

- NOTES**
1. This drawing shows the updated revised layout of the enlarged 60m ICD roundabout improvements.
  2. The proposed lane destination markings are provided to suit the current and future traffic forecast (2033) requirements.
  3. The proposed lane destination markings are provided to suit the current and future peak flow and are suggested to complement the road signage to reduce the potential conflict associated with vehicles crossing over lanes.
  4. The precise extents of private land are subject to change which may be required as a result of the detailed design process.

**KEY**

	Proposed carriageway areas
	Proposed footway areas, areas of red and buff contained within footways are tactile paving at crossing location
	Proposed traffic islands and hardstanding area on roundabout island
	Proposed embankment/verge areas
	Proposed landscaped areas
