pandemic – UK Contingency and Business Continuity Planning' plan.
- Help to minimise cross contamination with continual use of aseptic techniques both whilst operational and within food preparation areas.
- Notification of infectious disease outbreaks in the community.

Adverse weather

- Road networks become hazardous due to severe weather conditions, thereby leaving some areas inaccessible and potential disruption to logistics/ support services function adverse weather.
- Issue to crews severe weather packs (flasks, energy bars etc.)
- Organise 4x4 availability to both get staff to stations and to respond to patients
- Ensure adequate supplies of salt / grit, anti-freeze, de-icers, screen wash, snow tyre chains, snow shovels etc. are available at station level. NB all ambulances have all weather tyres on them.
- Arrange for County/ Borough Council to grit stations.

10 January 2017**Agenda Item: 5****REPORT OF THE CHAIRMAN OF JOINT CITY AND COUNTY HEALTH
SCRUTINY COMMITTEE****NOTTINGHAM UNIVERSITY HOSPITALS – RESEARCH AND INNOVATION
UPDATE****Purpose of the Report**

1. To introduce the latest information from Nottingham University Hospitals (NUH) on research and innovation.

Information and Advice

2. NUH requested the opportunity to brief the Joint Health Committee on their latest research initiative – the aim of which is to deliver “research for all.”
3. A presentation from NUH is attached as an appendix to this report. Dr Maria Koufali, Deputy Director, Research & Innovation, and Caroline Shaw, Chief Operating Officer will attend the Joint Health Scrutiny Committee to present the information and answer questions.

RECOMMENDATION

That the Joint City and County Health Scrutiny Committee consider and comment on the information provided.

Councillor Parry Tsimbiridis

Research for All

Changing the future of healthcare with today's research

Dr Maria Koufali
Deputy Director
Research & Innovation

Caroline Shaw
Chief Operating Officer

Nottingham University Hospitals NHS Trust

- Transforming research in the NHS
- Increasing the volume of applied health research to benefit patients and the public
- Driving faster translation of basic science discoveries into tangible benefits
- Developing and supporting the people who conduct and contribute to applied health research
- Attracting investment by the life sciences industry through our world-class facilities for health research

Vision and mission

- Research and innovation are central to our ambition to deliver benefits for our patients and our economy
- Innovative, research-intensive organisations deliver better clinical outcomes for patients
- Our ambition is to become a national leader in clinical research and innovation which is rapidly translated to patient care

Our aims

- Our goal is to deliver “research for all” by significantly increasing opportunities for all patients and staff to participate in high quality research studies
- Our ambition is to become an outstanding clinical partner to academia, industry and local government and make NUH a centre for cutting-edge research and innovation

Nottingham a top recruitment centre for key Twin Birth Study

Nottingham recruited more than any centre in Australia, USA, Belgium or Germany for the Twin Birth Study, one of the most important current research trials in pregnancy. The study has completed recruitment of 2,800 participants worldwide and will test whether it is safer for twins to be born by Caesarean section, or in the normal way.

New Health Research Authority will have National Research Ethics Service at its core

Legislation to establish the new Health Research Authority was laid before Parliament today. The Authority will provide a new pathway for the regulation and governance of health research. The aim is to streamline regulation, create a unified approval process, and promote proportionate standards for compliance and inspection within a consistent national system of research governance. Created initially as a Special Health Authority, the Health Research Authority will have the National Research Ethics Service at its core.

FEATURED NOTTINGHAM INNOVATION

Surgery Models: New 3D Printing Techniques using MRI & CT Deliver Safer Surgery Training

A collaboration between Nottingham and Loughborough brings a major breakthrough in surgical training via the production of models that replicate complex bodily structures with high precision. Using data from CT or MRI scans, new 3D modelling techniques are enabling the creation of accurate ceramic models of the sinuses for the first time. And there's huge potential for it in other clinical areas like neurosurgery, cardiac and orthopaedics.

REPORT OF THE CHAIRMAN OF JOINT CITY AND COUNTY HEALTH SCRUTINY COMMITTEE

WORK PROGRAMME

Purpose of the Report

1. To introduce the Joint City and County Health Scrutiny Committee work programme.

Information and Advice

2. The Joint City and County Health Scrutiny Committee is responsible for scrutinising decisions made by NHS organisations, and reviewing other issues which impact on services provided by trusts which are accessed by both City and County residents.
3. The work programme for 2016-17 is attached as an appendix for information.

RECOMMENDATION

- 1) That the Joint City and County Health Scrutiny Committee note the content of the work programme for 2016-17 and dates for future meetings.

Councillor Parry Tsimbiridis
Chairman of Joint City and County Health Scrutiny Committee
