- RESTORATION CONTOUR (MAJOR/MINOR)
- QUARRY FACE

All locations and boundaries are indicative only and should not be scaled.

#### GENERAL RESTORATION PRINCIPLES

To restore the southern 0.75ha. of the permission area to a mix of calcareous grassland, exposed quarry faces and open water. Calcareous grassland to be established by natural regeneration.

Previously excavated materials overlying stone reserves in the northern section of the site to be used in restoration.

Final landform will be dependant on the volume of materials available but will not exceed the height of the surrounding land. Final cover material to comprise of from limestone fines with no imported materials or nutrient rich soils to be used in restoration.
