

Report to Transport and Highways Committee

6th February 2013

Agenda Item:9

REPORT OF SERVICE DIRECTOR, HIGHWAYS

CHARGES FOR HIGHWAYS SERVICES 2013/14

Purpose of the Report

1. To outline the outcomes of the review of the charges for services which Highways provide and seek approval from Committee to the charges for 2013/14. It is proposed no increase in charges is made and this is to reflect the efficiencies and savings made during 2012/13 and to support the local economy.

Information and Advice

Other Options Considered

2. The County Council could choose not to review the charges it makes but this would not follow its commitment to do so given in last year's report (Charges for Highways Services 2012/2013) to the Cabinet Member for Transport and Highways and agreed by him on the 6th March 2012

Reason/s for Recommendation/s

3. The County Council has powers to recover its reasonable costs in the preparation and publication of documentation and data through the Local Government Act 1972 and the Local Government (Miscellaneous Provisions) Act 1976. Similarly, Local Authorities have been able to charge for various services associated with their duties under the Highways Act 1980 and the Road Traffic Regulation Act 1984. These powers have been supplemented by the New Roads and Street Works Act 1991, the Local Authorities (England) (Charges for Land Searches) Regulations 2008 and the Local Authority (Transport Charges) Regulations 1998. Additionally there are general powers for charging for discretionary services through the Local Government Act 2003.

Charging Proposals for 2013/2014

- 4. The annual review of charges for Highways Services has now been undertaken and the proposals are as set out in the attached Appendix A. Apart from an increase to account for inflation (2.7%) in some charges that are not set by statute there will be no other increases in the charges set by the Authority. This reflects the efficiencies and savings made during the last year. This approach also supports the local economy (on which many of the charges fall).
- 5. As reported to Committee and approved at its meeting on the 22nd November 2012 there has also been a reduction in the costs to local businesses in obtaining brown tourism signs. The previous £200 application fee has been removed which has removed a major obstacle for many attractions in developing their businesses and assisting the County in developing as a major national and international visitor destination with the economic benefits that this brings.

Statutory and Policy Implications

6. This report has been compiled after consideration of implications in respect of finance, the public sector equality duty, human resources, crime and disorder, human rights, the safeguarding of children, sustainability and the environment and those using the service and where such implications are material they are described below. Appropriate consultation has been undertaken and advice sought on these issues as required.

Implications for Service Users

7. By avoiding any increases beyond inflation and in some cases decreasing the charges made for its highway services the County Council has demonstrated its continued commitment to assist local businesses and the public generating economic growth within the County.

Financial Implications

8. If the proposed charges are made there will be no adverse financial impacts on the Authority.

Equalities Implications

9. None

Crime and Disorder Implications

10. None

Human Rights Implications

11. None

Safeguarding of Children Implications

12. None

Human Resources Implications

13 None

Implications for Sustainability and the Environment

14. None

RECOMMENDATION/S

- 1) Approval be given for the proposed charges for highways services, documents and data for the financial year commencing 1 April 2013.
- 2) All charges for highways services continue to be reviewed annually and also as may be required consequent on any change in circumstances.

For any enquiries about this report please contact:

15. Clive Wood – Service Manager, Highway Policy and Development.

Constitutional Comments [SB 19/12/12]

16. There are no site specific issues to address in this Report in terms of setting the recommended general charging levels.

Financial Comments [IC 17/12/12]

17. Financial implications are as outlined in paragraph 8.

Background Papers

Except for previously published documents, which will be available elsewhere, the documents listed here will be available for inspection in accordance with Section 100D of the Local Government Act 1972.

Electoral Division(s) and Member(s) Affected
