BLUE BADGE SCHEME - NOTES FOR USE BY APPLICANTS (Please detach this guidance before returning the completed form)

Please use these notes to guide you when completing form BB2.

A badge may be issued to organisations whose responsibility includes the care and transportation of disabled people, who would meet the eligibility criteria for a badge should they apply individually. The criteria that individual applicants have to fulfil to get a badge are set out below. At least one person who meets the criteria must be travelling in the vehicle when the badge is used. Using the badge in any other circumstances counts as misuse and may incur a fine of up to £1,000.

In all circumstances, badges will be supplied to organisations or departments (e.g. Social Services Department) rather than to individual staff members.

Set out below are the eligibility criteria for a blue badge. You can get further information by looking online at www.dft.gov.uk

Type 1: Eligible without further assessment

Individual applicants will be eligible for a badge without further assessment if they are more than two years old and meet at least one of the following **eligibility criteria**:

- **Registered severely sight impaired (blind) people** - applicants are asked to state the name of the local authority or borough with which they are registered. Local Authorities check with the named authority that the applicant is registered as severely sight impaired (blind). **The formal notification required to register as severely sight impaired (blind) is a Certificate of Vision Impairment (CV1), signed by a Consultant Ophthalmologist. However, registration is voluntary.**
- **People who receive the Higher Rate Mobility Component of the Disability Living Allowance (HRMCDLA).** A person receiving HRMCDLA will have had an award notice letter from the Disability and Carers Service (DCS) or a vehicle with excise duty exemption. If the person has lost this the DCS can provide another copy.
- **People who receive a War Pensioners Mobility Supplement (WPMS).** A person receiving WPMS will have an official letter from the Service Personnel and Veterans Agency demonstrating receipt of the grant.

The organisation may be asked to provide the appropriate documentation relating to individuals to prove eligibility under one of the criteria. An example of proof of entitlement is proof of payment of the allowance.

Type 2: Eligible subject to further assessment

Individuals may be eligible for a badge subject to further assessment if they have:

- **a severe disability affecting both arms.** Applicants must be the driver of the car, and satisfy three conditions in order to obtain a badge i.e. drive regularly; have a severe disability in both arms and are unable, or find it hard, to use parking meters. Local authorities may make arrangements to meet applicants.
- **a medical condition** which means that they must always be accompanied by bulky medical equipment which cannot be carried around, or need to be kept near a vehicle at all times, either for treatment or for transportation to a location where treatment can be performed, **and they are under 2 years old.**
- **a permanent and substantial disability (i.e. a condition that is likely to last at least three years), which means they cannot walk or which makes walking very difficult.** People with a behavioural or psychological disorder will not normally qualify unless their impairment causes very considerable difficulty in walking all the time.

Applicants are asked to describe the nature of their disability and give an estimate of the maximum distance they can walk without assistance or severe discomfort.

Applicants are asked to work out how far they can walk and organisations should be aware of the guidance below when applying for a badge for people who are not “eligible without further assessment”. The following guidance is given to individual applicants:

- Ask someone to walk with you and pace the distance you walk. The average adult step is just under one metre. For example, if the person walking with you took 100 steps, you would have walked about 90 metres.
- A size 9 shoe is about a third of a metre.
- The average double-decker bus is about 11 metres long.
- A full-size football pitch is about 100 metres long.

If you still find it difficult to work out the distance you can walk in metres, please tell us:

- The number of steps you can take, and how long, in minutes, it would take you to walk this distance.
- About your walking speed.
- The way that you walk, for example, shuffling or small steps etc.

Your local authority may ask you to be assessed by a medical professional, such as a physiotherapist or occupational therapist.

Section B - For further information

This section should be used to add any further relevant information that has not already been covered elsewhere.

Declaration

All applicants must sign and date the form.
