

Children's Trust Roadshows

Overview of the "Tackling Emerging Threats to Children" Project

1. The aim of this project is to develop a **coordinated, partnership response** to tackling a wide range of underlying vulnerabilities and emerging threats to children, by **building on activity that is already happening** and **undertaking a commissioning exercise**, in order to pull this activity together and provide a package of support to schools, children and their families.
2. This Project will focus on the threats children face from **Child Sexual Exploitation, Radicalisation / Extremism, online grooming, Female Genital Mutilation, cyber-bullying** and **associated internet safety concerns**
3. Nottinghamshire Schools Forum has approved funding of **£1.2 million over 3 years** to develop **Universal, Targeted** and **Specialist** Support Offers. These will work in synergy with a **Recovery** Support Offer and the commissioning of the **Schools Health Hub**
4. Activity is now underway with partners including schools, the police and health colleagues to develop and implement these support offers. This is due to be completed by **1st April 2016**.
