

- NOTES**
1. This drawing shows the updated revised layout of the enlarged 55m IOD roundabout improvements.
 2. The lane arrangements are configured to suit the current and future traffic forecast (2033) requirements.
 3. The proposed lane destination markings are provided to suit the current and future peak flow and are suggested to complement the road signage to reduce the potential conflict associated with vehicles crossing lanes.
 4. The revised layout has been produced using OS information, the layout is to be updated against topographical survey information. The topographical survey (part survey) is shown on the layout for reference.
 5. The precise extents of private land are subject to change which may be required as a result of the detailed design process.

KEY

- Carriageway
- Service road carriageway
- Footway
- Traffic Islands
- Vegementment
- Landscape areas. No planting in visibility splays
