

Report to Culture Committee

2 October 2012

Agenda Item: 5

REPORT OF THE GROUP MANAGER PLANNING

LOCAL IMPROVEMENT SCHEMES HERITAGE AND CONSERVATION PROJECTS

Purpose of the Report

1. To provide an update on the Heritage and Conservation projects being delivered through the County Council's Local Improvement Schemes in 2012/13.

Information and Advice

- 2. Priority Two of the County Council's Strategic Plan 2010 2014 is to promote the economic prosperity of Nottinghamshire and safeguard our environment and one of the key actions for delivery of this Priority is to "physically improve the local natural and historic environment through the delivery of the local improvement schemes programme".
- 3. Heritage and conservation schemes have been part of the overall Local Improvement Schemes programme since April 2005 (Year 2). They are delivered on behalf of the LIS programme by 3 F.T.E. temporary Community Conservation Project Officers in the Conservation Team, supported by the conservation and heritage specialists and working in partnership with local communities, volunteers, Parish Councils and organisations such as Groundwork. All of the Conservation and Heritage projects are instigated by local communities and groups and they are closely involved at all stages through to delivery. In 20011/12 almost 5000 hours of volunteer time were recorded. Some of the projects are also able to attract match funding from, for example, Heritage Lottery Fund, English Heritage and landfill tax, bringing £350,000 of additional funding into the County last year.
- 4. The 2012/13 programme of Local Improvement Schemes was approved by Cabinet on the 14th March 2012 and includes 62 heritage and conservation projects from both urban and rural communities across the County, with total County Council funding of just under £900,000. A list of the schemes is included in Appendix 1.
- 5. Projects to improve the natural environment include:
 - Supporting volunteer groups to enhance biodiversity and reduce flood risk by removing invasive non-native species such as Himalayan Balsam along the Rivers Maun and Meden in both Ashfield and Mansfield.
 - Planting native tree species in Worksop, Mansfield, Norwell and Arnold.
 - · Creating community gardens in Beeston and Beckingham.
 - Contributing to a larger project to restore water meadows in Cuckney.
 - Enhancing a network of ponds in Southwell.
 - Creating a community orchard in Ruddington.
- 6. Improvements to the County's historic environment include:

- Work to help restore listed buildings and scheduled ancient monuments in Tuxford, Blidworth, Worksop and Newark.
- The restoration or creation of seven war memorials.
- Contributing to a much larger project to create a heritage centre in disused canal buildings at Beeston Lock, which will hopefully draw down over £0.5m of funding from the Heritage Lottery Fund.
- The restoration of other heritage assets such as pinfolds (Scarrington), bandstands (Langold), clocks (Misterton) and a Miners' Banner (Ollerton).
- 7. There are also a range of projects to improve both physical and intellectual access to the County's environment such as the creation of heritage trails (e.g. Kimberley and Shelford), provision of interpretation (North Muskham, Arnold and Selston), graveyard surveys and mapping (Coddington) and allotment projects in for example Sutton in Ashfield and Calverton. Schemes also include improvements to paths, the provision of picnic tables and seating, planting wildflowers and hedges and the creation of sculptures and outdoor classrooms.
- 8. In addition to the potential £0.5million of additional funding for Beeston Lock heritage centre, a further £86,000 of match funding for other projects has been identified so far.

Other Options Considered

9. Not applicable.

Reason/s for Recommendation/s

10. The County Council's Local Improvement Scheme has been very successful in helping to deliver the strategic objective to safeguard the County's environment. Local communities and groups are supported in restoring and enhancing their natural and historic environment, attracting significant amounts of investment into the Nottinghamshire and helping to make the County a more attractive place to live and work.

Statutory and Policy Implications

11. This report has been compiled after consideration of implications in respect of finance, equal opportunities, human resources, crime and disorder, human rights, the safeguarding of children, sustainability and the environment and those using the service and where such implications are material they are described below. Appropriate consultation has been undertaken and advice sought on these issues as required.

RECOMMENDATION/S

1) To note the success of the County Council's Local Improvement Schemes programme in physically improving the local natural and historic environment and the current programme of Heritage and Conservation projects.

Sally Gill

Group Manager Planning

For any enquiries about this report please contact: Heather Stokes, Conservation Team Manager (0115 969 6508)

Constitutional Comments

12. This report is for noting only by the Culture Committee. No legal issues arise at present. (NAB 19.09.12)

Financial Comments (DJK 19.09.12)

13. The contents of this report are duly noted; the Conservation Team will continue to support communities in applying for these grants within the confines of the L.I.S. budget and for match funding where applicable.
