

Equality Impact Assessment (EqIA)

Introduction

This EqIA is for:

Further expansion of Assistive Technology (AT) to promote independence

Details are set out: C08 Option for Change

Officers undertaking the

assessment:

Mark Douglas, AT Manager

Assessment approved by: Caroline Baria, Service Director, Strategic Date: Sept. 2015

Commissioning, Access and Safeguarding

The Public Sector Equality Duty which is set out in the Equality Act 2010 requires public authorities to have due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation; Advance equality of opportunity between people who share a protected characteristic and those who do not; Foster good relations between people who share a protected characteristic and those who do not.

The purpose of carrying out an Equality Impact Assessment is to assess the impact of a change to services or policy on people with protected characteristics and to demonstrate that the Council has considered the aims of the Equality Duty.

Part A: Impact, consultation and proposed mitigation

1 What are the potential impacts of proposal? Has any initial consultation informed the identification of impacts?

The proposal will seek to provide cost effective care and improve the independence and dignity of vulnerable adults eligible for community care services. The nature of many assistive technology (AT) interventions means that older people with dementia will be particularly targeted by this initiative.

This approach is consistent with the aims of the Adult Social Care Strategy which has already been subject to consultation, and included specific references to the use of AT to provide cost effective care. AT is used to help increase the independence of vulnerable older people and people with dementia by reducing the need for more intrusive care and support, and as such, it should have a positive impact. However, some people may perceive the use of AT as resulting in a reduction in support.

The use of AT solutions to provide care and support will be dependent on each individual and their carers agreeing to the use of such equipment and therefore individual choice will be maintained. Where an individual is assessed under the Mental Capacity Act as lacking the ability to make a decision, a Best Interest Assessment will be undertaken.

2 Protected Characteristics: Is there a potential positive or negative impact b				ve impact based on:
	Age	✓ Positive	□ Negative	☐ Neutral Impact
	Disability	✓ Positive	□ Negative	☐ Neutral Impact
	Gender reassignment	☐ Positive	□ Negative	Neutral Impact ■
	Pregnancy & maternity	☐ Positive	□ Negative	✓ Neutral Impact
	Race including origin, colour or nationality	☐ Positive	□ Negative	✓ Neutral Impact
	Religion	☐ Positive	□ Negative	✓ Neutral Impact
	Gender	☐ Positive	□ Negative	✓ Neutral Impact
	Sexual orientation including gay, lesbian or bisexual	☐ Positive	□ Negative	✓ Neutral Impact
Where there are potential negative impacts for protected characteristics these should be detailed including consideration of the equality duty, proposals for how they could be mitigated (where possible) and meaningfully consulted on: How do the potential impacts affect How might negative impact be How will we consult				
people with protected characteristics What is the scale of the impact?		s mitigate	d or explain why it is not	Flow will we consult
The use of AT is not fully understood – and it may be perceived negatively		increas will nee AT and	e of AT interventions is to e independence. Individuals ed to consent to the use of therefore will have the to decline the service.	Individual consultation will take place with affected service users. Where a person is assessed as lacking capacity to make a decision a Best Interest Assessment will be undertaken.
Par 4	t B: Feedback and furth	_	tion and further amendments to p	oroposal / mitigation
