

Purpose

1. To provide the Communities and Environment Standing Committee with the opportunity to review the programme of work.

Information

2. The Communities and Environment Standing Committee is responsible for monitoring and influencing the development of communities, highways and the environment across the county.

Work Programme

3. The Communities and the Environment Standing Committee is now commencing a review of tourism issues with a focus on economic regeneration.

Waste Management

4. The briefing on waste management previously scheduled for 31st October has been deferred to a future meeting (date to be confirmed).

Seasonal Canine Illness/Dog Deaths Study Group

5. The SCI/Dog Deaths Study Group last met on 14th October for a work planning session. In addition, Members of the study group will attend a special Animal Health Trust seminar on 2nd November at Rufford Mill.

Further Information

6. to Members are invited to consider the programme of work and to suggest other issues about which that the Committee may wish to

receive further information. When requesting information the Standing Committee should seek to ensure that there will be a meaningful outcome from consideration of an item or a benefit to the people of Nottinghamshire. The Standing Committee should generally avoid agenda items that are for information or noting.

Recommendation:

It is recommended that the Communities and the Environment Standing Committee agree the programme of work.

Councillor Sue Saddington

Chair of Communities & the Environment
