## report

meeting COUNTY COUNCIL

date 19<sup>th</sup> May 2011 agenda item number **13** 

REPORT OF THE CABINET MEMBER FOR CHILDREN AND YOUNG PEOPLE'S SERVICES AND CABINET MEMBER FOR FINANCE AND PROPERTY

### School Capital Strategy 2011/12 to 2013/14

### **Purpose of report**

 To seek County Council's approval to the school capital strategy for the years 2011/12 to 2013/14 and a major refurbishment programme designed to improve the quality of school buildings across the County.

#### Information and advice

#### **Background**

- 2. Following confirmation in December 2010 of the level of funding that the Government will be providing to the Council to support school buildings in Nottinghamshire, and the recent publication of the Government's "James Review" of school capital, options have been developed to provide recommendations to Members on how to prioritise the use of capital investment.
- 3. Given the scale of funding available, the opportunity to carry out a programme of major rebuilding works is no longer viable. The emphasis from Government is now ensuring the sufficiency of school places to meet demographic change and on the new "three R's" of school capital investment:-
  - Refresh
  - Refurbish
  - Reuse

#### The James Review

4. When, in July 2010, the Secretary of State for Education announced the cancellation of the Building Schools for the Future Programme, he commissioned a review of the future of schools capital led by Mr Sebastian James. Mr James is the Group Operations Director of DSG International plc and previously managed the Currys store building and transformation programme. This review of education capital, now known as the "James Review", published its recommendations in April of this year. The Secretary of State has welcomed the report and is considering his detailed response to the recommendations contained within it.

- 5. The 16 recommendations of the James Review are attached to this report as Appendix 1. It is unclear as to whether all the recommendations will be fully accepted and to what timescale, but initial analysis indicates that the recommendations of the James Review and the focus for the Council's school capital strategy as described in this report are entirely consistent. They both recommend a focus on school condition as the overarching rationale for future capital investment.
- 6. One of the recommendations of the James Review is that academies should form part of the range of Responsible Bodies that would constitute the forum for making capital investment decisions in the County. At present academies have access to a separate source of capital funding and have therefore been excluded from the proposed capital strategy. Dependent on the Secretary of State's response to the James Review, academies may have to be included in the Nottinghamshire programme in future years.

#### **Business Case for School Capital Strategy**

- 7. Local Authorities have a statutory duty to provide sufficient school places in their area. Local Authorities must also ensure that there are sufficient schools and promote diversity and parental choice. The fulfilment of these duties is described as meeting 'Basic Need'. The investment proposals outlined in this report ensure that the County Council is able to provide sufficient school places and the entitlement whereby all children will be able to access a school place in accordance with the County Council's statutory duty.
- 8. In Nottinghamshire we have a backlog of essential and urgent repairs of approx £190m across schools and other premises within the Children and Young People's portfolio. The majority of these are school buildings. This report recommends a focussed programme of improvement works over the next three years that will reduce this backlog and to ensure that all school buildings in Nottinghamshire are upgraded and kept above a minimum acceptable condition. This includes urgent attention to any maintenance issues that could affect health and safety.
- 9. The backlog of essential maintenance has been rising in recent years, primarily due to reductions in the planned maintenance programme and the fact that significant Government funding streams, such as Building Schools for the Future, have not prioritised school condition. This has resulted in a deterioration of the condition of many of the schools in the County, as much of the limited funding available has had to be targeted at addressing immediate health and safety issues, rather than maintaining the general fabric of the building stock. The proposed programme contained in this report is a significant investment, focussed on ensuring that all school buildings are fit for purpose and it

will go a long way towards tackling the most urgent elements of the near £200 million accumulated backlog.

#### **Investment Prioritisation and Funding**

- 10. A set of principles to guide the prioritisation of capital investment has been developed and consulted on with the whole school community. These principles are attached as **Appendix 2** to this report and it is recommended that they guide Member decisions in respect of the allocation of available funding.
- 11. The Government has provided capital grant funding of £20.8m in 2011/12 and indicated that this level of funding can be expected until at least 2013/14. The funding is provided by way of a non-ring fenced capital grant split between the provision of Basic Need funding (£7.6m) (to provide additional school places to meet increased demand) and Schools Maintenance funding to repair and refurbish the existing school estate (£13.2m). A more detailed note on this grant allocation is provided as **Appendix 3** to this report.
- 12. It should also be noted that the Government has reduced the level of funding provided direct to schools for building maintenance (known as Devolved Formula Capital) by approximately 80%, which in the case of Nottinghamshire schools equates to approximately £8m.
- 13. The Council has additional available revenue funding of £3m from 2012/13 which had previously been allocated to support the funding of the BSF programme. This would provide a further £30m of capital investment which has been allocated in the current capital programme at a level of £10m per annum for the years 2012/13 through to 2014/15.

#### **Summary of Funds Available**

14. When all available funding is added together it provides potential capital for the next three years as set out in Table 1 below:-

Table 1	2011/12 £	2012/13 £	2013/14 £	Total £
Govt Grant	20.8m	20.8m	20.8m	62.4m
Converted BSF funding	0	10.0m	10.0m	20.0m
Total Available Funding	20.8m	30.8m	30.8m	82.4m

#### **Basic Need Allocation**

- 15. Following the cancellation of the BSF secondary school programme in Nottinghamshire a review of the whole of the school estate and the pressures in respect of school places has been carried out.
- 16. This review has highlighted significant pressure on school places in both West Bridgford and the Newark area that will require additional provision within the three year planning window.

- 17. Additionally across the County there are a number of so called "mobile" classrooms that have been introduced as a temporary solution to deal with the need for additional places. Many of these "mobiles" have been in place for a number of years and are now falling into disrepair. Where there remains pressure on school places these mobiles require replacement with permanent provision.
- 18. A full list of mobiles is attached to this report as **Appendix 4**. This list of mobiles will be reviewed in respect of the continuing need for additional places in the area and prioritised in respect of their current condition.
- 19. Initial estimates of investment required to meet the provision of additional places is described in **Appendix 5** of this report and indicates the need for investment over the three year planning window as set out in Table 2 below:-

Table 2	2011/12 £	2012/13 £	2013/14 £	Total £
West Bridgford *	1.8m	2.1m	1.5m	5.4m
Newark **	0	2.7m	0.3m	3.0m
Mobile replacement	2.0m	0m	0m	2.0m
programme				
Total Basic Need Investment	3.8m	4.8m	1.8m	10.4m

<sup>\*</sup>Note – assumes additional Section 106 capital of £3.6m available from developer contributions in respect of Sharphill in 2011/12 (estimated date)

#### **Contingency Funding**

20. Due to the reduction in schools maintenance budgets this report recommends that the Council establishes a contingency fund of £1.5m per annum to cover emergency situations. If unused, this contingency budget can be carried forward into the funding for planned repair/refurbishment programmes in subsequent years.

#### **Schools Access Initiative**

21. In previous years, the Schools Access Initiative has provided specific funding to support adaptations and aids for children with disabilities. This funding has now been subsumed into the overall funding allocation and it is recommended that a notional sum of £0.5m per annum be ring fenced for Access Initiative work. Should the demand on the budget exceed £0.5m, in order for the County Council to meet its responsibilities under the Disability Discrimination Act, additional funding would have to be reallocated from within the overall programme.

<sup>\*\*</sup>It should also be noted that it is assumed that any Newark development will make use of existing Council owned land/buildings. Any site purchase would add to the cost of this project.

#### **Refurbishment Programme**

22. After the provision of Basic Need, Contingency and Access Initiative funding there is approximately £66m of funding available over the three year period to invest in a programme of school refurbishment. This is shown in Table 3 below:

Table 3				
Programme	2011/12 £	2012/13 £	2013/14 £	Total £
Available Funding	20.8m	30.8m	30.8m	82.4m
Basic Need	3.8m	4.8m	1.8m	10.4m
Access Initiative	0.5m	0.5m	0.5m	1.5m
Contingency	1.5m	1.5m	1.5m	4.5m
Remaining Funding	15.0m	24.0m	27.0m	66.0m

- 23. The funding identified in this report is all capital provision as opposed to revenue funding. In order to meet accounting regulations this can only be spent on works which add value to the asset, as opposed to day to day maintenance works.
- 24. It is recommended that this capital funding is invested on a pro-rata allocation of 55% primary phase provision to 45% secondary phase provision based broadly on the number and total square meterage of the buildings in the school estate. This allocation is set out in Table 4 below:-

Table 4	2011/12	2012/13	2013/14	Total
	£	£	£	£
Primary/Early Years	8.25m	13.2m	14.85m	36.3m
Secondary/Special	6.75m	10.8m	12.15m	29.7m
Total Refurbishment	15.0m	24.0m	27.0m	66.0m
Investment				

- There is likely to be some slippage from the first year of the programme dependent on when the decision is made to agree the specific projects and their individual complexity. This slippage is allowed in the grant conditions.
- The funding described in this report covers Early Years settings which form part of the County Council's estate as well as all Primary, Secondary and Special Schools – these are referred to as "schools" throughout this report
- 25. The prioritisation of the refurbishment programme funding has now been confirmed following the completion of the analysis of the asset register condition survey by the Council's Property Team. This analysis has identified the schools with the most immediate issues in respect of heating, windows, roofing and basic fabric of the building. Schools have been prioritised based on the investment required per square

- metre to ensure that there is an equitable distribution between large and small schools.
- 26. The initial list of proposed projects for year 1 of the programme and the indicative programme for years 2 and 3 are attached as **Appendix 6** of this report. These lists are shown in priority order within each of the years based on the investment required per square metre. All proposed projects are subject to a feasibility study which will confirm the actual level of investment required and viability of the project.
- 27. The programme for years 2 and 3 will be confirmed at the start of the financial years 2012/13 and 2013/14 respectively, by which time there should be clarity around the implications of the James Review. In addition this will allow the latest information available to be utilised to confirm the priority of the projects.

#### The Treatment of Academies and Voluntary Aided Schools

28. In line with guidance received from the Department for Education this report recommends that the Council's funding in respect of school refurbishment should focus on those schools that remain its statutory responsibility to maintain. Additionally, this report recommends that Voluntary Aided schools are treated in the same way as they are within the County Council's Planned Maintenance programme and should therefore be included within this capital programme. Schools that have already received the Secretary of State's permission to convert to academy status, or have other plans in place that would provide alternative capital investment, are excluded from the programme.

#### **Future Potential School Amalgamations**

29. In future if there is a business case to provide additional investment in order to facilitate the amalgamation or co-location of two or more schools and this allows the County Council to free up existing land or buildings, this will be considered on a case by case basis through the Council's existing Corporate Asset Management Group and the appropriate Member approval routes.

#### **Financial Approval**

30. The approved capital programme, in relation to the proposals contained in this report, includes the following existing provision for schools capital (subject to business cases being approved), as set out in Table 5 below:

Table 5	Condition	Basic Need	Total
Year	£	£	£
2011/12	Nil	9.5m	9.5m
2012/13	10.0m	2.5m	12.5m
2013/14	10.0m	2.5m	12.5m
Total	20.0m	14.5m	34.5m

31. The rest of the investment required will need allocation from the funding earmarked for 'future capital schemes' in the budget approved by the County Council at its budget meeting on 24 February 2011. The additional amounts involved are set out in Table 6 below:

Table 6	
Year	£
2011/12	11.3m
2012/13	18.3m
2013/14	18.3m
Total	47.9m

#### **School Capital Programme and Approval Mechanisms**

32. The overall programme is set out in Table 7 below:

Table 7				
Programme	2011/12 £	2012/13 £	2013/14 £	Total £
Refurbishment	15.0m	24.0m	27.0m	66.0m
Basic Need	3.8m	4.8m	1.8m	10.4m
Access Initiative	0.5m	0.5m	0.5m	1.5m
Contingency	1.5m	1.5m	1.5m	4.5m
Total	20.8m	30.8m	30.8m	82.4m

- 33. The individual projects within the programme will be defined on the basis of the policy criteria and guiding principles set out in **Appendix 2** of this report. The precise make up of the works to be undertaken in individual projects is to be determined following further feasibility work and consultation with schools affected.
- 34. In order to meet the requirements of the County Council's Financial Regulations (paragraph 4.5.2), in relation to Latest Estimated Costs, the Corporate Directors for Children, Families & Culture, and Environment and Resources secure approval of the Cabinet Members for Children and Young People, and Finance and Property for all the individual schemes in the programme estimated to cost between £250,000 and £1 million. The same report will be also be submitted to the Service Director, Finance (represented by Heads of Service, Departmental Budgeting and Accounting). The tow Members will also be provided with quarterly update reports on the full programme.
- 35. The actual costs of the individual schemes will be controlled through target costs using the established framework contracts already in place. In addition the nature and type of the investment covered by the programme must satisfy the Service Director for Finance that the expenditure qualifies for the definition of 'capital'.
- 36. In order to expedite year one of the programme delivery, it is proposed that for the schemes up to £1million, as shown in **Appendix 6**, this report is the LEC report. In view of the fact the cost of the schemes as

shown is based on condition survey data there will be the need to revise the cost estimates following further feasibility and preparatory work. Any variations arising for amounts up to £250,000 for each project included in the programme will be approved by the Cabinet Member for Finance and Property, as per financial regulations (paragraph 4.2.6.1). For years 2-3 of the programme and for all projects over £1 million there will be separate LEC reports on the programme as required under the County Council's Financial Regulations.

### Statutory and policy implications

37. This report has been compiled after consideration of implications in respect of finance, equal opportunities, personnel, crime and disorder and those using the service. Where such implications are material, they have been described in the text of the report. Attention is however drawn to the following:-

#### **Financial implications**

38. As described throughout the report.

#### Implications for service users

39. It is recognised that the condition of the school buildings can contribute the learning experience of children and young people as well as influencing the decision of parents and families in applying for a school place. Improving school building condition across the County will support the drive for improved educational outcomes.

#### **Property implications**

40. As described throughout the report.

#### RECOMMENDATION

- 41. That the Council gives its approval to:
  - (1) the principles for the prioritisation of capital investment in the school estate as described in **Appendix 2** of this report
  - (2) the specific capital allocation of £47.9 million as set out in paragraph 31 of the report
  - (3) the overall programme of £82.4 million for years 2011/14 as set out in paragraph 32 of the report
  - the programme of proposed refurbishment projects as set out in **Appendix 6,** subject to LEC reports as appropriate.

#### **COUNCILLOR PHILIP OWEN**

Cabinet Member for Children and Young People's Services

#### **COUNCILLOR REG ADAIR**

Cabinet Member for Finance and Property

### Legal Services' comments (LM/05.05.11)

42. Full Council may approve the recommendations in the report.

## Financial comments of the Service Director – Finance (NDR)

43. The financial implications are set out in the report.

#### Background papers available for inspection

Review of Education Capital – Sebastian James – April 2011

### Electoral division(s) affected

Nottinghamshire

M19C2793

# **Summary of James Review Recommendations**

1	Capital investment and apportionment should be based on objective facts and use clear, consistently-applied criteria.  Allocation should focus on the need for high-quality school places and the condition of facilities.
2	Demand-led programmes, such as Free Schools, are most sensibly funded from the centre and a centrally retained budget should be set aside for them.
3	The Department should avoid multiple funding streams for investment that can and should be planned locally, and instead apportion the available capital as a single, flexible budget for each local area, with a mandate to include ministerial priorities in determining allocations.
4	Notional budgets should be apportioned to Local Authority areas, empowering them fully to decide how best to reconcile national and local policy priorities in their own local contexts. A specific local process, involving all Responsible Bodies, and hosted by the Local Authority, should then prioritise how this notional budget should be used.
5	The local prioritisation decisions should be captured in a short local investment plan. There should be light-touch central appraisal of all local plans before an allocated plan of work is developed so that themes can be identified on a national level and scale-benefits achieved. This must also allow for representations where parties believe the process has not assigned priorities fairly.
6	Individual institutions should be allocated an amount of capital to support delivery of small capital works and ICT provision.  Wherever possible, this should be aggregated up to Responsible Bodies according to the number of individual institutions they represent, for the Responsible Body then to use for appropriate maintenance across its estate, working in partnership with the institutions.
7	The Department ensures there is access to clear guidance on legal responsibilities in relation to maintenance of buildings, and on how revenue funding can be used for facility maintenance.

**Appendix 1 Continued** 

That the Department:  gathers all local condition data that currently exists, and implements a central condition database to manage this information.  carries out independent building condition surveys on a rolling 20% sample of the estate each year to provide a credible picture of investment needs, repeating this to develop a full picture of the estate's condition in five years and thereafter.  That the Department revises its school premises regulations and guidance to remove unnecessary burdens and ensure that a single, clear set of regulations apply to all schools. The Department should also seek to further reduce the bureaucracy and prescription surrounding BREEAM assessments.  There should be a clear, consistent Departmental position on what fit-for-purpose facilities entail. A suite of drawings and specifications should be developed that can easily be applied across a wide range of educational facilities. These should be co-ordinated centrally to deliver best value.  The standardised drawings and specifications must be continuously improved through learning from projects captured and co-ordinated centrally. Post occupancy evaluation will be a critical tool to capture this learning.  As many projects as possible currently in the BSF and Academy pipeline should be able to benefit from the Review's findings to ensure more efficient procurement of high quality buildings. This should be an early priority to identify where this could be done.  That the Central Body should put in place a small number of new national procurement contracts that will drive quality and value from the programme of building projects ahead.  That the Department uses the coming spending review period to establish a central delivery body and procurement model, whereby the pipeline of major projects — to a scale determined by the Department — is procured and managed centrally with funding retained centrally for that purpose.  The Department provent and managed centrally with funding retained centrally for that purpose.  The Department rev		Appendix 1 Continued

This should be an early priority to identify where this could be done.  That the Central Body should put in place a small number of new national procurement contracts that will drive quality and value from the programme of building projects ahead.  That the Department uses the coming spending review period to establish a central delivery body and procurement model, whereby the pipeline of major projects – to a scale determined by the Department – is procured and managed centrally with funding retained centrally for that purpose.  The Department quickly takes steps to maximise the value for money delivered through maintenance and small projects and puts in place a simple and clear national contract to make this happen.		· · · · · · · · · · · · · · · · · · ·
also seek to further reduce the bureaucracy and prescription surrounding BREEAM assessments.  There should be a clear, consistent Departmental position on what fit-for-purpose facilities entail. A suite of drawings and specifications should be developed that can easily be applied across a wide range of educational facilities. These should be co-ordinated centrally to deliver best value.  The standardised drawings and specifications must be continuously improved through learning from projects captured and co-ordinated centrally. Post occupancy evaluation will be a critical tool to capture this learning.  As many projects as possible currently in the BSF and Academy pipeline should be able to benefit from the Review's findings to ensure more efficient procurement of high quality buildings. This should be an early priority to identify where this could be done. 		implements proposals where they are appropriate.

#### **Capital Investment Principles**

The following principles are proposed for consideration (in no particular order):-

#### The County Council will:

- Meet the statutory responsibility to secure sufficient school places and maintain entitlement whereby all children will be able to access a school place in accordance with the School Policy and statutory duty
- Take a strategic view across the County when establishing local priorities
- Allocate available funding on an equitable basis between the secondary, special school and primary/early years estate
- Maximise every opportunity to secure appropriate funding for investment in service infrastructure e.g. Section 106/CIL contributions and financial contributions from service providers including schools
- Promote new and creative ways to deliver services including continuous review and rationalisation of provision to ensure best value
- Work with local dioceses and other partners to maximise opportunities and investment in CYPS buildings
- Ensure that all investment strategies maximise opportunities to improve provision, following evaluation of appropriateness, access, location and size
- Consider building condition as a core criterion when establishing priorities for future investment and review the priorities as defined by the Council's Condition Survey on an annual basis
- Give consideration to a range of mechanisms for evaluating buildings in accordance with service needs and condition survey information
- Remove temporary mobile accommodation wherever and whenever possible and only consider their use to alleviate short-term and emergency situations
- Focus investment on resolving the backlog of building condition issues rather than their planned preventive maintenance
- On a case by case basis, seek to incorporate other work where economies of scale exist and where there is a sound business case

#### **School Capital Funding Announcement 2011/12**

On 13 December 2010, the Secretary of State announced details of capital funding allocations for 2011/12 to schools and local authorities. Nottinghamshire's allocations are as follows:-

Grant Programme	Allocation (£)
Basic Need (LA for all schools)	7,598,582
Capital maintenance (LA maintained schools)	13,247,951
Total LA funding	20,846,533
Devolved Formula Capital (maintained schools)	2,472,300
Devolved Formula Capital (VA schools)	402,056
LCVAP funding (VA Schools)	1,961,483
Total LA plus all maintained schools in area	25,682,372

#### **Summary of funding streams**

#### **Basic Need (unringfenced)**

The LA is responsible for ensuring sufficient school places are available in the area. When prioritising this Basic Need allocation to meet growth in pupil numbers, all sectors should be considered. This includes voluntary aided schools, open academies and especially new free schools.

#### **Capital Maintenance (unringfenced)**

The LA should use the capital maintenance allocation to support the needs of the schools that it maintains and for the Sure Start Children's Centres in their area.

#### **Devolved Formula Capital (ringfenced)**

This allocation is devolved to schools. Nottinghamshire schools received £13 million per annum between 2008 and 2011. The 2011/12 allocation represents an 80% reduction. This will have a major impact on the level of capital funding available to schools.

#### Locally Co-ordinated Voluntary Aided Programme (LCVAP)

This allocation is managed by Nottinghamshire's Dioceses and is used to support the maintenance capital needs of Voluntary Aided Schools.

#### Other Issues

- All of the 2011/12 capital funding will be delivered as capital grant.
   Associated terms and conditions are not yet available.
- LA capital allocations (Basic Need and Capital Maintenance) are unringfenced and do not necessarily have to be spent on CFCS capital projects.
- There is no mention of Schools Access Initiative funding.
- The level of support for basic need and capital maintenance is expected to stay in line with the 2011/12 allocations until 2013/14.

#### **MOBILE CLASSROOMS LOCATED AT NCC SCHOOLS - APRIL 2011**

#### **Ashfield**

**Beardall Street Primary** 

Jacksdale Primary

Westwood Infant

**Croft Primary** 

Leen Mills Primary

Mapplewells Primary

Arnold Hill School & Technology College

Colonel Frank Seely Comprehensive

Ernehale Infant

St John the Baptist CE Primary

Westdale Infant

The Wheldon School & Sports Centre

**Derrymount Special** 

Hawthorne Primary

#### Appendix 4 (Continued)

#### **Mansfield**

Church Vale Primary

Leas Park Junior

Farmilo Primary

**Brunts Comprehensive** 

Queen Elizabeth's Endowed Comprehensive

All Saints Catholic Comprehensive

Garibaldi Comprehensive

St Philip Neri with St Bede's Primary

Yeoman Park Special

Beech Hill Special

#### Newark

Chuter Ede Primary

Blidworth Oaks Primary

Coddington Primary

All Saints Anglican/Methodist Primary

Kneesall CE Primary

North Clifton Primary

**Lakeview Primary** 

Lowe's Wong Junior

Walesby CE Primary

**Grove Comprehensive** 

Caravan Nursery (Nursery managed by Mount CE Primary)

#### **Rushcliffe**

Cotgrave CE Primary

Lantern Lane Primary

**Edwalton Primary** 

Flintham Primary

**Sutton Bonington Primary** 

**Abbey Road Primary** 

**Heymann Primary** 

Lady Bay Primary

West Bridgford Junior

Willoughby Primary

**Toot Hill Comprehensive** 

South Wolds Community School

West Bridgford Comprehensive

Ash Lea Special

**Robert Miles Infant** 

**Cropwell Bishop Primary** 

Radcliffe on Trent Junior

Rushcliffe Comprehensive

Pierrepont Gamston Primary

#### **Basic Need Requirements**

	2011/12	2012/13	2013/14	Total
	£	£	£	£
Sharphill	3.6m	0.5m	1.5m	5.6m
Developer Contribution	(3.6m)	0	0	(3.6m)
00111110011011				
Pierrepont G	1.8m	1.6m	0	3.4m
Newark	0	2.7m	0.3m	3.0m
Mobile	2.0m	0	0	2.0m
Replacement				
Total Council Investment	3.8m	4.8m	1.8m	10.4m

- This analysis only covers those areas where there is existing data to support a Basic Need case for additional school places.
- As further hard evidence becomes available in respect of additional Basic Need cases additional funding requirements may be developed for approval.
- Specific circumstances relating to each of the areas may change over time and the Basic Need case will be reviewed prior to any capital investment being confirmed.

# Refurbishment Programme - Proposed Projects (subject to feasibility study)

### Year 1 Schools Capital Refurbishment Programme List (in priority order)

Refurbishment Work identified as Priority 1 or 2 in the current Condition Survey, primarily associated with the following building elements

	Roofing	External Walls (incl Windows	Mechanical Installation	Electrical Installation	Value of works as per condition survey £000's
Secondary Schools					
Meden School and Technology					1,407
College	Х	Х	X	X	
Alderman White School (Bramcote					404
Hills site)	Х	Х	X	X	431
Grove Comprehensive School	Х	Х	X	Х	1,665
Magnus C of E Comprehensive	X	Х	X	Х	1,217
Special Schools					
Ash Lea	Х	Х	X	Х	285
Grove Pupil Referral Unit	Х	Х	х	Х	123
Primary Schools & Early Years					
Ethel Wainwright Primary	Х	Х	x	X	884
Sutton cum Lound C of E Primary	^	^	^	^	187
School	X	X	x	x	107
Kneesall C of E Primary School	X	X	X	X	118
Rosebrook Primary and Nursery	X	X	X	X	852
Normanton-on-Soar Primary		X	X	X	124
Annie Holgate Junior School	Х	X	X	X	721
Brinsley Primary & Nursery	X	X	X	X	382
Newlands Junior	X	X	7.	X	229
St Peter's (East Bridgford) C of E					190
Primary		x		x	
Orchard Primary & Nursery	х	Х		х	184
Croft Primary	х	Х		Х	278
Forest View Junior School	х	х	Х	х	238
William Lilley Infant & Nursery			Х	Х	162
Holly Hill Primary & Nursery		Х	Х	х	301
Holy Cross Catholic Primary School		Х	X	Х	156
Annie Holgate Infant & Nursery and					
Children's Centre	x	x		x	252
Hawthorne Primary and Nursery		Х	Х	Х	69
Hawtonville Junior School	Х	Х	Х	Х	239
Leamington Primary & Nursery School	Х	Х	Х	Х	290

NB – The total cost of the works required according to the Condition Survey is shown for information only and the actual cost of each scheme will be confirmed following completion of detailed feasibility work and discussion with individual schools.

Allocations for Years 2 and 3 of the programme are subject to the latest available data and confirmation of funding allocation. However, current data indicates that the following schools would be considered for refurbishment, subject to detailed feasibility and review of latest condition information.
