NARRATIVE REPORT

Introduction

1. The Nottinghamshire County Council (NCC) Finance Team is responsible for the medium term financial strategy, production of the statutory statement of accounts, managing the Council's statutory reporting, provision of in-year budget monitoring reporting, the setting of the financial control environment and providing VAT advice, evaluating bids for capital resources, setting, managing and delivering the statutory reporting requirements of the Council's capital programme, supporting the development of budgets and financial monitoring/month end/quarterly reporting procedures, offering financial advice and commentary and producing financial reports, ensuring that financial implications of every day to day decisions are understood, developing financial management capacity and capability in departments (e.g. through providing financial training to budget managers, developing service costing models, carrying out service and investment appraisals, connecting strategic financial information with day-to-day management information) and providing tailored financial support and advice to the development of projects and programmes across the County Council.
2. The latest benchmarking figures produced by Chartered Institute of Public Finance and Accountancy (CIPFA) show that NCC Finance Function costs are below the average of statistical neighbours and, as such, show that the cost of the Finance Function is low in comparison with statistical neighbours. For 2015/16 the emphasis was on implementing further changes to structures, systems and processes alongside broader organisational change within the context of "Redefining the Council" that will allow the service the scope to "do more with less" in the future. This will continue in 2016/17 with, for example, the planned earlier closedown of the 2016/17 accounts requiring closer and more effective working with operational teams to ensure information is available when required and that lessons learned are acted upon in the future.
3. The Authority's Statement of Accounts for the year 2015/16 is set out on the following pages. It is prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 (the Code) and the Service Reporting Code of Practice (SeRCOP), both issued by CIPFA. The statements also comply with appropriate guidance notes issued by CIPFA covering International Financial Reporting Standards (IFRS), International Accounting Standards (IAS) and interpretations of the Standing Interpretations Committee (SIC) and IFRS Interpretations Committee (IFRIC) as they apply to local authorities.
4. The Statement of Accounts aims to provide information so that interested parties can:
 - Understand the overarching financial position of the Council and the outturn for 2015/16;
 - Have confidence that the public money with which the Council has been entrusted has been used and accounted for in an appropriate manner; and
 - Be assured that the financial position of the Council is sound and secure.
5. The style and format of the accounts complies with CIPFA standards and is similar to that of previous years. In order to assist users the content has been reviewed and improved where possible and notes to the accounts that mirror information already provided elsewhere have been removed.

6. **Narrative Report**
The Narrative Report (a change in requirements for 2015/16, replacing the Explanatory Foreword) provides information on key issues affecting the County Council and its accounts.
7. **Annual Governance Statement**
Alongside the Statement of Accounts the Authority publishes an Annual Governance Statement which sets out the Authority's responsibility for internal control and describes both the purpose of internal control and the internal control environment. The Statement also summarises the Authority's review of the effectiveness of internal control and highlights significant internal control issues and the actions to be taken in order to address these.
8. **Other Statements**
The Statement of Accounts is supported by the Statement of Responsibilities, the Statement of Accounting Policies and the Notes which follow the core financial statements. In addition, the Authority publishes the Pension Fund Accounts and a glossary of financial terms.
9. **Movement in Reserves Statement**
This statement shows the movement in the year on the different reserves held by the Authority, analysed into usable reserves (i.e. those that can be applied to fund expenditure or reduce local taxation) and unusable reserves. The surplus / deficit on the provision of services line shows the true economic cost of providing the Authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance for Council Tax setting purposes. The net increase /decrease before transfers to earmarked reserves line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the Authority.
10. **Comprehensive Income and Expenditure Statement**
This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.
11. **Balance Sheet**
The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority. Reserves are reported in two categories. The first category of reserves is usable reserves, i.e. those reserves that the Authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or reduce the Authority's Capital Financing Requirement). The second category of reserves are unusable reserves with which the Authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets were sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulation'.
12. **Cash Flow Statement**
The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is

a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

13. **Pension Fund Accounts**

This Statement shows the income and expenditure relating to the Local Government Pension Scheme (LGPS) administered by Nottinghamshire County Council.

14. **Pension Net Assets Statement**

This Statement shows the net current assets and liabilities arising from the operation of the Authority's Pension Scheme (LGPS). This Statement does not take account of liabilities to pay pensions and other benefits after the period end. Such liabilities are shown in the Balance Sheet.

Revenue Expenditure

15. The original budget estimated that there would be a £6.0 million contribution from General Fund balances. The final accounts show that there was a reduction of £3.0 million in balances.

	Original Budget £m	Actual £m	Variance from Budget £m
INCOME			
Income raised from taxation:			
Precept Income (Council Tax)	296.2	296.2	-
Non Domestic Rate Income	100.7	101.2	(0.5)
Revenue Support Grant	90.3	90.3	-
	487.2	487.7	(0.5)
NET EXPENDITURE (inc appropriations)	493.2	490.7	(2.5)
Contribution (to)/from General Fund Balances	6.0	3.0	(3.0)

The main variations to net expenditure were:

16. The Authority's Medium Term Financial Strategy (MTFS) has identified the need for further significant savings. Budget reductions of £29.6 million were approved in February 2016 with a further £50.2 million required by 2019/20. All savings are monitored with a status update included in the monthly report to Finance and Property Committee. Detailed quarterly monitoring is reported to Policy Committee.

Capital Expenditure and Financing

17. The Authority's capital expenditure in 2015/16 was £89.0 million including amounts counted as capital expenditure for control purposes. The external capital financing costs amounted to £34.0 million, which included interest on PFI schemes.
18. The Authority's borrowings, used to finance the past acquisitions of assets, were £574.2 million at 31 March 2016. This includes long term borrowings, loans to be repaid within one year, deferred liabilities and finance leases related to PFI schemes. The Authority makes use of financial instruments called Lenders' Option Borrowers' Option (LOBOs) which offer attractive borrowing rates of interest as well as greater flexibility. At 31 March 2016 the amount owed of these type of borrowings was £100.0 million.
19. The Authority has entered into Private Finance Initiative (PFI) partnerships. The major schemes are as follows:
- The provision of schools at East Leake. Service commenced during 2003/04
 - The provision of schools and leisure facilities in Bassetlaw which commenced during 2007/08
 - Waste recycling and energy recovery facilities. The waste recycling facility became operational in 2007/08.

Further details of all PFI contracts are set out in Note 11 to the Accounts.

Trends

20. People living in Nottinghamshire today are fortunate to be living in a peaceful, prosperous and safe environment. They are wealthier, healthier, better educated and living longer lives than at any previous point in history with significant improvements over the last few decades.

- Nottinghamshire is a large county covering 805 square miles (2,085 sq km). There are three very distinct areas: the relatively affluent suburbs surrounding the City of Nottingham; the towns and villages in the north-west which grew out of the textile and coal industries; and the rural areas to the east and south characterised by prosperous market towns and villages in the Trent Valley.
- Towns and villages in the north and west that were the heartland of heavy industry now offer opportunities for service and manufacturing sector industries, with a major concentration of logistics and distribution companies on the M1 and A1 corridors.
- Rural communities to the east and south, outside of the main market towns, act largely as commuter belt for conurbations including Nottingham, Lincoln, Leicester and London. These also have significant agricultural economies with market towns such as Newark and Retford offering more diverse opportunities.
- There are 801,400 people living in Nottinghamshire. The population increased by 5% between the census in 2001 and that in 2011. The total population of Nottinghamshire is expected to increase by 76,200 people over the 15 years to 2031. Projections estimate that this is due primarily to an increase in net migration of people from both other areas of the UK and abroad and an increase in life expectancy.
- The health of the average person in Nottinghamshire has improved immeasurably over the last fifty years with people now living longer and healthier lives. We are lucky to live in a period when life expectancy has increased to 79 years for men and 83 years for women and the average Nottinghamshire resident is expected to live in good health until the age of 63 which is more than 75% of their lives.
- It is anticipated that the number of older people in Nottinghamshire who will in future live alone will increase by 41% between 2015 and 2030 and our aging and increasingly isolated population has implications for future planning and delivery of services in order to meet their health and wellbeing needs.
- Whilst average annual earnings in Nottinghamshire at £31,428 are below the national level, house prices are much more affordable with the average house price in Nottinghamshire being £131,516 compared to £190,275 nationally. Over the next 15 years, Local Plans suggest that up to 63,000 new homes will be built across Nottinghamshire with 13,000 of these planned for Rushcliffe.
- Nottinghamshire children and young people do as well or better than those in similar places elsewhere. Educational attainment levels in Nottinghamshire's schools have improved considerably with children and young people achieving levels that are higher than the national average.
- People generally feel safe within their communities and over four in five of respondents in the 2015 Residents Survey stated they were satisfied with Nottinghamshire as a place to live.
- In Nottinghamshire just under 90% of households are within 15 minutes travel time of a GP Surgery/health centre by public transport and 98% of households within 30 minutes travelling time.
- Nottinghamshire is on track to have one of the best digital infrastructures in the country. As at March 2016, more than 95% of premises in Nottinghamshire have access to superfast broadband. By March 2018, this figure is expected to exceed 98%, with some districts in the county reaching near 100% coverage.

- Important visitor hubs include Rufford Abbey, the National Civil War Centre in Newark and Sherwood Forest. Plans are well advanced for a new visitor centre at Sherwood Forest and for further historical interpretation facilities to recognise the County's place in the history of the Pilgrim Fathers.

Risks and Uncertainties

21. The Risk, Safety and Emergency Management Board (RSEMB) has the lead role in creating and maintaining the County Council's capacity to respond to emergencies in the community and for internal resilience to the effects of significant business interruptions. The RSEMB is chaired by the Adult Social Care Health and Public Protection Service Director for South Nottinghamshire and Public Protection and comprises of departmental representatives plus specialist officers from emergency planning, health and safety, risk and insurance, facilities management, property and ICT.
22. The Corporate Risk Register provides a summary scorecard of the main risks to the County Council at a strategic level, and assesses these in terms of their likelihood and potential impact were they to occur. It identifies measures in place to mitigate these risks and further measures that are planned for the future. Progress is monitored as part of the regular meetings of the RSEMB, most recently through meetings held in January and March 2016.

Environmental

23. Nottinghamshire is a unique county with a heritage and countryside that we all want to protect and promote. We will ensure our environment is well managed and our countryside is protected. We need road and transport systems that are fit for purpose and help companies to invest in Nottinghamshire. We will provide a reliable transport system which supports a growing economy whilst encouraging sustainable and healthy travel. We will ensure we are well prepared during severe weather by gritting major roads and bus routes to help both residents and businesses carry on as normal. In addition the Council will:-
 - Work with partners to act as a champion protecting the environment within Nottinghamshire
 - Work in partnership with district councils and the private sector to provide waste management facilities and encourage changes in behaviour
 - Act as a community leader, by using the resources and expertise of the council to reduce our environmental impact
 - Deliver a road and transport infrastructure that seeks to meet the needs of our residents and businesses
 - Work in partnership with bus companies and community transport providers to improve usage of public transport

People

24. The Council is the largest employer in the County with a headcount of 8,826 directly employed permanent and temporary staff, as at 31st January 2016 (excluding those in schools), a significant proportion of whom directly provide a range of around 440 statutory and discretionary services to the people of Nottinghamshire.
25. Detailed workforce profile information is produced annually by the County Council and the most recent published information for 2015 is available here:

<http://www.nottinghamshire.gov.uk/media/112125/workforceinformationreport.pdf>

Social and Community

26. Our vision is to make Nottinghamshire a better place to live, work and visit.

Our Values

27. To deliver our plan we want to help staff utilise their skills and experience to find innovative and creative approaches and new ways of working.

28. Our plan will be built on the three values as follows:-

Treating people fairly

29. We will:

- create a culture which treats people fairly and where resources are targeted to meet the needs of the most vulnerable and disadvantaged
- make sure that we focus on improving the lives of those least able to help themselves – the most vulnerable children, young people and adults in our communities
- make sure that those who need the most support get it so that everyone gets the opportunity to fulfil their potential
- deliver high standards of customer care and respond to what we hear from our customers.

Value for money

30. The amount of money we have to spend will reduce considerably. In order to protect front-line services as much as we can, we will need to make sure that we:

- spend every penny wisely and effectively
- live within our means
- continue to make sure that all spend is cost effective.

Working together

31. We act as a community leader for Nottinghamshire and we will work with our partners and residents to ensure we:

- prioritise resources to get the best for our communities
- make choices only once we have listened to what communities want and need.

32. To be more efficient we will work more closely with our partners across the public, business and voluntary sector. By joining forces with others we can make sure we deliver improved outcomes.

We will use these values to guide our decision making through the years ahead.

Performance

33. The Strategic Plan 2014 - 2018 was agreed by County Council in January 2014 and provides a clear statement of the Council's vision, values and priorities. The five priorities set out a number of outcomes that the Council is seeking to achieve or influence over the four years of the Plan. These outcomes as well as measures of service quality provide the framework that the Council's performance is assessed against.

34. Nottinghamshire continues to be a high performing council comparing well with statistical neighbours across a range of these benchmarked measures. The Council proactively manages performance with senior officers regularly reviewing performance information to identify and manage emerging challenges.
35. In the last year the Council has also made significant improvements to the availability of performance information, particularly for Adults services and is progressing towards a stronger performance management culture through investment in robust business intelligence and the development of improved analysis and analytical skills.
36. Key highlights from across the strategic priorities in 2015/16 include:
- The number of older and younger adults supported in long term care is continuing to reduce gradually. There have been 42 new Extra Care places created during the year providing alternative accommodation. Additional intermediate care facilities have been developed which facilitate timely discharge from hospital.
 - Better Broadband for Nottinghamshire (BBfN) is on schedule and currently in Phase 6 of delivery. Contractual targets for contract 1 have been met and a total of 61,651 homes can now benefit from enhanced broadband speeds.
 - In 2015 there was a 38% reduction in the number of people killed or seriously injured in road traffic accidents compared with the 2005-9 average. The Council continues to be on target to meet the 40% reduction required by 2020.
 - Volunteer hours for natural and historic environmental projects have significantly increased in 2015/16 compared against the previous year. There have been a number of built heritage projects during the year and community archaeologists have been working in partnership with the Wildlife Trust on a project at Skylarks Nature reserve which has attracted new audiences, in addition to the normal volunteer opportunities offered.
 - Key Stage 4 figures (for pupils typically aged 16) show that 57.0% of Nottinghamshire pupils achieved 5+ A*-C including English and mathematics which is broadly in line with 57.3% in state funded schools nationally.
 - At Key Stage 5 for GCE A Level qualifications the overall pass rate in Nottinghamshire sixth forms remains unchanged. In 2015 98.4% of full A-level entries were at grades E or above. Of these, 6.3% were awarded an A* grade. This also remains unchanged from 2014.
 - The Council has met its objectives for the number of young people taking up apprenticeships through the Council's investment in youth employment.
37. The Council has also identified a number of key challenges and pressures that may affect performance over 2016/17 and will seek to assess and pro-actively manage these through the coming year.

Summary

38. The Authority will continue to seek savings and, as an example, has developed a number of Alternative Service Delivery Models (ASDMs) with the aim of maintaining or improving service delivery whilst reducing the costs to the Authority. Three of these are scheduled to commence early in 2016/17 as follows:
- **Inspire** – A community benefit society, with charitable status, giving people a greater stake in the running of their local library and other cultural and learning

services, which commenced operations on 1 April 2016. Inspire will deliver public libraries, archives, arts, Instrumental Music Teaching in schools, Community Learning and Skills Service, Nottinghamshire Music Hub and the Education Library Service on behalf of the Authority.

- **Arc** – A partnership with Scape to deliver property design and operations functions to the Authority. Due to commence 1 June 2016.
- **Via** - Set up through a partnership between the Authority and Cornwall Council, which will provide highways and fleet management services in Nottinghamshire and will become operational in July 2016.

39. Overall the financial position remains challenging, however the Authority continues to deliver good financial and non-financial performance. The Council will continue to respond to change and to deliver the savings required to meet the budget requirements. Robust financial management and ongoing risk management processes will ensure the Council continues to deliver good value to the people of Nottinghamshire and ensure we make Nottinghamshire a better place to live, work and visit.

Nigel Stevenson
Service Director (Finance, Procurement & Improvement), Resources Department

ANNUAL GOVERNANCE STATEMENT

1. Scope of Responsibility

Nottinghamshire County Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards. Public money must be safeguarded and properly accounted for, and used economically, efficiently and effectively. The Authority has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness. The Localism Act 2011 has, among other things, established a general power of competence for local authorities.

In discharging this overall responsibility, the County Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, including the arrangements for the management of risk.

This statement meets the requirements of regulation 4 of the Accounts and Audit Regulations (England) 2015 in relation to the publication of an annual governance statement.

2. The Purpose of the Governance Framework

The governance framework comprises the culture, values and duties of the Authority, supported by the systems and processes put in place to provide assurance that the culture, values and duties are complied with in practice. The Authority uses this framework to direct and control its work and ensure that it engages with, leads, and accounts to the community it serves. The framework enables the Authority to provide assurance over the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate cost-effective services within the existing legal framework.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Authority's aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

3. The Governance Framework

The governance framework, as described below, has been in place at the County Council during the financial year 2015/16.

Planning & Performance Management

The Council's Strategic Plan covers the period 2014 to 2018 and is publicised widely in the county. It is a key document in terms of identifying and communicating the Authority's vision and intended outcomes for citizens and service users. Specifically, it provides for the following:

- Providing a clear statement of the Authority's vision, priorities and values, together with a commitment to treat people fairly, provide value for money and to work together with partners and residents.
- Enabling agreed political objectives and statutory requirements to drive the Authority's activities.
- Enabling the communication of the Authority's priorities to the community of Nottinghamshire, partner organisations and staff.
- Providing a broad framework of objectives and performance indicators, to ensure effective performance management.

The Authority continues to implement a strategic management framework, which sets out in detail the individual factors that are required to manage performance and how they work together in the Authority. A dashboard of key measures was developed during the year to monitor delivery of the strategic plan.

Performance against the key performance indicators is monitored regularly and progress reports are submitted periodically to the Corporate Leadership Team and to the Policy Committee.

Each year the Authority approves the annual budget and capital programme which includes an update of the Medium Term Financial Strategy. The Medium Term Financial Strategy is the financial plan which underpins the Strategic Plan.

Risk Management

The process of risk management in the Authority is overseen by the Risk, Safety and Emergency Management Board, which meets periodically throughout the year. The corporate risk register is reviewed at each of the Board's meetings, to determine whether additional steps are required to mitigate key risks.

Supporting the Board are Risk, Safety and Emergency Management Groups, one for each department. The Groups are responsible for having an overview of risk management in each department and for maintaining a departmental risk register.

Organisational Roles & Decision-Making

The Head of Paid Service is responsible for reporting to Full Council on the manner in which the discharge of the Council's functions is co-ordinated, the number and grade of officers required for the discharge of functions and the organisation of officers.

The Monitoring Officer is responsible for maintaining the Constitution, ensuring it is available for inspection and making minor changes as a result of any restructuring. The Constitution is posted on the Council's website. The Monitoring Officer is also responsible for ensuring the lawfulness and fairness of decision-making; this includes responsibility, after consulting with the Head of Paid Service and Chief Finance Officer, for reporting to Full Council if they consider that any proposal, decision or omission would give rise to unlawfulness or maladministration. The Monitoring Officer is responsible for contributing to the promotion and maintenance of high standards of conduct.

The Constitution sets out how decisions are made and the procedures followed to ensure that these are efficient, transparent and accountable to local people. The Authority has a service committee for each of the key areas of service, in addition to an overarching Policy Committee and Full Council. The Monitoring Officer is responsible for keeping the Constitution under review and reporting any

proposed amendments to Council. A number of minor amendments were approved during 2015/16, with the most recent changes coming into force in February 2016.

The Constitution incorporates a formal scheme of delegation, setting out the delegated powers of the Authority's most senior officers.

The Authority's Financial Regulations are currently subject to review to ensure they remain current and relevant for the changing financial environment in which the Council operates.

Standards of Conduct and Counter-Fraud Arrangements

Codes of Conduct, for both Members and staff, are contained within the Constitution together with the Code on Member and Officer Relationships.

The Authority's Conduct Committee is responsible for considering complaints relating to breaches of the Code of Conduct for Councillors and Co-opted Members. No issues arose in 2015/16 which required the committee to convene a meeting.

During 2015/16, the member development programme continued to respond to changing national and local policy. Training and briefing sessions were delivered on a range of topics, including: child sexual exploitation and children's safeguarding issues, adults' safeguarding, Goddard enquiry and sexual orientation based hate crimes. Aside from the development programme, senior managers continued to update members on all relevant issues as they arose during the year.

All officers, including senior officers, are subject to annual Performance and Development Reviews. These reviews specifically identify and monitor development and training needs in relation to the individual employee's role. The Performance and Development Reviews incorporate a detailed Competency Framework which sets out the observable skill levels and behaviours required of every employee at each tier of the organisation. The Performance and Development framework has recently been reviewed, and improved forms and guidance are available for use from 2016/17.

The Authority has adopted a refreshed policy and strategy for countering fraud and corruption. The strategy aims to embed a strong counter-fraud culture in the Authority, based on a zero tolerance stance against fraud. The strategy is built around effective procedures for preventing and detecting fraud, allied with a robust response to any cases identified. The strategy and policy documents are available on the Council's public website.

Financial Management

The Authority's financial management arrangements conform with the governance requirements of the CIPFA Statement on the Role of The Chief Financial Officer in Local Government. The Statement sets out the five principles that need to be met, to ensure that the Chief Financial Officer can carry out the role effectively, as follows:

- Key member of the Leadership Team
- Must be actively involved in all material business decisions
- Must lead the promotion and delivery of good financial management
- Must lead and direct a finance function that is resourced to be fit for purpose
- Must be professionally qualified and suitably experienced.

The Chief Financial Officer for the Authority is the Service Director – Finance, Procurement and Improvement. This post reports to the Corporate Director for Resources, who is a member of the Leadership Team. The Chief Financial Officer is also a member of the Leadership Team, ensuring involvement in material business decisions. The Authority has set up the Business Support Centre, which manages financial transactions on behalf of the Authority, including payroll, pensions and income transactions. As the Business Support Centre does not report to the Chief Financial Officer, controls have been established to ensure that the Chief Financial Officer can secure the promotion and delivery of good financial management in these areas. The Chief Financial Officer is professionally qualified.

A regular report on the Council's financial position is made to the Finance and Property Committee. Separate progress reports are submitted to the Policy Committee regarding delivery of the options for change to achieve the required cost savings the Authority needs to make to achieve a balanced budget.

Change Management

The Authority has developed, and continues to implement, an extensive programme of change in response to the conflicting pressures it faces of reducing financial resources at a time of increasing demand for services. The 'Redefining Your Council' programme seeks to ensure that the Council can deliver the services that the people of Nottinghamshire value in a sustainable way. The effectiveness of the programme was reviewed during 2015/16 and proposed changes were approved by the Policy Committee in July 2015. These were concerned with the addition of new programmes, and revised arrangements for governance and performance management. Quarterly progress reports against the programme are submitted to the Policy Committee.

Compliance & Scrutiny

The Authority's Audit Committee meets regularly during the year and fulfils the recommended core functions as set out in CIPFA's publication, 'Audit Committees – Practical Guidance for Local Authorities'. The core functions relate to the review of Internal and External Audit work, the effectiveness of the Authority's control environment, the review of the annual assurance statement and the review of the financial statements.

The Authority's Internal Audit service is delivered in accordance with the requirements of the Public Sector Internal Audit Standards. Compliance with the standards is self-assessed on an annual basis, the most recent having been completed and reported to the Audit Committee in June 2015. Progress against the action plan was highlighted.

The Monitoring Officer is responsible, after consultation, for reporting to the relevant committee or Council if it is considered that any proposal, decision or omission would give rise to unlawfulness. In addition, Constitutional Comments are contained in reports to Council and Committees to advise on compliance with the policy framework and the Constitution. The Service Director – Finance, Procurement and Improvement also has a responsibility to highlight any proposal, decision or course of action which will involve any unlawful expenditure. Compliance with legislative requirements is also a feature of the External Auditors' review of the Council's accounts.

The Authority's Whistleblowing Policy was reviewed by Policy Committee in December 2013 and revised to reflect changes in legislation. It is proposed that an annual report on whistleblowing will be presented to the Policy Committee. The Authority's complaints procedure is well established and is also monitored by the Policy Committee; regular reports are presented both to the Policy Committee and to the Corporate Leadership Team.

Communications and consultation

There is a steady move towards offering alternative channels of communication which are more cost-effective and targeted than other traditional print models. An ambitious and wide-ranging digital transformation project, called Digital First, is addressing a number of work streams to update the way the Council communicates with, and offers services to, the public. A project update presented to the Policy Committee in October 2015 highlighted the implementation of a more user-responsive website from September 2015, progress towards an updated intranet for the benefit of Council employees, plus some other developments relating to the project.

Where possible, better value for money products have been developed such as the Life magazines that target all residents and families. These sit alongside and are complemented by the electronic channels such as the authority's email subscription service, Emailme, which now has more than 144,000 subscriptions.

The Council updated its Social Media Policy during the year, and a further report on progress with implementation will be submitted to the Policy Committee during 2016/17.

A Citizens Panel, 'Nottinghamshire Listens', made up of approximately 5,000 people is in place and has been used to engage with citizens throughout the County on a wide range of issues.

The Authority carried out extensive budget consultations in preparing the 2015/16 and 2016/17 budgets. Over 2,000 responses were received on the consultation for 2016/17 budget.

The Council's Equality Policy sets out how the Authority aims to achieve its equality objectives, both in terms of the delivery of services and in terms of its employment practices. Established processes are in place for carrying out equality impact assessments for change proposals, including consultation with the relevant staff networks.

Partnership Working

The Authority works in partnership with a number of bodies. Partnership working has focused in recent years on developing joint working with Health, District Councils and the local business community, among others. Several formal committees have been established, on which the Council is an active member:

- With Nottingham City Council on the Greater Nottingham Light Rapid Transit Advisory Committee, the Joint Committee on Strategic Planning and Transport and the Joint City/County Health Scrutiny Committee,
- With all Nottinghamshire councils on the City of Nottingham and Nottinghamshire Economic Prosperity Committee
- Nottinghamshire Local Pensions Board
- Nottinghamshire Police and Crime Panel
- Bus Lane and Parking Adjudication Service Joint Committees

A number of County Council committees also include external representatives:

- Health and Wellbeing Board
- Children & Young People's Committee
- Health Scrutiny Committee
- Pensions Investment Sub-Committee and Pensions Sub-Committee Economic Development Committee

The County Council is also represented on the Nottinghamshire and City of Nottingham Fire Authority.

4. Review of Effectiveness

The Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the executive managers within the Authority (Head of Paid Service, Monitoring Officer and Chief Financial Officer) who have responsibility for the development and maintenance of the governance environment, the Head of Internal Audit's annual report, and also by comments made by the External Auditor and other review agencies and inspectorates.

Commencing in 2016/17, quarterly, formal meetings of the Council's three statutory officers (Head of Paid Service, Monitoring Officer and Chief Financial Officer) will be held. These meetings will incorporate a standing item to keep the effectiveness of the governance framework under continual review. The Head of Internal Audit will join the meeting for discussion of this agenda item.

Throughout 2015/16, the Authority has maintained and reviewed the effectiveness of the governance framework. In particular:-

a) The County Council has received and considered a number of reports, including:-

- Management accounts and the Council's Statement of Accounts 2014/15
- County boundary review
- Ofsted inspection of children's services
- Treasury Management
- Joint Health scrutiny arrangements
- Budget Report 2016/17 and Medium Term Financial Strategy 2016/17 to 2019/20
- Pay Policy statement
- Amendments to the Constitution

b) Policy Committee has considered and approved a number of reports in its role as the committee responsible for policy development and approval, including:-

- Strategies and policies – including those relating to aspects of adults' and children's care, counter-fraud, procurement, and social media, plus spending proposals for 16/17 to 18/19.
- Transformation agenda – 'Redefining Your Council' review, senior management structure, 'Digital First' programme progress, Social Care and Health integration, Smarter Working programme, joint venture proposals, devolution developments.
- Performance and compliance– strategic plan and 'Redefining Your Council' progress, use of urgency procedures, use of RIPA powers.

- Consultation and engagement – ‘County Life’ consultation feedback, budget consultation, residents’ satisfaction survey.
- External assessments – Local Government Ombudsman annual letter, Information Commissioner’s Office report and action plan

c) The Audit Committee has considered a wide variety of issues including:-

- Internal Audit - Annual Report 2014/15, Annual Plan 2015/16 and midyear progress
- Statement on conformance with Public Sector Internal Audit Standards
- Annual Governance Statement
- Revised Counter-Fraud and Counter-Corruption Policy
- Statement of Accounts 2014/15 and associated accounting policies
- KPMG External Audit Plan 2015/16, annual governance report and Audit Letter
- Financial regulation waivers
- Briefings on the role of the Audit Committee and progress with the Council’s procurement function.

d) Internal Audit has undertaken planned reviews of internal control procedures across all departments and across a range of functions in the Authority. Each review contains an opinion on the internal controls in place. Based on the audits completed in 2015/16, Internal Audit’s overall opinion is that the Authority had a good system of internal control in operation.

e) External Audit’s report to those charged with governance (Audit Committee) for 2014/15 stated that the Auditor issued an unqualified audit opinion on the County Council’s 2014/15 accounts. No material audit adjustments within the financial statements were identified. The Authority’s organisational control environment was deemed effective overall, and they did not identify any significant weaknesses in controls over key financial systems. The Auditor also concluded that the Council had made proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

5. Significant Governance Issues

Responding to the financial and policy environment

The Authority continues to face significant financial challenges. Local authorities are struggling with falling Government grants while facing increased demand for services as well as other cost pressures from inflation and new legislation. National policy to place local government on a footing of greater self-sufficiency may leave the Council with new burdens and/or a financial shortfall. In particular, the implications of policy changes for care needs assessments, such as those relating to the Care Act, must be understood and evaluated.

The transformation framework, ***Redefining Your Council***, continues to drive the Council’s response to the financial and policy environment. The framework seeks different ways of delivering services by looking first at innovative and creative solutions. A comprehensive review has been carried out into every aspect of Council activity with a particular focus on high-cost services.

An evaluation of the first phase of Redefining Your Council was undertaken during the year. As a result of this, the scope of the programme was extended and revised arrangements were approved for programme governance and performance management. A second review of the programme will be undertaken during 2016/17.

The Council's Medium Term Financial Strategy shows that the Council can deliver a balanced budget in 2016/17, however further savings of £50.2 million will be required from 2016/17 to 2019/20.

From 2018/19, it is proposed that local councils will retain all locally raised business rates and that the distribution of core grant funding from central government will end. Preparatory work at the Council for this change will be commencing in 2016/17.

Other key governance issues

The Council will continue its transformation into a smaller organisation using a greater diversity of delivery arrangements with the potential for greater risk. Alternative Service Delivery Models will become live in 2016/17 in a number of areas, including Libraries, Highways and Property Services. Added to the range of alternative models already in place, the importance for the Council to ensure the effectiveness of its contract management capabilities is a key priority.

Following the County Council elections in 2013 the Authority had a Labour majority. Over the last three years there have been several changes in the membership of the County Council Labour Group which have resulted in the Authority being in no overall control. The places allocated on committees to groups and to the elected members who are not in a group has been reassessed on a number of occasions to ensure it complies with the requirements of political proportionality.

Social care provision is increasingly being integrated with health care provision, and work is underway to manage this effectively through the Nottinghamshire Sustainability and Transformation Plan. This is a local blueprint for accelerating the implementation of a five year plan for closer integration. Through the Better Care Fund, the Council is working with the six local Clinical Commissioning Groups (CCGs) covering Nottinghamshire to ensure that health and social care services are efficient, integrated and working together wherever possible to improve the way we care for older people across the County. In 2015/16, the Better Care Fund enabled the partners to pool £59M of their money together to support integrated health and social care services.

The scale and speed of the transformation programme the Council has been implementing over recent years has inevitably placed pressure on the ability of staff to apply core systems of control consistently. The Internal Audit programme for 2016/17 seeks to deliver assurance over the effectiveness of key control systems, and the service plans to introduce a periodic, internal publication to provide updates and pro-active guidance on significant control issues.

The Council has established a project team and project Board to co-ordinate the Authority's response to the Independent Inquiry into Child Sexual Abuse (IICSA), as it investigates whether public bodies and other non-state institutions have taken seriously their duty of care to protect children from sexual abuse in England and Wales. The investigation of children in the care of Nottinghamshire Councils (Nottingham City and Nottinghamshire County Council) is focussed on children living in care in residential homes and foster families. The investigation will critically consider how both Councils responded to allegations that children were being sexually abused and will seek to identify any common themes and failings.

The Council has made two submissions to the IICSA already, ensuring core principles are in place to allow the enquiry to carry out its work effectively.

During 2015/16, the 19 councils across Nottinghamshire and Derbyshire have considered the potential for a devolution deal with Government. Although no deal has been agreed at this stage, there may be further developments, either locally or at a national level, in respect of devolution in 2016/17.

The Local Government Boundary Commission has completed its review of Nottinghamshire. The results of that review were reported to Council in November 2015 and have now been confirmed by Parliament. During 2016 work will be undertaken to ensure that all the required changes are implemented as required for the County Council elections in 2017.

The Council is currently handling planning applications in respect of shale gas developments in the county. The Council recognises that such applications are likely to attract wide public interest, therefore a working group with appropriate local partner organisations has been set up to manage the risks involved.

The Council has adopted a robust approach to addressing these financial, demographic, technological and legislative challenges. The Audit Committee reviewed the governance framework detailed in this statement at their meeting on 8 June 2016. We are aware of the steps that are being and will be taken to address the above significant governance issues and we are satisfied that these are appropriate. We will monitor their implementation during the course of 2016/17 and beyond.

Councillor Alan Rhodes

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Authority's Responsibilities

The Authority is required:

- to make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. The Service Director (Finance, Procurement & Improvement) is the responsible officer;
- to manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- to prepare and publish a Statement of Accounts in accordance with the Accounts and Audit (England) Regulations 2015 ("the Regulations").

Responsibilities of the Service Director (Finance, Procurement & Improvement)

The Service Director (Finance, Procurement & Improvement) is responsible for the preparation of the Authority's Statement of Accounts, in accordance with the appropriate CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Service Director (Finance, Procurement & Improvement) has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code and the Regulations.

The Service Director (Finance, Procurement & Improvement) has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

I certify that the accounts present a true and fair view of the financial position at the accounting date and its income and expenditure for the year ended on that date.

Nigel Stevenson
Service Director (Finance, Procurement & Improvement), Resources
Department
08 June 2016

STATEMENT OF APPROVAL OF THE STATEMENT OF ACCOUNTS

The Statement of Accounts were approved by a meeting of the County Council on XX September 2016. The Service Director (Finance, Procurement & Improvement) is satisfied with the position set out in the Statement of Accounts. As Chairman of Nottinghamshire County Council, I am satisfied that the approval process for the Statement of Accounts has now been completed satisfactorily and that the Statement of Accounts may now be issued.

Councillor Yvonne Woodhead
Chairman of the County Council
XX September 2016

STATEMENT OF ACCOUNTING POLICIES

1. General Policies

The Statement of Accounts summarises the Authority's transactions for the 2015/16 financial year and its position at the year-end of 31 March 2016. The Authority is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2015, which require them to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 and the Service Reporting Code of Practice 2015/16, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

2. Exceptional Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Authority's financial performance.

3. Prior Period Adjustments, Changes in Accounting Policies, Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

4. Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible non-current assets attributable to the service.

The Authority is not required to raise Council Tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the Authority in accordance with statutory guidance.

Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance (Minimum Revenue Provision), by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

5. Costs of Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice 2015/16 (SeRCOP). The total absorption costing principle is used – the full cost of overheads and support services are shared between users as follows:

- Office accommodation – in proportion to floor area occupied
- Other central administrative expenses – allocation of staff time
- Architectural Engineering Services for the Capital Programme – recharged to capital using professional scale fees.

The following two cost categories are defined in SeRCOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on the Cost of Services.

- Corporate and Democratic Core – costs relating to the Authority's status as a multifunctional, democratic organisation
- Non Distributed Costs – the cost of discretionary benefits awarded to employees retiring early, pensions past service cost and depreciation and impairment losses chargeable on Surplus Assets.

6. Employee Benefits and Pensions

Benefits Payable During Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the relevant service line (or discontinued operations) in the Comprehensive Income and Expenditure Statement when the Authority is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-Employment Benefits

Employees of the Authority are members of two separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE)
- The Local Government Pension Scheme, administered by Nottinghamshire County Council.

Both schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees work for the Authority. However, the arrangements for the teachers' scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the Authority. The scheme is therefore accounted for as if it were a defined contribution scheme and no liability for future payments of benefits is recognised in the Balance Sheet. The Children's and Education Services line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to Teachers' Pensions in the year.

The Local Government Pension Scheme (LGPS)

The Scheme is accounted for as a defined benefits scheme:

- The liabilities of the pension fund attributable to the Authority are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates etc. and projections of projected earnings for current employees. In assessing these liabilities at 31 March 2016 for the 2015/16 Statement of Accounts, the actuary made a number of changes in the assumptions underlying the present value of the scheme liabilities. These include a change in the assumed pensions increases and inflation. Application of these revised assumptions has resulted in an increase in liabilities measured at today's prices of £934.5 million (£839.7 million LGPS, £94.8 million Teachers).
- The assets of the pension fund attributable to the Authority are included in the Balance Sheet at their fair value:
 - quoted securities – current bid price
 - unquoted securities – professional estimate
 - unitised securities – current bid price
 - property – market value.
- The change in the net pensions liability is analysed into several components:
 - current service cost / gain – the change in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked
 - past service cost – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs
 - interest cost – the expected increase in the present value of liabilities during the year as they move one year closer to being paid – debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
 - expected return on scheme assets – the annual investment return on the fund assets attributable to the Authority, based on an average of the expected long-term return – credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
 - gains or losses on settlements and curtailments – the result of actions to relieve the Authority of liabilities or events that reduce the expected future service or accrual of benefits of employees – debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs
 - actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – credited/debited to the Pensions Reserve
 - contributions paid to the pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners

in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Authority also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

7. Revenue Expenditure Financed from Capital Under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Authority has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of Council Tax.

Capital grants made to other bodies are written off to the appropriate Service revenue account during the financial year because they do not represent value for money to the Authority beyond the end of the financial year. This includes grants made to bodies for which the Authority is the accountable body and exercises control over grant distribution.

8. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Authority and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset’s potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Assets are, however, only recognised when they exceed the de minimus levels for 2015/16 set out below:

Asset Type	De minimus
Land and Buildings	£0
Community Assets	£10,000
Infrastructure Assets	£0
Assets under Construction	£0
Heritage Assets	£10,000
Vehicles, Plant, Furniture and Equipment	£6,000
Other assets	£6,000

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Authority does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Authority). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Authority.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure, Community Assets and Assets under Construction – depreciated historical cost
- Heritage Assets - held at valuation or, under certain conditions, historical cost (depreciated where appropriate)
- Operational assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).
- Non-Operational Assets (i.e. not providing service potential to the Authority) – fair value as per the requirements of IFRS13 using the principle of “highest and best use” from a market participants perspective.

Where there is no market-based evidence of current value because of the specialist nature of an asset (e.g. school buildings), depreciated replacement cost (DRC) is used as an estimate of current value.

Where non-property assets have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

The current land and building values used in the Statement of Accounts are based upon a certificate as at 31 March 2016 issued by Mr I Brearley MRICS, Team Manager – Property and Strategy Management from the Authority’s Property Division on 6th June 2016. A rolling 5 year revaluation programme is in place to maintain the accuracy of the valuations. When significant changes occur in any year they are included in the revaluation schedule undertaken during that year.

Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)

- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that they may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is charged in the year after acquisition or construction. Where depreciation is provided for, assets are depreciated using the straight line method. The lives of the assets vary and fall within the following ranges:

Asset Type	Useful Life (In Years)
Buildings	1 – 50
Vehicles and plant	1 – 20
Infrastructure	40
IT and other equipment	3 – 5
Intangibles	3 – 5
Furniture and Fittings	5 - 15

Where an item of Property, Plant and Equipment has major components whose costs are at least 20% of the total cost of the item, the components are depreciated separately. A review was carried out for all items over a de minimus of £0.5 million. For the 2015/16 Statement of Accounts, the Authority has not identified any components to be depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction, rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any losses previously recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as Held for Sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Capital receipts are required to be credited to the Capital Receipts Reserve and can then be used for new capital investment or set aside to reduce the Authority's underlying need to borrow (the capital financing requirement). Also, from April 2016 for a three year period, there is greater flexibility for local authorities to use capital receipts to fund the revenue costs of business transformation. Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against Council Tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

9. Financial Assets

Financial assets are classified into two types:

- loans and receivables – assets that have fixed or determinable payments but are not quoted in an active market
- available-for-sale assets – assets that have a quoted market price and/or do not have fixed or determinable payments.

Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Authority has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

However, the Authority, for policy reasons, can make loans to voluntary organisations at less than market rates (soft loans). When soft loans are made, a loss is recorded in the Comprehensive Income and Expenditure Statement (debited to the appropriate service) for the

present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the Comprehensive Income and Expenditure Statement to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains and losses that arise on the de-recognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Available for Sale Assets

Available for Sale assets are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (e.g. dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Authority.

Assets are maintained in the Balance Sheet at fair value. Values are based on the following principles:

- instruments with quoted market prices – the market price
- other instruments with fixed and determinable payments – discounted cash flow analysis
- equity shares with no quoted market prices – independent appraisal of company valuations.

Changes in fair value are balanced by an entry in the Available for Sale Reserve and the gain/loss is recognised in the Surplus or Deficit on Revaluation of Available for Sale Financial Assets. The exception is where impairment losses have been incurred – these are debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any net gain or loss for the asset accumulated in the Available for Sale Reserve.

Where assets are identified as impaired because of a likelihood arising from a past event that fixed or determinable payments due under the contract will not be made, or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any accumulated gains or losses previously recognised in the Available for Sale Reserve.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

10. Cash and Cash Equivalents

Amounts held in call accounts or money market funds are highly liquid and readily convertible. These can be held for relatively long periods as call account rates are currently attractive. However, these accounts are used to cover short-term cash flow needs and so will be classed as cash equivalents.

Fixed term investments, of whatever duration, are not readily convertible to known amounts of cash. Fixed deals can be broken but only through negotiation with the borrower and at a penalty depending on the fair value of the loan at the time of break. All fixed term investments will not therefore be classed as cash equivalents.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management.

11. Other Assets

Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Authority as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Authority.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Authority will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Authority's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Authority can be determined by reference to an active market. In practice, no intangible asset held by the Authority meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and the Capital Receipts Reserve.

Interests in Companies and Other Entities

In the Authority's accounts, the interests in companies and other entities are recorded as financial assets at cost, less any provision for losses.

Investment Property

Investment Properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment Properties are measured initially at cost and subsequently at fair value as per the requirements of IFRS13. Fair value is based on the amount at which the asset could be sold in an orderly transaction between knowledgeable market participants at the measurement date.

As a non-financial asset, an investment property will be measured at its highest and best use. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and the Capital Receipts Reserve.

Jointly Controlled Operations and Jointly Controlled Assets

Jointly Controlled Operations are activities undertaken by the Authority in conjunction with other venturers that involve the use of the assets and resources of the venturers rather than the establishment of a separate entity. The Authority recognises on its Balance Sheet the assets that it controls and the liabilities that it incurs and debits and credits the Comprehensive Income and Expenditure Statement with the expenditure it incurs and the share of income it earns from the activity of the operation.

Jointly Controlled Assets are items of Property, Plant or Equipment that are jointly controlled by the Authority and other venturers, with the assets being used to obtain benefits for the venturers. The joint venture does not involve the establishment of a separate entity. The Authority accounts for only its share of the jointly controlled assets, the liabilities and expenses that it incurs on its own behalf or jointly with others in respect of its interest in the joint venture and income that it earns from the venture.

12. Fair Value Measurement

The Authority measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability

The authority measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the authority takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The authority uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the authority's financial statements are categorised within the fair value hierarchy, as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

13. Inventories

Inventories are included in the Balance Sheet at the lower of cost and net realisable value.

14. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Authority transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority
- Revenue from the provision of services is recognised when the Authority can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected
- Where significant debtors or creditors arise from such items as government grants and pay awards that are not yet finalised, estimates are made on the basis of best information that is currently available.

Accounting instructions require accruals to be raised where amounts are in excess of £5,000. Schools are asked to take responsibility for accruing for employee costs where individual amounts owing are in excess of £5,000.

15. Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Authority has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or

exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Authority has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

16. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Authority as Lessee

Finance Leases

Property, Plant and Equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower), where the fair value exceeds the de minimus limit. The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to write down the lease liability. Where material, contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Authority at the end of the lease period).

The Authority is not required to raise Council Tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from use of the leased Property, Plant or Equipment. Charges are made on a straight-line basis over the life of

the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

The Authority as Lessor

Finance Leases

Where the Authority grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Authority's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with any premiums received), and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against Council Tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases

Where the Authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

17. Private Finance Initiative (PFI) and Similar Contracts

The Authority has entered into a number of Private Finance Initiative contracts. PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. As the Authority is deemed to control the services that are provided under its PFI schemes, and as ownership of the property, plant and equipment will pass to the Authority at the end of the contracts for no additional charge, the Authority carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) was balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment. For the Bassetlaw Schools PFI scheme and East Leake Schools PFI scheme, the liability was written down by initial capital contributions of £9.0 million and £2.9 million respectively.

Non-current assets recognised on the Balance Sheet are revalued and depreciated in the same way as Property, Plant and Equipment owned by the Authority.

The amounts payable to the PFI operators each year are analysed into five elements:

- fair value of the services received during the year – debited to the relevant service in the Comprehensive Income and Expenditure Statement
- finance cost – an interest charge on the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
- contingent rent – increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
- payment towards liability – applied to write down the Balance Sheet liability towards the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease)
- lifecycle replacement costs – charges for ongoing maintenance of the Property, Plant and Equipment debited to the relevant scheme.

18. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Authority when there is reasonable assurance that:

- the Authority will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Authority are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as receipts in advance. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement.

Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Where the grant has yet to be used to fund the revenue expenditure in relation to the purpose of the grant, it is appropriated into a specific revenue grants reserve. Once the expenditure has been incurred it is appropriated out of the specific revenue grants reserve.

19. Provisions

Provisions are made where an event has taken place that gives the Authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Authority may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Authority becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

20. Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Authority a possible obligation whose existence will only be confirmed by the occurrence, or otherwise, of uncertain future events not wholly within the control of the Authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but are disclosed in a note to the accounts.

21. Contingent Assets

A contingent asset arises where an event has taken place that gives the Authority a possible asset whose existence will only be confirmed by the occurrence, or otherwise, of uncertain future events not wholly within the control of the Authority.

Contingent assets are not recognised in the Balance Sheet but are disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

No contingent assets have been identified for the Authority at 31 March 2016.

22. Reserves

The Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against Council Tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Authority.

23. VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

24. Events After the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

25. Foreign Currency Translation

Where the Authority has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective. Where amounts in foreign currency are outstanding at the year-end, they are reconverted at the spot exchange rate at 31 March. Resulting gains or losses are recognised in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

26. The Carbon Reduction Scheme

The authority is required to participate in the Carbon Reduction Commitment Energy Efficiency Scheme. This scheme is currently in its second phase, which ends on 31 March 2019. The authority is required to purchase allowances, either prospectively or retrospectively, and surrender them on the basis of emissions, i.e. carbon dioxide produced as energy is used. As carbon dioxide is emitted (i.e. as energy is used), a liability and an expense are recognised. The liability will be discharged by surrendering allowances. The liability is measured at the best estimate of the expenditure required to meet the obligation, normally at the current market price of the number of allowances required to meet the liability at the reporting date. The cost to the authority is recognised and reported in the costs of the authority's services and is apportioned to services on the basis of energy consumption.

27. Heritage Assets

Tangible and Intangible Heritage Assets

The Authority's Heritage Assets are held at County Hall or at the Nottinghamshire Archives. Nottinghamshire Archives has a number of architectural drawings and records relating to Rufford Abbey and the Savile of Rufford Estate. These collections are held in support of the primary objective of the Authority's Archives. In addition, the Authority retains a number of important ceremonial regalia and paintings that are also retained for increasing the knowledge, understanding and appreciation of the Authority's history and local area.

Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Authority's accounting policies on Property, Plant and Equipment. However, some of the measurement rules are relaxed in relation to Heritage Assets as detailed below. The accounting policies in relation to Heritage Assets that are deemed to include elements of intangible Heritage Assets are also presented below. The Authority's collections of Heritage Assets are accounted for as follows:

Ceremonial Regalia and Art Collection

The ceremonial regalia and art collection includes ceremonial items, paintings (both oil and watercolour), sketches, sculptures, glass and silverware and is reported in the Balance Sheet at market value. There is an annual programme of valuations and the items in the collection are valued by an external valuer. These assets are deemed to have indeterminate lives and a high residual value; hence the Authority does not consider it appropriate to charge depreciation. Acquisitions are made by purchase or donation. Acquisitions are initially recognised at cost and donations are recognised at valuation with valuations provided by the external valuers and with reference to appropriate commercial markets for the paintings using the most relevant and recent information from sales at auctions.

Architectural Drawings and Records

The architectural drawings and records relating to the Savile of Rufford Estate are held at Nottinghamshire Archives and are reported in the Balance Sheet at historical cost. Valuation of these items is not readily available and the Authority believes that the benefits of obtaining annual valuations for these items would not justify the cost. These assets are deemed to have indeterminate lives and a high residual value; hence the Authority does not consider it appropriate to charge depreciation. Acquisitions are made by purchase or donation. Acquisitions are initially recognised at cost and donations are recognised at valuation if appropriate with valuations provided by external valuers. Nottinghamshire Archives holds a number of other records (e.g. Lothian of Melbourne records) that are valued at less than £10,000. Consequently, the Authority does not recognise these assets on the Balance Sheet.

Heritage Assets – General

The carrying amounts of Heritage Assets are reviewed where there is evidence of impairment for Heritage Assets, e.g. where an item has suffered physical deterioration or breakage or where doubts arise as to its authenticity. Any impairment is recognised and measured in accordance with the Authority's general policies on impairment. Where assets are disposed of, the proceeds of such items are accounted for in accordance with the Authority's general provisions relating to the disposal of Property, Plant and Equipment. Disposal proceeds are disclosed separately in the notes to the financial statements and are accounted for in accordance with statutory accounting requirements relating to capital expenditure and capital receipts.

28. Schools

The Code of Practice on Local Authority Accounting in the United Kingdom confirms that the balance of control for Local Authority maintained schools (i.e. those categories of school identified in the School Standards and Framework Act 1998, as amended) lies with the Local Authority. The Code also stipulates that those schools' assets, liabilities, reserves and cash flows are recognised in the Local Authority financial statements (and not the Group Accounts). Therefore schools' transactions, cash flows and balances are recognised in each of the financial statements of the Authority as if they were the transactions, cash flows and balances of the Authority.

Accounting for Schools Property, Plant and Equipment

The Authority has made detailed judgements regarding the control exercised over schools run in a wide variety of ways to determine whether non-current assets should be treated as on or off Balance Sheet. The treatment of all schools has been considered by analysis predicated on the application of tests inherent within the following IFRS adopted by the CIPFA Code (Module 4 – Non Current Assets) – IAS16 – Property, Plant and Equipment, IAS17 – Leases and IFRIC12 – Service Concession Arrangements. This has resulted in the following treatment:

- Academy schools - off-Balance Sheet
- Foundation schools - on-Balance Sheet
- Voluntary Aided schools – off-Balance Sheet
- Voluntary Controlled schools – off-Balance Sheet
- Community schools – on-Balance Sheet

The assets of those Schools that convert to Academy status are derecognised from the Authority's Balance Sheet at nil proceeds. No impairment is recognised by the Authority prior to disposal.

MOVEMENT IN RESERVES STATEMENT 2015/16

	General Fund £000	Schools Statutory Reserve £000	Insurance Reserve £000	Capital Receipts and Grants Unapplied Reserve £000	Other Earmarked Reserves £000	Total Usable Reserves £000	Total Unusable Reserves £000	Total Reserves £000

NOTES TO THE STATEMENT OF ACCOUNTS

1. Prior Period Adjustments: Changes in Accounting Policies

There are no prior period adjustments to report in the 2015/16 accounts.

2. Accounting Standards Issued but not yet Adopted

IAS8 - Accounting Policies, Changes in Accounting Estimates and Errors requires the Authority to disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted by the Code for the relevant financial year.

From 1 April 2016, the CIPFA Code of Practice on Transport Infrastructure Assets takes effect. Changes arising from the Code do not require retrospective adjustments to the accounts. Assets coming within the Code's scope will be measured at depreciated replacement cost and recognised as a separate class of Property, Plant and Equipment. If the Code had been implemented in 2015/16, the value of infrastructure assets would have increased from £506m to approx. £9bn.

IAS1 - Presentation of Financial Statements, provides guidance on how the financial statements should be set out. The format of the Comprehensive Income and Expenditure Statement and the Movement in Reserves Statement will change alongside the introduction of a new Expenditure and Funding Analysis.

There are a number of other changes to the Code; however they will not have a material impact upon the financial statements of the Authority.

3. Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in the Statement of Accounting Policies, the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- The Authority has had to make detailed assessments and judgements regarding the control exercised over schools run in a wide variety of different ways to determine whether they should be treated as on or off Balance Sheet. This has resulted in the following treatments:
 - Community schools - on Balance Sheet
 - Academy schools - off Balance Sheet
 - Foundation schools - on Balance Sheet
 - Voluntary Aided schools - off Balance Sheet
 - Voluntary Controlled schools - off Balance Sheet
- The 2015/16 Code of Practice clarifies the requirements for valuing property, plant and equipment to ensure valuations are "sufficiently regular to ensure that the carrying amount does not differ materially from that which would be determined using the current value at the end of the reporting period". To achieve this objective, the Authority has consulted its professional valuers who have affirmed that there is no such material deviation from current value at the Balance Sheet date for those assets not subject to a formal in-year valuation.
- There is a high degree of uncertainty about future levels of funding for local government. However, the Authority has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Authority might be impaired as a result of a need to close facilities and reduce levels of service provision.

4. Assumptions made about the future and other major sources of estimation uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future, or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from assumptions and estimates.

The items in the Authority's Balance Sheet at 31 March 2016 for which there is significant risk of material adjustment in the forthcoming financial year are as follows:

Property, Plant and Equipment

Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets. If the useful life of an asset is reduced, depreciation increases and the carrying amount of the asset falls. It is estimated that the annual depreciation charge for buildings would increase by £0.9 million for every year that useful lives had to be reduced.

Land and Building assets that are required to be measured at current value are revalued on a 5 year rolling basis by the Authority's internal team of valuers. Each property is assessed and valued on its own merits and the valuation is determined with due regard to any changes or uncertainties which may affect the specific property. It is estimated that a theoretical 1% market drop applied across all properties valued in 2015/16 would equate to an impairment variation of £1.1 million to be expensed through the surplus / deficit on the provision of services.

Fair Value

When determining fair value for the measurement and disclosure requirements in relation to the Authority's assets and liabilities, it is likely the Authority will be required to make assumptions and estimations. Where direct observable market data is unavailable, judgement is required in order to determine a fair value and the Authority uses relevant experts to ensure that appropriate valuation techniques are used where typically judgements include considerations such as uncertainty and risk.

Provisions

The Authority made a provision in 2015/16 of £0.7 million in respect of anticipated cost of redundancies. This figure was calculated based upon the best estimate of the impact of published section 188 notice of redundancies as at 31 March 2016; in accordance with the Trade Union and Labour Relations (Consolidation) Act 1992. A variation of 10% of the amount provided would have an impact of £0.1 million on the provision required.

Insurance

The Authority operates a self insurance scheme and has established a provision of £14.8 million to cover known claims and liabilities. The values provided are based upon historic experience and advice from claims advisers. However the actual payments paid out are subject to agreement and possible legal action. Therefore the final payments may differ significantly from that provided. A variation of 10% on the amount provided would have an impact of £1.5 million on the provision required.

Pensions

Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Authority with expert advice about the assumptions to be applied. The effects on the net pensions liability of changes in individual assumptions can be measured, and is contained in Note 20.

5. Post Balance Sheet Events

There are no material events to report since the accounts were prepared which are not reported in the accounts.

6. Adjustments between Accounting Basis and Funding Basis under Regulations

The adjustments between the accounting basis and the funding basis under regulations are shown in the Movement in Reserves Statement.

9. Valuation of Property, Plant and Equipment

The Authority carries out a rolling programme that ensures all Property, Plant and Equipment required to be measured at current value is revalued at least every five years. Furthermore, for those assets measured at current value that fall outside of the 5-year rolling cycle, an annual revaluation is applied to the highest value assets and also those subject to significant in-year additional expenditure. This ensures that the closing current value of assets held on the balance sheet does not materially deviate from a current value as determined by a recent formal revaluation. The effective date of valuation is 31st March.

Operational land and buildings are valued based on their existing use value to reflect their current operating capacity. Surplus Assets (i.e. those assets not being used for service delivery and/or not eligible to be classified as Held for Sale) are measured at their fair value which represents the financial capacity and opportunity cost of holding such an asset as surplus.

All valuations of land and buildings have been carried out internally in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors (RICS).

Other PPE assets are carried at depreciated historic cost.

Valuation of Property, Plant and Equipment

The following statement shows the progress of the Authority's rolling programme for the revaluation of Property, Plant and Equipment. The basis for valuation is set out in the Statement of Accounting Policies.

Basis of Measurement	Op Land & Bldgs £000	Surplus Assets £000	Other PPE Assets £000	Total £000
Valued at current value as at:				
31/03/2016	157,304			157,304
31/03/2015	184,292			184,292
31/03/2014	82,299			82,299
31/03/2013	128,509			128,509
31/03/2012	77,848			77,848
Valued at fair value as at:				
31/03/2016		72,109		72,109
Valued at historic cost			551,850	551,850
Total	630,252	72,109	551,850	1,254,211

Fair Value Hierarchy

The Authority's portfolio of Surplus Assets have been assessed in relation to the Fair Value Hierarchy for the purposes of valuation (see Statement of Accounting Policies for full explanation)

	Level 1 £000	Level 2 £000	Level 3 £000	Fair Value as at 31/3/16 £000
Surplus Assets	2,700	27,061	42,348	72,109

Significant Observable Inputs - Level 2

The fair value of Surplus Assets has been derived using the market approach applying current market conditions and recent sales prices and other relevant information for similar assets in the local authority area. Market conditions are such that similar properties are actively purchased and sold and the level of observable inputs are significant.

Significant Unobservable Inputs - Level 3

The market approach uses comparable data based on recent transactions with similar characteristics and locations to the Authority's assets. Where this valuation is significantly adjusted by the valuer to reflect asset specific factors, the inputs are categorised as Level 3. In addition, if the inputs are categorised in different levels of the hierarchy, the asset is categorised on the same level as the lowest level input that is significant to the entire measurement.

Assets are also measured using the investment approach based on discounted cash flows to establish the present value of the net projected income stream. This method requires the use of estimates (e.g. future rental income) and other unobservable inputs to determine a fair value. There is no reasonably available information to indicate that market participants would use different assumptions.

Impairment review

In accordance with the requirements of the Code, the Authority undertakes a review each year to identify any assets which may have been subject to an impairment in value. Where any potential impairment of Land and Buildings is identified, the asset is revalued and consequently all decreases in value are treated as revaluation losses.

10. Leases

Authority as Lessee

Finance Leases

The Authority leases the following assets that qualify as a finance lease:

Land & Buildings - Highways Depot

Vehicles, Plant, Furniture & Equipment - Six highways winter maintenance vehicles

The assets acquired under each lease are carried as Property, Plant and Equipment in the Balance Sheet at the following net amounts:

	2014/15	2015/16
	£000	£000
Other Land & Buildings	3,545	3,516
Vehicles, Plant, Furniture & Equipment	549	489
	<u>4,094</u>	<u>4,005</u>

The Authority is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest acquired by the Authority and finance costs that will be payable by the Authority in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	2014/15	2015/16
	£000	£000
Finance lease liabilities (net present value of minimum lease payments):		
- current	223	245
- non-current	1,145	899
Finance costs payable in future years	4,929	4,834
Minimum lease payments	<u>6,297</u>	<u>5,978</u>

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	2014/15 £000	2015/16 £000	2014/15 £000	2015/16 £000
Not later than one year	319	319	223	245
Later than one year and not later than five years	534	263	267	22
Later than five years	5,444	5,396	878	877
	6,297	5,978	1,368	1,144

The minimum lease payments do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews. In 2015/16 £0.01m of contingent rents were payable by the Authority (£0.01m in 2014/15).

Operating Leases

The Authority leases a wide variety of properties for use in the provision of services including libraries, offices, industrial units and youth centres.

The minimum lease payments due under leases in future years are:

	2014/15 £000	2015/16 £000
Not later than one year	713	676
Later than one year and not later than five years	1,294	900
Later than five years	798	809
	2,805	2,385

The expenditure charged in the Comprehensive Income and Expenditure Statement during the year in relation to these leases was:

	2014/15 £000	2015/16 £000
Minimum lease payments	900	826
Contingent rents	45	45
	945	871

Authority as Lessor

Finance Leases

The Authority leases school land and buildings to Academy schools for 125 year terms on peppercorn rentals. As per accounting policy, related assets are derecognised from the Authority's balance sheet upon transfer to Academy status.

Operating Leases

The Authority leases out property and equipment under operating leases for the following purposes:

- for the provision of community services, such as sports facilities, tourism services and community centres
- for economic development purposes to provide suitable affordable accommodation for local businesses.

The minimum lease payments receivable under leases in future years are:

	2014/15 £000	2015/16 £000
Not later than one year	759	883
Later than one year and not later than five years	919	1,311
Later than five years	1,729	1,661
	3,407	3,855

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews. In 2015/16 £0.1 million contingent rents were receivable by the Authority (£0.1 million in 2014/15).

11. Private Finance Initiative (PFI)

East Leake Schools

The Authority has a contract with East Leake Schools Limited for the provision of secondary and primary schools and a community leisure facility in East Leake. Service commenced during 2003/04 and the contract finishes on 31 July 2027 when the buildings transfer back to the Authority.

The Authority retained the freehold of the land which is valued and included in the Balance Sheet as other land and buildings where the school is under Local Authority control.

The assets used to provide the schools services are recognised on the Authority's Balance Sheet where the school is under local authority control.

The Authority makes an agreed payment each year which is increased each year by inflation and can be reduced if the contractor fails to meet availability and performance standards in any year but is otherwise fixed. Payments remaining to be made under the PFI contract at 31 March 2016 including an estimate of inflation at 2.5% but excluding any performance or availability deductions, are as follows:

	Service Charge	Lifecycle Re - placement	Finance Liability	Interest	Contingent Rent	Total
	£000	£000	£000	£000	£000	£000
Payable within 1 year	556	228	515	988	310	2,597
Within 2-5 years	2,281	993	2,589	3,376	1,410	10,649
Within 6-10 years	2,981	1,547	4,741	2,520	2,132	13,921
Within 11-15 years	821	177	1,911	212	713	3,834
	6,639	2,945	9,756	7,096	4,565	31,001

Bassetlaw Schools

The Authority has a contract with Transform Schools (Bassetlaw) Ltd for the provision of five secondary schools, two post-16 centres, one special school and two community leisure centres. These became fully operational during 2007/08 and the contract finishes on 31 July 2032 when the buildings transfer back to the Authority.

An agreement has been entered into between Nottinghamshire County Authority and Bassetlaw District Authority with regards to the two leisure facilities which form part of the PFI Scheme. A lease has been granted to Bassetlaw District Authority for a term of 60 years secured on both the leisure facilities. Consequently these facilities are not included as assets on the Authority's Balance Sheet.

The Authority retained the freehold of the land which is valued and included in the Balance Sheet as other land and buildings where the school is under local authority control.

The assets used to provide the schools services are recognised on the Authority's Balance Sheet where the school is under local authority control.

The Authority makes an agreed payment each year which is increased each year by inflation and can be reduced if the contractor fails to meet availability and performance standards in any year but is otherwise fixed. Payments remaining to be made under the PFI contract at 31 March 2016 including an estimate of inflation at 2.5% but excluding any performance or availability deductions, are as follows:

	Service Charge £000	Lifecycle Re - placement £000	Finance Liability £000	Interest £000	Contingent Rent £000	Total £000
Payable within 1 year	5,740	1,703	2,525	8,947	150	19,065
Within 2-5 years	24,661	5,293	14,138	32,903	1,302	78,297
Within 6-10 years	35,064	9,080	25,209	32,251	1,249	102,853
Within 11-15 years	40,486	14,127	36,779	18,223	(549)	109,066
Within 16-20 years	12,321	2,934	14,723	1,592	608	32,178
	118,272	33,137	93,374	93,916	2,760	341,459

Waste Recycling

The Authority has received Government support for a Nottinghamshire Waste PFI scheme which involves the commissioning of Materials Recycling Facilities (MRF) and an Energy Recovery Facility. A PFI credit of £38.3 million has been allocated. The contract was signed on 26 June 2006 with Veolia Environmental Services and the contract ends on 31 March 2033 when the assets transfer to the Authority. The MRF became operational in January 2009. The MRF site is subject to a 50 year rental agreement with the Authority, which is then recharged to Veolia Environmental Services at the same rates.

The Authority retained the freehold of the land which is valued and included in the Balance Sheet.

The assets used to provide the services are recognised on the Authority's Balance Sheet. Movements in their value over the year are included in the analysis of the movement in Property, Plant and Equipment balance.

The Authority makes an agreed payment per tonne of waste which is increased each year by inflation and can be reduced if the contractor fails to meet availability and performance standards in any year but is otherwise fixed. Payments remaining to be made under the PFI contract at 31 March 2016 including an estimate of inflation at 2.5% but excluding any performance or availability deductions, are as follows:

	Service Charge £000	Lifecycle Re - placement £000	Finance Liability £000	Interest £000	Contingent Rent £000	Total £000
Payable within 1 year	17,505	151	2,402	2,423	1,785	24,266
Within 2-5 years	74,095	8,155	1,606	12,188	6,577	102,621
Within 6-10 years	102,867	7,020	7,220	14,590	12,721	144,418
Within 11-15 years	116,387	1,354	4,525	9,645	19,999	151,910
Within 16-20 years	50,729	-	6,062	1,418	9,866	68,075
	361,583	16,680	21,815	40,264	50,948	491,290

12. Investment Properties

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

	2014/15 £000	2015/16 £000
Rental income from Investment Property	(680)	(585)
Direct operating expenses arising from Investment Property	113	158
Net (income)/expenditure	(567)	(427)

There are no restrictions on the Authority's ability to realise the value inherent in its Investment Property or on the Authority's right to the remittance of income and the proceeds of disposal. The Authority has no contractual obligations to purchase, construct or develop Investment Property or to undertake repairs, maintenance or enhancement.

Investment Properties have been valued as at the Balance Sheet date by the Authority's Estate specialist Mr I Brearley MRICS who holds a relevant professional qualification and has recent experience.

The following table summarises the movement in the fair value of Investment Properties over the year:

	2014/15 £000	2015/16 £000
Balance at start of year	12,692	13,336
Additions:		
Subsequent expenditure	1	-
Disposals	(134)	(610)
Net gains/(losses) from fair value adjustments	1,205	3,364
Transfers		
(to)/from PPE	(428)	1,914

Fair Value Hierarchy

The Investment property portfolio has been assessed in reference to the Fair Value Hierarchy as per the requirements of IFRS13 (see Statement of Accounting Policies for further detail).

	Level 1 £000	Level 2 £000	Level 3 £000	Fair Value as at 31/3/16 £000
Investment Properties	-	11,182	6,822	18,004

Valuation techniques used to determine Fair value

Significant Observable Inputs - Level 2

The fair value has been derived using the market approach applying current market conditions and recent sales prices and other relevant information for similar assets in the local authority area. Market conditions are such that similar properties are actively purchased and sold and the level of observable inputs are significant.

Significant Unobservable Inputs - Level 3

The fair value has been measured using the investment method, where expected cash flows are discounted to establish the present value of the net income stream. The approach uses existing lease terms and internal data relating to rent growth and occupancy levels to derive a fair value. There is no reasonably available information to indicate that market participants would use different assumptions.

In estimating the fair value of the Authority's investment property portfolio, the highest and best use of the properties is their current use

13. Intangible Assets

The Authority accounts for its software as Intangible Assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment.

All software is given a finite useful life, based on assessment of the period that the software is expected to be of use to the Authority. The useful lives assigned to the major software suites used by the Authority are from 3-5 years.

Intangible Assets are held at depreciated historic cost as a proxy for fair value where useful lives are low and/or values are immaterial.

The carrying amount of Intangible Assets is amortised on a straight-line basis. The amortisation of £3.2 million expensed to revenue in 2015/16 (£2.7 million in 2014/15) was charged to the IT Administration cost centre and then absorbed as an overhead across all the service headings in the Net Expenditure of Services. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

The movement on Intangible Asset balances during the year is as follows:

	2014/15 Purchased Software Licences £000	2015/16 Purchased Software Licences £000
Balance at start of year		
Gross carrying amounts	13,915	16,595
Accumulated amortisation	(5,986)	(8,580)
Net carrying amount at start of year	7,929	8,015
Purchases	2,775	2,668
Disposals	-	(125)
Amortisation for the period	(2,688)	(3,239)
Other Movements	(1)	
Net carrying amount at end of year	8,015	7,319
Comprising		
Gross carrying amounts	16,595	17,620
Accumulated amortisation	(8,580)	(10,301)
	8,015	7,319

Assets with a gross value of £1.6 million were disposed of in the year.

14. Heritage Assets

Heritage Assets are measured at Open Market Value, or, under certain circumstances, at historic cost and depreciated where appropriate.

	2014/15 £000	2015/16 £000
Balance at 1 April	481	481
Additions	-	-
Revaluations	-	-
Balance at 31 March	481	481

Further Information on Heritage Assets

Savile of Rufford Abbey estate records

These documents relate to estates built up by the family in the West Riding of Yorkshire from the Middle Ages to the 17th century, and subsequently, augmented by the inheritance of the former Rufford Abbey estates in Nottinghamshire in 1626 through the marriage into the Talbot family, earls of Shrewsbury. The records were removed from Rufford Abbey prior to the Second World War and subsequently catalogued by the National Register of Archives in London in the 1940s and 1950s. They were deposited in the Nottinghamshire Archives in 1958, with subsequent additional deposits added in 1960, 1974 and 1982. These were supplemented by smaller acquisitions made in 1982. The collection consists of 394 boxes of documents.

Architectural drawings of Rufford and elsewhere by James Gibbs, 17th-18th centuries

The collection consists of 35 documents: 22 architectural drawings of Rufford Abbey, Ollerton Hall and Ollerton Church, with one drawing possibly of Osberton Hall, together with 17th and 18th century news cuttings reporting on Rufford Abbey and the Savile family, prints of Mr Henry Savile, Sir Henry Savile and Rufford landscapes.

The drawings were passed down to the present Lord Savile by descent. They were purchased at Sotheby's auction by Nottinghamshire Archives in July 2010, with the assistance of then Museums Libraries and Archives Council and Archives Council (now Arts Council)/ Victoria and Albert Museum Purchase Grant Fund and the friends of the National Libraries.

Ceremonial Regalia and Art Collection

The ceremonial regalia and art collection includes ceremonial items, paintings (both oil and watercolour), sketches, sculptures, glass and silverware acquired over a number of years. The majority of the collection is on display at County Hall with the remainder held in secure storage.

15. Assets Held for Sale

	Current Assets	
	2014/15	2015/16

Provisions adjustment	3,128	2,804
Closing bad debt provision	<u>5,639</u>	<u>5,976</u>

19. Pensions – Contributions

Teachers

In 2015/16, the Authority paid £17.8 million to the Teacher's Pension Agency (£16.8 million in 2014/15) in respect of teachers' pension costs, which represents 14.1% of teachers' pensionable pay to August 2016 then 16.48% from September 2016 onwards (14.1% in 2014/15). In Addition the Authority is responsible for all pension payments relating to added years it has awarded together with the related inflation increases. In 2015/16, this was £5.1 million (£6.0 million in 2014/15), representing 4.16% of pensionable pay (5.03% in 2014/15). The Authority is allowed to enhance lump sum retirement payments to teachers, in 2015/16 no payments were made (£0.2 million in 2014/15).

Other Employees

During 2015/16, the net cost of pensions and other benefits amounted to £40.5 million (£39.6 million in 2014/15), which represented 19.55% of pensionable pay (19.3% in 2014/15).

The Actuarial report upon which 2016/17 accounts are based is for a 3 year period commencing 1 April 2014. The report indicated rates that will provide the cost for 100% of pension funding in accordance with IAS19.

This is a combined rate of 13.2% and a value to be contributed:

		Additional contribution
		£000
2014/15	13.2% of pensionable pay	12,638
2015/16	13.2% of pensionable pay	12,979
2016/17	13.2% of pensionable pay	13,330

The Authority is responsible for all pension payments relating to discretionary added years benefits it has awarded, together with the related inflation increases. The annual costs are funded by charges to Services. In 2015/16 these amounted to £2.5 million (£2.3 million in 2014/15), representing 1.2% of pensionable pay (1.97% in 2014/15). The Authority also paid £1.4 million into the Pension Fund in 2015/16 (£2.5 million for 2014/15) to fund the non-discretionary additional strain on the pension fund of early retirements.

20. Pensions – IAS19

The IAS19 position as at 31 March 2016 was a net liability as set out in the table below :

	2014/15	2015/16
	£000	£000
Local Government Pension Scheme	(987,000)	(839,725)
Teachers Unfunded Defined Benefit Scheme	(100,711)	(94,814)
Total Net Liability	<u>(1,087,711)</u>	<u>(934,539)</u>

Assets have been valued using the market value at 31 December 2015 increased by market index returns for the last three months of the accounting period. Liabilities have been valued using the projected unit method which assesses the future liabilities of the fund discounted to their present value. This work was undertaken by Barnett Waddingham LLP, an independent firm of actuaries, based upon the estimated position at 31 March 2016 provided by the Authority during March 2016. The actual figures for 2015/16 are not considered materially different from the estimates provided.

Local Government Pension Scheme

The Authority recognises the cost of retirement benefits in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the Authority is required to make against Council Tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out in the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and Movement in Reserves Statement during the year:

	2014/15 £000	2015/16 £000
Comprehensive Income and Expenditure Statement		
Cost of Services		
- Current service cost	(51,164)	(61,615)
- Past service cost (including curtailments)	(4,420)	(2,068)
- Liabilities (assumed) / extinguished on settlements	12,995	6,564
- Settlement Prices received / (paid)	(5,482)	(2,536)
Other Operating Expenditure		
- Administration Expenses	(239)	(31)
Financing and Investment Income and Expenditure		
- Net interest on the defined (liability) / asset	(30,774)	(31,781)
Net Charge to the Comprehensive Income and Expenditure Statement	<u>(79,084)</u>	<u>(91,467)</u>

Movement in Reserves

- Reversal of net charges made for retirement benefits in accordance with IAS19	79,084	91,467
Actual amount charged against the General Fund Balance for pensions in the year:		
- Employers contributions payable to the Pension Fund and retirement benefits payable directly to pensioners	44,497	44,889

In addition to the recognised gains and losses included in the Comprehensive Income and Expenditure Statement, the following actuarial gains/losses were included within Other Comprehensive Income and Expenditure.

	2014/15 £000	2015/16 £000
Actuarial gains / (losses)	(227,852)	194,552

Assets and liabilities in relation to retirement benefits

Reconciliation of present value of the scheme liabilities:

	2014/15 £000	2015/16 £000
At 1 April	2,050,633	2,445,606
Current service cost	51,164	61,615
Interest cost	88,749	79,703
Change in Financial Assumptions	317,566	(253,816)
Change in Demographic Assumptions	-	-
Experience loss/(gain) on Defined Benefit Obligation	-	1,079
Past service costs/(gain)	4,420	2,068
Liabilities extinguished on settlements	(12,995)	(6,564)
Benefits paid	(64,504)	(64,751)
Contributions by scheme participants	12,916	13,064
Unfunded pension payments	(2,343)	(2,298)
at 31 March	<u>2,445,606</u>	<u>2,275,706</u>

Reconciliation of fair value of the scheme assets:

	2014/15 £000	2015/16 £000
At 1 April	1,325,791	1,458,606
Interest on assets	57,975	47,922
Return on assets less interest	88,563	(59,336)
Other actuarial gains/(losses)	-	-
Administration expenses	(239)	(31)
Employer contributions	44,778	44,190
Contributions by scheme participants	12,916	13,064
Estimated benefits paid	(66,847)	(67,049)
Settlement prices received/(paid)	(5,482)	(2,536)
Other Movements*	1,151	1,151
At 31 March	1,458,606	1,435,981
Opening Net Position	(724,842)	(987,000)
Closing Net Position	(987,000)	(839,725)

*Contribution from Nottinghamshire Probation Trust for former employees of the Authority.

The expected return on scheme assets is based on the long-term future expected investment return for each asset class as at the beginning of the period (i.e. as at 1 April 2015 for the year to 31 March 2016). The returns on gilts and other bonds are assumed to be gilts yields and corporate bond yields (with an adjustment to reflect default risk) respectively at the relevant date. The return on equities and property is then assumed to be a margin above gilts yields.

Scheme History

	2011/12 £m	2012/13 £m	2013/14 £m	2014/15 £m	2015/16 £m
Present value of liabilities	(1,890.8)	(2,023.3)	(2,050.6)	(2,445.6)	(2,275.7)
Fair value of scheme assets	1,092.6	1,229.9	1,325.8	1,458.6	1,436.0
Surplus/(deficit) in the scheme	(798.2)	(793.4)	(724.8)	(987.0)	(839.7)
Cumulative actuarial gain (loss)	(402.6)	(397.6)	(286.4)	(514.3)	(319.7)

IAS19 requires the Authority to determine the surplus or deficit of its Pension Fund on an annual basis. In the short-term, changes in the value of investments can lead to a significant variation to the surplus or deficit on the fund which might be expected to show a smoother trend over the longer term. Every three years the Authority reviews its contributions to the fund based upon a detailed actuarial exercise which takes account of existing liabilities and likely investment returns and sets out an approach to meeting 100% of liabilities over a period of time. This takes a longer-term view of the fund position than that required by IAS19 and is expected to be less prone to significant changes in fund value as a result of short-term fluctuations in market values. The Authority does not expect the deficit shown to have a significant impact upon reserves or revenue funding requirements in the short term. The triennial revaluation effective 1 April 2014 showed that the Authority's contributions to the fund would be 13.2% of pensionable pay in each of the next three financial years, and an additional value of:

	£000
2014/15	12,638
2015/16	12,979
2016/17	13,330

The total contributions expected to be made to the Local Government Pension Scheme by the Authority in the year to 31 March 2016 is £40.5 million.

The actuarial assumptions used to calculate the position in accordance with IAS19 were as follows:

	31 March 2015	31 March 2016
Rate of inflation - RPI Increases	3.2%	3.2%
Rate of inflation - CPI Increases	2.4%	2.3%
Rate of increase in salaries	4.2%	4.1%
Rate of increase in pensions	2.4%	2.3%
Discount rate	3.3%	3.6%
Mortality assumptions:		
Longevity at 65 for current pensioners:		
Men (years)	22.1	22.1
Women (years)	25.2	25.3
Longevity at 65 for future pensioners:		
Men (years)	24.2	24.4
Women (years)	27.6	27.7
Expected return on assets	11.0%	(1.0%)
Proportion of employees opting to take an increased lump sum/reduced pension	50.0%	50.0%

The Authority's estimated asset allocation, which is 36% of the whole fund is as follows:

	31 March 2015		31 March 2016	
	£000	%	£000	%
Assets				
Equities	1,028,231	70	999,737	70
Gilts	45,574	3	44,688	3
Other Bonds	102,943	7	98,214	7
Property	170,238	12	181,378	12
Cash	70,933	5	58,223	4
Inflation-linked pooled fund	40,687	3	40,422	3
Infrastructure			13,319	1
Total	1,458,606	100	1,435,981	100

The Authority publishes a Pension Fund Annual Report which is available upon request. A copy is also available on the pension fund website (www.nottspf.org.uk).

Sensitivity analysis

This table shows the assumption change and the impact upon present value of total obligation and projected Service Cost:

	£000	£000	£000
Adjustment to discount rate	+0.1%	0.0%	(0.1%)
Present Value of Total Obligation	2,236,209	2,275,705	2,315,935
Projected Service Cost	54,072	55,297	56,551
Adjustment to long term Salary Increase	+0.1%	0.0%	(0.1%)
Present Value of Total Obligation	2,280,330	2,275,705	2,271,110
Projected Service Cost	55,297	55,297	55,297
Adjustment to pensions Increase and Deferred revaluation	+0.1%	0.0%	(0.1%)
Present Value of Total Obligation	2,311,789	2,275,705	2,240,269
Projected Service Cost	56,556	55,297	54,055
Adjustment to mortality age rating assumption	+1 Year	None	-1 Year
Present Value of Total Obligation	2,345,109	2,275,705	2,208,420
Projected Service Cost	56,708	55,297	53,921

Teachers

Under IAS19, the Teachers added years scheme is classed as an unfunded defined benefit scheme. The Authority recognises the cost of retirement benefits in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the Authority is required to make against Council Tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out in the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and Movement in Reserves Statement during the year:

	2014/15 £000	2015/16 £000
Comprehensive Income and Expenditure Statement		
Cost of Services		
- Past service (cost) / gain	-	-
- Gains / (losses) on curtailments	-	-
Financing and Investment Income and Expenditure		
- Interest cost	(3,683)	(2,748)
Net Charge to the Comprehensive Income and Expenditure Statement	(3,683)	(2,748)
Movement in Reserves		
	2014/15 £000	2015/16 £000
- Reversal of net charges made for retirement benefits in accordance with IAS19	3,683	2,748

Actual amount charged against the General Fund Balance for pensions in the year:

- Employers contributions payable to the Pension Fund and retirement benefits payable directly to pensioners	5,988	5,182
--	-------	-------

In addition to the recognised gains and losses included in the Comprehensive Income and Expenditure Statement, the following actuarial gains/losses were included within other comprehensive income and expenditure.

	2014/15 £000	2015/16 £000
Actuarial gains / (losses)	(7,965)	3,463

Liabilities in relation to retirement benefits

Reconciliation of present value of the scheme liabilities:

	2014/15 £000	2015/16 £000
Deficit at 1 April	95,051	100,711
Interest cost	3,683	2,748
Actuarial (gains) / losses	7,965	(3,463)
Gain / (loss) on curtailments	-	-
Past service costs / (gain)	-	-
Unfunded pension payments	(5,988)	(5,182)
Deficit at 31 March	100,711	94,814

Scheme History

	2011/12 £m	2012/13 £m	2013/14 £m	2014/15 £m	2015/16 £m
Present value of liabilities	(76.7)	(84.7)	(95.1)	(100.7)	(94.8)
Fair value of scheme assets	-	-	-	-	-
Surplus/(deficit) in the scheme	(76.7)	(84.7)	(95.1)	(100.7)	(94.8)

The actuarial assumptions used to calculate the position in accordance with IAS19 were as follows:

	31 March 2015	31 March 2016
Rate of inflation - RPI Increases	2.8%	2.8%
Rate of inflation - CPI Increases	2.0%	1.9%
Rate of increase in pensions	2.0%	1.9%
Discount rate	2.8%	3.0%

Mortality assumptions:

Longevity at 65 for current pensioners:

Men (years)	22.1	22.1
Women (years)	25.2	25.3

Longevity at 65 for future pensioners:

Men (years)	24.2	24.4
Women (years)	27.6	27.7

21. Creditors

Creditors less than one year	2014/15 £000	2015/16 £000
Central government bodies	9,650	8,916
Other local authorities	22,476	17,374
NHS bodies	3,456	3,604
Public corporations and trading funds	475	543
Other entities and individuals	71,755	67,470
Total	107,812	97,907

22. General Provisions

Where events have happened, which are likely to result in future costs to the Authority, an estimate of the likely impact is made and a provision is set aside. The provisions made are set out below:

Short Term Provisions	2014/15 £000	Movement £000	2015/16 £000
General Insurance Claims prior to 1/4/98	778	(18)	760
General Insurance Claims from 1/4/98	661	55	716
Corporate Redundancy Provision	1,267	(536)	731
NDR provision for backdated appeals	278	189	467
Provisions below £200,000	169	(18)	151
Childrens' Social Care adaptations	302	(267)	35
Total	3,455	(595)	2,860

Total	16,610	(1,458)	15,152

23. Contingent Liabilities

Insurance

In 1992, Municipal Mutual Insurance (MMI) ceased to trade and now exists solely to discharge its responsibilities under policies that it had previously issued. These responsibilities relate mainly to legal liability claims, which will take many years to materialise and finalise. On 13 November 2012 the board of MMI triggered the previously agreed Scheme of Arrangement and Ernst & Young LLP became responsible for the management of MMI's business, affairs and assets. In February 2013 the proposed levy or claw-back rate was initially set at 15%. On 16 March 2016, MMI wrote to all scheme creditors and proposed that the levy be increased to 25%. This has been agreed by the Scheme Creditors Committee and the balance of 10%

will comprise the second levy to be applied to claims payments made under the Scheme of Arrangement since 30 September 1993. The actuarial review of the insurance liabilities of MMI remains uncertain and Ernst & Young LLP is not able to guarantee that this revised levy percentage will be sufficient for a solvent run-off. It is therefore anticipated that further levies will be made.

Social Care

A group litigation has been lodged against the Authority for negligence in its responsibilities for providing social care. Experience of similar cases in other authorities suggests that it will be three to five years before the case is concluded. An allowance has been set aside within the insurance provision for the possible settlement that the Authority may have to pay. However, in order not to prejudice seriously the privacy of the individuals and the Authority's position in the case, any further information has been withheld from this publication.

24. Specific Revenue Grants

The value of revenue grants included as income within the cost of services is as follows:

	2014/15	2015/16
Service	£000	£000
Children's and Education Services	364,795	360,963
Environmental Services	53	396
Highways, Roads and Transportation	4,540	1,675
Cultural Services	127	172
Public Health	36,154	39,473
Planning and Development	6,194	3,803
Adult Social Care	4,839	13,163
Corporate Management	340	317
Democratic Representation and Management	53	66
	417,095	420,028
	417,095	420,028
Funding Body		
Department for Business, Innovation and Skills	1,955	2,614

Arts Council England	29	-
Other	65	130
	1,517	1,882
	1,517	1,882

25. General Government Grants Income and Taxation

The Authority set the 2015/16 Council Tax for a Band D property at £1,241.14 (£1,216.92 in 2014/15). This was suitably adjusted for other Bands of property and a precept was issued to the District Councils to recover the relevant amounts. Any variances in the amounts actually collected by the District Councils on behalf of the Authority will be adjusted in the amounts payable next year.

The figure for income from Council Tax includes accruals for the year-end position for the Authority's share of the various District Council Collection Funds. The value of the accrual in 2015/16 increased by £2.5 million (£1.1 million decrease in 2014/15) which is reversed out of the General Fund in the Movement in Reserves Statement and held in the Balance Sheet in the Collection Fund Adjustment Account.

A number of grants are paid to the Authority directly by the Government. The Authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement:

Credited to Taxation and Non Specific Grant Income	2014/15 £000	2015/16 £000
Department for Communities and Local Government	25	168
Department for Education	8,084	19,314
Department of Health	733	283
Department for Transport	20,564	21,306
Other Grants	3,879	2,676
Recognised Capital Grants and Contributions	<u>33,285</u>	<u>43,747</u>
	2014/15 £000	2015/16 £000
Revenue Support Grant	122,036	90,334
Local Services Support Grant	734	569
PFI	13,754	13,908
Other	8	-
General Government Grants	<u>136,532</u>	<u>104,811</u>

The Authority has received a number of grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that, if not fulfilled, will require the monies or property to be returned to the donor. The balances at year-end are as follows:

Capital Grants Receipts in Advance	2014/15 £000	2015/16 £000
Department for Communities and Local Government	32	32
Department for Education	102	102
Department of Health	366	366
Department for Transport	-	1,840
Other Grants	3,273	4,916
Total	<u>3,773</u>	<u>7,256</u>

26. Financial Instruments Balance

The borrowings and investments disclosed in the Balance Sheet are made up of the following categories of Financial Instruments:

	Long-term		Current	
	2014/15 £000	2015/16 £000	2014/15 £000	2015/16 £000
Financial liabilities at amortised cost	519,656	548,856	121,593	112,091
Financial liabilities at fair value through profit and loss	-	-	-	-
Total borrowings	<u>519,656</u>	<u>548,856</u>	<u>121,593</u>	<u>112,091</u>
Loans and receivables	8,207	7,670	81,597	80,473
Available for sale financial assets	-	-	-	-
Unquoted equity investment at cost	-	-	-	-
Total investments	<u>8,207</u>	<u>7,670</u>	<u>81,597</u>	<u>80,473</u>

The Authority does not hold any financial liabilities at fair value through profit and loss or available-for-sale financial assets. There have been no reclassifications of financial assets during the accounting period.

The Authority's borrowings include finance leases associated with PFI schemes and borrowings with the Public Works Loans Board (PWLB) and with UK and European banks through 'Lender's Option, Borrowers' Option' loans (LOBOs). These are both classed as 'other liabilities' and measured at amortised cost.

Financial liabilities at amortised cost

Long-term

	2014/15 £000	2015/16 £000
(a) Long Term Borrowing		
Amounts still owed on loans received from external sources to acquire capital assets such as roads, buildings & equipment.		
Long Term Borrowing for repayment after 1 year	397,757	428,454
(b) Finance Lease Liability		
Amounts still owed on finance leases taken with external sources to acquire capital assets for PFI Schemes and long term finance leases for repayment after 1 year	121,899	120,402
Total Long Term Borrowing at 31 March	519,656	548,856

Current

	2014/15 £000	2015/16 £000
(c) Borrowing		
Long term borrowing for repayment within 1 year	17,798	18,431
Finance leases and PFI schemes for repayment within 1 year	4,970	5,688
Total Borrowing at 31 March	22,768	24,119
(d) Trade Creditors	98,825	87,972

Financial Assets - Loans & Receivables

Long-term

	2014/15 £000	2015/16 £000
(a) Long-term Investments		
Long term investments with other local authorities and financial institutions	4,519	4,520
(b) Long-term Advances		
Car and Bike Loans	267	198
Nottinghamshire Cricket Club	927	860
Hardship Loans	-	27
Academies	413	236
Adult Care Property Debt - Deferred Payment Scheme	2,053	1,811
Funding Circle	28	18
	3,688	3,150

Car and Bike Loans

The Authority has made loans for car and bike purchases to 52 employees (2014/15 67 employees) in the Authority who are in posts that require them to drive regularly on the Authority's business. These loans are not subsidised.

Car and Bike Loans Breakdown:

	2014/15	2015/16
	£000	£000
Opening balance	386	267
Advances	76	55
Repayments	(195)	(124)
Closing Balance	<u>267</u>	<u>198</u>

	2014/15	2015/16
	£000	£000
Car Loans Breakdown:		
One year or less	112	93
More than one year	155	105
	<u>267</u>	<u>198</u>

On 19 September 2007 the Authority approved a loan of £1.23 million for 20 years to Nottinghamshire Cricket Club to help fund the £8.2 million development plans for the Trent Bridge ground. In addition to enhancing the reputation of the Cricket Club and helping it to retain Trent Bridge as a test match venue there are benefits to the economy and wider community benefits. Consequently, the loan was offered at a discounted rate with a capital repayment holiday for the first 5 years. Security has been set by way of a charge against the fixed assets of the Club to safeguard the interests of the Authority. Since the loan was offered at less than the prevailing rate the figure in the Balance Sheet represents the fair value of the loan carried at its amortised cost. The balancing figure appears in the Financial Instruments Adjustment Account.

The Authority has offered short term hardship loans to care providers affected by the move to a new provider of third party management services. The loans are all of low value and will be recovered from the care providers or the original management services provider within one year.

The Authority operates an internal school loans scheme to enable schools to purchase assets such as ICT equipment, minibuses, photocopiers or contribute towards capital schemes. Typically these amounts are repaid over a three year period. Interest is charged at the current base rate plus 1% on these loans. When a school converts to academy status any outstanding balance will be reclassified as a loan to an external body and shown as a loan on the Authority's Balance Sheet.

The Authority also provides loans to fund energy efficiency projects, i.e. Lighting, ICT upgrades and energy management systems. These are normally repaid over a five year period. No interest is charged on these loans. Since the loan was offered at less than the prevailing rate the figure in the Balance Sheet represents the the fair value of the loan carried at its amortised cost. The balancing figure appears in the Financial Instruments Adjustment Account.

Adult Care Property Debt under the deferred payment scheme (Section 35 of the Care Act 2014) consists of loans to those with insufficient income and capital, excluding their property, to meet their care home fees. Repayment of such loans is deferred until the residents die or their property is sold.

As part of its Economic Regeneration programme since 2013/14, the Authority has invested through the Funding Circle as a way of supporting direct lending or investment to small and medium sized local businesses. This was a consequence of the reduction in lending to businesses from banks or other mainstream sources of funding following the economic downturn.

Current

	2014/15	2015/16
	£000	£000
(c) Temporary investments		
Temporary investments with other local authorities and financial institutions	20,028	30,039

The Authority manages its cash in line with its approved Treasury Management Policy and in accordance with prevailing statutory requirements. The amount invested at the year end depends on the cash flow position at that date.

Short-term Trade Debtors	2014/15	2015/16
	£000	£000
(d) Trade Debtors (less bad debt provision)	61,569	50,434

Financial Assets - unquoted equity investment at cost

Economic Development: There are equity holdings amounting to £0.12 million (£0.15 million in 2014/15) that have been written off to the Comprehensive Income and Expenditure Account to reflect the high risk of the investment. Consequently, their fair value has been assessed as nil in the Balance Sheet.

The Authority holds a share in the local authority controlled CLASP Consortium (14%) and SCAPE System Building Ltd (17%). The CLASP Consortium was originally set up by a number of local authorities in 1957/58 for the design and delivery of a build system known as CLASP especially for school buildings but its role now is the provision of buildings design services for local authorities. Some members of the consortium are share holders in SCAPE, a limited company set up in 2006/07 to continue with the provision of build design and property consultancy services. The CLASP Consortium no longer undertakes any economic activities following the creation of SCAPE. The Authority is a founder member of the consortium and holds shares in SCAPE Ltd. The Authority does not receive any dividends from its holdings. The value of this holding is small and there are conditions on the shares that prevent them being traded on the open market. Consequently, since the fair value cannot be measured reliably, no value is carried on the Balance Sheet.

Interests in Companies

The Authority has a 50% interest in Futures Advice Skills and Employment Limited (formerly Nottingham and Nottinghamshire Futures Limited). The Company transferred into local authority control from the Learning and Skills Council at 1 April 2008 at no cost and consequently, this is reflected at an immaterial investment cost in the Authority's accounts.

27. Financial Instruments Gains/Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Account in relation to financial instruments are made up as follows:

	2014/15			2015/16		
	Financial Liabilities	Financial Assets	Total	Financial Liabilities	Financial Assets	Total
	£000	£000	£000	£000	£000	£000
Interest expense	(32,907)	-	(32,907)	(34,000)	-	(34,000)
Losses on derecognition	-	-	-	-	-	-
Impairment losses	-	-	-	-	-	-
Interest payable and similar charges	(32,907)	-	(32,907)	(34,000)	-	(34,000)
Interest income	-	430	430	-	680	680
Gains on derecognition	-	-	-	-	-	-
Interest and investment income	-	430	430	-	680	680

The average cost of external borrowing was 4.71% (4.90% in 2014/15).

The interest expense figure includes the cost of administration fees. For most of the transactions entered into by the Authority the transaction costs are negligible. For example, the PWLB charges an administration fee when advancing new loans at the current rate of 35p per £1,000 and LOBO loans taken out through brokers have incurred fees of £24,000 on borrowings of £10 million. Administration fees below 0.5% of the amount borrowed are considered not material and are charged directly to the Comprehensive Income and Expenditure Account.

Following comprehensive local government re-organisation in 1974, the Authority took over assets from other local authorities on which there were repayments of advances still outstanding. These debts are administered by the other authorities and the amounts recharged to the Authority are included in the above figures.

The balance outstanding on these deferred liabilities is as follows:

	2014/15	2015/16
	£000	£000
Loan taken over from District Councils when the responsibility for services was transferred to the Authority on local government reorganisation in 1974.	1,438	1,234

28. Fair Value of Assets and Liabilities carried at amortised cost

Financial liabilities and financial assets represented by loans and receivables are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- no early repayment or impairment is recognised
- where an instrument will mature in the next 12 months, the carrying amount is assumed to approximate to fair value
- the fair value of trade and other receivables is taken to be the invoiced or billed amount.

For long term borrowings and investments, fair values have been calculated by reference to relevant interest rates in force as at 31 March 2015 and 2016 as follows:

- for PWLB loans, the relevant PWLB rate in force
- for LOBO loans, the PWLB premature repayment rate applicable to loans in excess of 50 years
- for long term investments, the market rate for a loan of similar value and profile
- for finance leases and Salix loan, the PWLB rate for an annuity commencing on 31 March of equal length to the remaining scheduled length
- for loans and receivables, the PWLB rate for an annuity commencing on 31 March of length equal to the remaining scheduled length of the relevant instrument, plus 1% to recognise risk on loans and receivables.

	2014/15		2015/16	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	£000	£000	£000	£000
Financial liabilities	641,249	782,066	660,947	917,441

The fair value is greater than the carrying amount because the Authority's portfolio of loans and finance leases includes a number of fixed rate loans and leases where the interest rate payable is higher than the rates available for similar loans at the Balance Sheet date. This commitment to pay interest above current market rates increases the amount that the Authority would have to pay if the lender agreed to early repayment of the loans.

	2014/15		2015/16	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	£000	£000	£000	£000
Loans and receivables	89,804	89,991	88,143	88,426

The fair value is different from the carrying amount because the Authority's portfolio of investments included a number of fixed rate loans where the interest rate receivable was different from the rates available for similar loans at the Balance Sheet date. Where the agreed interest is above current market rates, the Authority would have to accept higher repayment if it negotiated early repayment of the loans; where the interest rate is lower then a lower repayment.

Fair Value Hierarchy

The financial liabilities, loans and receivables have been assessed in reference to the Fair Value Hierarchy as per the requirements of IFRS 13 (see Statement of Accounting Policies for further detail)

	Level 1 £000	Level 2 £000	Level 3 £000	Fair Value as at 31/3/16 £000
Financial liabilities	-	-	917,441	917,441
Loans and receivables	-	-	88,426	88,426

Valuation techniques used to determine Fair Value

Significant Unobservable Inputs - Level 3

The Fair Value has been measured using the investment method, where expected cashflows are discounted to the present value of the net income stream.

29. Disclosure of nature and extent of risks arising from financial instruments

The Authority's activities expose it to a variety of financial risks:

- credit risk – the risk of failure by a counterparty to meet its contractual obligations under an investment, borrowing, capital, project or partnership financing
- liquidity risk – the risk that cash will not be available when it is needed, thereby causing additional unbudgeted costs with consequent impact on the Authority's business/service objectives.
- market risk – the risk that, through adverse market fluctuations in the value of the principal sums the Authority borrows and invests, its stated treasury management policies are compromised.

The Authority's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. In 2002, the Authority adopted the CIPFA Code of Practice on Treasury Management. In accordance with this Code of Practice, the Authority sets an annual Treasury Management Strategy, by March each year. This contains a number of measures to control the key financial instrument risks above including:

- treasury management practices
- prudential indicators for borrowing and investment
- approved counterparties for lending purposes.

The Authority also receives regular reports measuring the performance of the treasury management function. A copy of the Authority's Treasury Management Policy and Strategy is available upon request.

Credit Risk

The following analysis summarises the Authority's potential maximum exposure to credit risk, based on experience of default and uncollectability over the last five financial years, adjusted to reflect current market conditions.

	Amounts at 31/3/16 £000	Historical experience of default	Historical experience adjusted for market conditions at 31/3/16	Estimated maximum exposure to default and uncollecta- bility £000
Deposits with banks and financial institutions	30,039	-	-	-
Customers	24,889	0.20%	0.20%	50

No credit limits were exceeded during the reporting period and the Authority does not expect any losses from non-performance by any of its counterparties in relation to deposits.

Customers are assessed, taking into account their financial position, past experience and other factors. The Authority's policy is to set aside a provision for bad debt in order to minimise the effect of default. At the end of 2015/16 the provision for bad and doubtful debt was £6.0 million (£5.6 million in 2014/15).

The Authority does not generally allow credit for customers, such that £9.4 million (£8.7 million in 2014/15) of the £24.9 million (£27.5 million in 2014/15) balance is past its due date for payment. The past due amount can be analysed by age as follows:

	£000
Less than three months	3,302
Three to six months	1,080
Six months to one year	1,328
More than one year	3,710
	9,420

Liquidity risk

As the Authority has ready access to borrowings from the Public Works Loans Board, there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. Instead, the risk is that a significant proportion of borrowings will mature at a time of unfavourable interest rates. Current borrowings are spread over 70 years with a maximum of any one year's maturity around 7% of the total. However, since the Authority's future borrowing requirement is fairly sizeable in relation to current debt, the prudential indicator for debt maturity has been set with as part of the annual Treasury Management Strategy. The strategy for new loans is to borrow each year close to the lowest rate available and, where economic circumstances make it favourable, early repayment of fixed rate loans will be considered.

In addition, the Authority has a number of finance lease liabilities that relate to PFI and other schemes.

The maturity analysis of financial liabilities is as follows:

Maturity date	2014/15	%	2015/16	%
	£000		£000	
Within 1 year	22,768	4.2	24,119	4.2
1 year and up to 2 years	15,229	2.8	13,684	2.4
2 years and up to 5 years	51,599	9.5	57,899	10.1
5 years and up to 10 years	89,656	16.5	90,230	15.7
10 years and up to 15 years	87,032	16.1	88,260	15.4
15 years and up to 20 years	74,149	13.7	67,911	11.9
20 years and up to 25 years	51,121	9.4	50,003	8.7
25 years and over	150,870	27.8	180,869	31.6
	542,424	100.0	572,975	100.0

	2014/15 £000	2015/16 £000
Source of Borrowing		
Public Works Loan Board	308,359	337,656
External Bonds and Loans	106,296	106,302
Finance Leases related to PFI and other schemes	126,869	126,090
Salix Loan	900	2,927
	<u>542,424</u>	<u>572,975</u>

All trade and other payables are due to be paid in less than one year.

Market risk

Interest rate risk

The Authority is exposed to risk in terms of interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Authority. For instance, a rise in interest rates would have the following effects:

- borrowings at fixed rates – the fair value of the borrowings will fall
- investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement will rise
- investments at fixed rates – the fair value of the assets will fall.

Borrowings are not carried at fair value, so nominal gains and losses on fixed rate borrowings would not impact on the Comprehensive Income and Expenditure Statement. However, changes in interest receivable on variable rate investments will be posted to the Comprehensive Income and Expenditure Statement and affect the General Fund Balance pound for pound. Movements in the fair value of fixed rate investments will be reflected in other comprehensive income and expenditure.

The Authority has a number of strategies for managing interest rate risk. The policy for borrowing rates is to achieve a managed decline in the average rate and to borrow each year close to the lowest rate available. During periods of falling interest rates, and where economic circumstances make it favourable, early repayment of fixed rate loans will be considered to limit exposure to losses. The risk of loss is ameliorated by the fact that a proportion of Government grant payable on financing costs will normally move with prevailing interest rates or the Authority's cost of borrowing and provide compensation for a proportion of any higher costs. The treasury management team has an active strategy for assessing interest rate exposure that feeds into the setting of the annual budget. The strategy is used to advise investment and borrowing decisions and also whether new borrowing taken out should be fixed or variable. This allows any adverse changes to be accommodated.

The Authority has no variable rate borrowings and minimal variable rate investments. A 1% change in interest rates would therefore have no material impact on the Comprehensive Income and Expenditure Statement. If interest rates had been 1% higher at 31 March 2016, with all other variables held constant, the fair value of fixed rate borrowings would be lower but with no impact on the Comprehensive Income and Expenditure Statement.

Price risk

The Authority does not hold any equity shares that can be measured and consequently is not exposed to losses from movements in the prices of shares.

Foreign exchange risk

The Authority has no financial assets or liabilities denominated in foreign currencies and thus has no exposure to movements in exchange rates.

30. Related Parties

The Authority is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Authority or to be controlled or influenced by the Authority. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Authority.

Central Government

Central Government has effective control over the general operations of the Authority – it is responsible for providing the statutory framework within which the Authority operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Authority has with other parties (e.g. Council Tax bills, housing benefits). Grants received from Government departments are set out in the subjective analysis in Notes 24 and 25 on reporting for resources allocation decisions.

Members

Members of the Council have direct control over the Authority's financial and operating policies. The total of Members' allowances paid in 2015/16 is shown in Note 46. During 2015/16, there were no works or services commissioned from companies in which Members had an interest (2014/15 - none). Any contracts would have been entered into in full compliance with the Authority's standing orders. Grants totalling £2,204,291 were paid to 17 organisations in which 17 Members had positions on the governing body (2014/15 £3,028,039 to 19 organisations, 18 Members). No grants were made to organisations whose senior management included close members of the families of Members. In all instances, the grants were made with proper consideration of declarations of interest. The relevant Members did not take part in any discussion or decision relating to the grants. Details of all these transactions are recorded in the Register of Members' Interests which is open to public inspection and is also available on the Authority's website at:

<http://www.nottinghamshire.gov.uk/thecouncil/democracy/councillors/allowances-expenses-conduct-interests/>

Senior Employees

In accordance with section 117 of the Local Government Act 1972, Senior Employees must declare their interest in any organisations which have received grant payments. During 2015/16, a grant of £2.1m was paid to Futures Advice, Skills & Employment Ltd (Futures), an organisation in which senior employee had an interest (£2.1m for 2014/15). This employee is a director of Futures and was temporarily part of the Corporate Leadership Team during 2015/16. this same value is also included in the members grants value noted above. A grant of £65,200 was paid to one organisation in which a senior employee declared an interest.

Other Public Bodies (subject to common control by Central Government)

The Authority has a pooled budget arrangement with Integrated Community Equipment Loan Service (ICELS). The Authority has also entered into a pooled budget arrangement with NHS bodies called the Better Care Fund (BCF). Transactions and balances outstanding are detailed in Note 44.

The Authority is the administering body for the Local Government Pension Scheme (LGPS). Details of the Accounts of the Pension scheme can be found after the notes to the Authority's accounts.

Entities Controlled or Significantly Influenced by the Authority

The Authority has significant influence in the following organisations :

Futures Advice, Skills & Employment Ltd (Futures) - see below
CLASP - See note 26
SCAPE - See note 26

These organisations are deemed to be influenced significantly by the Authority through its representation on the board or ownership of shares. Details of the transactions with Futures Advice, Skills and Employment (Futures) Ltd are provided below. There are no material transactions with the other organisations listed.

Futures Advice, Skills and Employment Ltd (Futures) is a company owned equally between Nottingham City Council and Nottinghamshire County Council that provides support services to young people in Nottinghamshire. Following an assessment of the materiality of Futures to the Council, Group Accounts have not been prepared for 2015/16. Information related to Futures is provided below. Further details may be found within the accounts of the company which is registered in England under number 4172770.

	Audited 2014/15 £000	Unaudited 2015/16 £000
Revenue	15,800	16,476
Profit / (loss)	(78)	(45)
Total Assets	4,437	4,714
Total Liabilities	(22,847)	(17,532)
Equity and Reserves	(18,409)	(12,818)

Nottinghamshire County Council had the following transactions with Futures:

	2014/15 £000	2015/16 £000
Grants given	2,100	2,100
Purchases of works and services	525	613

31. Summary Revenue Accounts of Trading Undertakings

General Fund Balance comprises reserves available for use by the Authority as a contingency.

Schools Statutory Reserve - See note 34

General Insurance Reserve - See note 33

Capital Receipts and Grants Unapplied Reserve - holds capital grant / capital receipt balances that have been received but not yet utilised.

Corporate Reserves

Earmarked Reserves hold year end underspends where approval has been given to be carried forward and spent in the following year. This reserve also contains reserves previously classified under earmarked for services but are no longer required for their original purpose.

Capital Projects Reserve comprises contributions from revenue towards future capital schemes.

NDR Pool Reserve holds the Authority's share of the Non Domestic Rates pool surplus. The pool was established 1 April 2013 when the new funding mechanism was introduced with the seven District and Borough Councils. It also holds the Authority's share of growth and renewable energy.

Bassetlaw, East Leake and Waste PFI Reserves are surplus funding amounts set aside during the early years of the PFI contracts. These are contributions from central Government and the Authority will be required in later years to finance the unitary charge.

Corporate Pay Review Reserve - Amounts set aside to fund the costs of implementing single status employment conditions.

Surplus Pension Contributions Reserve - is the surplus amounts charged against services. This overpayment will contribute towards future years deficit payments.

Corporate Redundancy Reserve was established to help meet redundancy costs in excess of the amount already held in contingency for future years.

Strategic Development Fund was approved in the Budget Report to Council 27 February 2014 to facilitate the Authority's commitment to redefine service delivery.

Earmarked for Services Reserves

Trading Services reserves comprise accumulated revenue surpluses plus or minus any transfer between those reserves and the General Fund.

Departmental Reserves are amounts set aside to cover expected events where the accounting criteria for the creation of provisions are not met.

Revenue Grants and Section 256 Grants - Accounting guidelines state that grants without specific conditions that remain unspent at the year-end are transferred into usable reserves.

33. Insurance Reserve and Account

The Authority operates a self-insurance scheme and covers each kind of risk up to set limits which are reviewed annually. External insurers cover risks in excess of the internally insured amounts. The major areas where significant risks are covered externally are Fire, Liability and Motor. The insurance provision covers known liabilities. Amounts are also set aside in the Insurance Reserve to cover possible insurance claims losses that are not yet known about.

The total of the Insurance Provision and Reserve as at 31 March 1998 has been ring-fenced for liabilities arising up to that date. The balance and the liabilities are being shared by the County and City Councils in the proportion of 23.55 % City and 76.45% County.

The amount set aside in the Insurance Provision is detailed in Note 22. The Insurance Reserve is shown below:

General Insurance Reserve	Note	2014/15 £000	2015/16 £000
General Insurance Reserve		10,276	11,884
Insurance Account		2014/15 £000	2015/16 £000
Premiums paid		1,654	1,656
Claims made		4,041	3,013
Contribution (from)/to Provision		2,628	2,510
Miscellaneous charges		-	24
		<u>8,323</u>	<u>7,203</u>
Less charges to Departments	1	(6,637)	(6,580)
Future Liabilities of Nottm City Council		-	(2,373)
Total Expenditure		1,686	(1,750)
External Premiums		(30)	-
Interest on ringfenced fund at 31 March 1998		(110)	-
Contribution to Closed Fund from City and County Council's		(1,062)	-
Total Income		(1,202)	-
Net (surplus)/deficit		484	(1,750)

Note 1. Classed as expenditure to avoid double counting in the net cost of services.

34. Schools Statutory Reserve

Surplus and deficit balances relating to schools must be carried forward from one financial year to the next in accordance with the requirements of Section 48 of the School Standards and Framework Act 1998. The Schools Statutory Reserve is committed to be spent on schools and is not available to the Authority for general use.

During 2015/16 the overall reserve has reduced by £3.5 million to £34.4 million. Within the total reserve school accumulated balances decreased by £0.3 million to £24.0 million; of this, £2.3 million is to fund capital schemes.

The reserve also includes £11.3 million relating to the non-ISB (Individual Schools Budget) element of the Schools Budget.

Part of the reserve is used to finance a school loan scheme, whereby schools are advanced funding for major capital items and then repay this over a three year period.

School Balances	2014/15	Movement	2015/16
	£000	in year £000	£000
Balances held by schools	24,328	(333)	23,995
Non ISB Balances	14,565	(3,283)	11,282
School Loan Scheme	(994)	97	(897)
School Statutory Reserve Total	37,899	(3,519)	34,380

35. Unusable Reserves

	2014/15 £000	2015/16 £000
Revaluation Reserve	110,387	167,531
Capital Adjustment Account	384,584	398,757
Financial Instruments Adjustment Account	(107)	(88)
IAS 19 Pensions Reserve	(1,087,711)	(934,539)
Collection Fund Adjustment Account	2,725	5,262
Deferred Capital Receipts	-	1,755
Employee Benefits Account	(13,356)	(14,285)
Total Unusable Reserves	(603,478)	(375,607)

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2014/15 £000	2015/16 £000
Balance at 1 April	104,210	110,387
Upward revaluation of assets	29,366	65,962
Downward revaluation of assets and impairment losses not charged to the Surplus or Deficit on the Provision of Services	(10,285)	(4,446)
Surplus/(deficit) on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	19,081	61,516
Difference between fair value depreciation and historic cost depreciation	(1,697)	(1,775)
Accumulated gains on assets sold or scrapped	(11,207)	(2,597)
Amount written off to the Capital Adjustment Account	(12,904)	(4,372)
Balance at 31 March	110,387	167,531

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historic cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction and enhancement. The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Authority. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains. The Movement in Reserves Statement provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

	2014/15	2015/16
	£000	£000
Balance at 1 April	367,455	384,584
Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:		
Charges for depreciation on non-current assets	(38,119)	(38,860)
Revaluation and Impairments on PPE	(7,869)	3,138
Amortisation of intangible assets	(2,688)	(3,239)
Revenue expenditure funded from capital under statute	(16,875)	(21,407)
Amounts of non-current assets written off on disposal or sale as part of the gain/(loss) on disposal to the Comprehensive Income and Expenditure Statement	(28,716)	(16,075)
	<u>(94,267)</u>	<u>(76,443)</u>
Adjusting amounts written out of the Revaluation Reserve	12,904	4,372
Net written out amount of the cost of non-current assets consumed in the year.	(81,363)	(72,071)
Capital financing applied in the year:		
Application of grants to capital financing from the Capital Grants Unapplied Account	46,076	52,843
Statutory provision for the financing of capital investment charged against the General Fund	24,672	24,411
Capital expenditure charged against the General Fund	27,259	5,989
	<u>98,007</u>	<u>83,243</u>
Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement	1,205	3,364
Movement in the fair value of Non Current Assets Held for Sale credited to the Comprehensive Income and Expenditure Statement	(720)	(363)
Balance at 31 March	384,584	398,757

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments.

	2014/15 £000	2015/16 £000
Balance at 1 April	(113)	(107)
Premiums incurred in the year and charged to the Comprehensive Income and Expenditure Statement	(16)	-
Proportion of premiums incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements	22	19
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	6	19
Balance at 31 March	(107)	(88)

IAS19 Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Authority makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2014/15 £000	2015/16 £000
Balance at 1 April	(819,893)	(1,087,711)
Actuarial gains / (losses) on pensions assets and liabilities	(235,817)	198,015
Other gains / (losses)	1,432	(698)
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provisions of Services in the Comprehensive Income and Expenditure Statement	(82,767)	(94,215)
Employer's pensions contributions and direct payments to pensioners payable in the year	49,334	50,070
Balance at 31 March	(1,087,711)	(934,539)

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of Council Tax income in the Comprehensive Income and Expenditure Statement as it falls due from Council Tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund. Since 2013/14 the NDR changes required a similar account to be held for Non Domestic Rates.

	2014/15 £000	2015/16 £000
Balance at 1 April	3,105	2,725
Amount by which Council Tax income credited to the Comprehensive Income and Expenditure Statement is different from Council Tax income calculated for the year in accordance with statutory requirements	(1,098)	2,463
Amount by which NDR income credited to the Comprehensive Income and Expenditure Statement is different from Council Tax income calculated for the year in accordance with statutory requirements	718	74
Balance at 31 March	2,725	5,262

Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve is an unusable reserve that holds the value of capital receipts that the Authority has recognised as disposal income in the Comprehensive Income and Expenditure Statement but where the consideration is to be paid in future years.

	2014/15 £000	2015/16 £000
Balance at 1 April	1,000	-
Movement in Deferred Capital Receipts held	(1,000)	1,755
Balance at 31 March	-	1,755

Employee Benefits Account

The Employee Benefits Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

	2014/15 £000	2015/16 £000
Balance at 1 April	(12,754)	(13,356)
Settlement or cancellation of accrual made at the end of the preceding year	12,754	13,356
Amounts accrued at the end of the current year	(13,356)	(14,285)
Amount by which the officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accrual basis is different from remuneration chargeable in the year in accordance with statutory requirements	(602)	(929)
Balance at 31 March	(13,356)	(14,285)

36. Cash and Cash Equivalents

The Authority monitors cash balances on a daily basis to make maximum use of the funds available and invests any surplus cash identified. The bank account balance at 31 March will consist of an overdraft with the Authority's main bank, amounts held in call accounts or money market funds and school deposits either with the Authority's main bank or held with other banks.

The analysis of cash and cash equivalents is as follows:

	2014/15		2015/16	
	£000	£000	£000	£000
Amounts held in call accounts and money market funds		45,717		67,683
Main overdraft		(46,306)		(41,645)
School bank accounts:				
Main Authority accounts	30,585		30,256	
Other bank accounts	10,176	40,761	9,624	39,880
		40,172		65,918

37. Cash Flow Statement - Operating Activities

The cash flows for operating activities include the following items:

	2014/15 £000	2015/16 £000
Interest received	(71)	(656)
Interest paid	32,170	33,755

38. Cash Flow Statement - Investing Activities

	2014/15 £000	2015/16 £000
Purchase of Property, Plant and Equipment, Investment Property and Intangible Assets	85,607	65,289
Purchase of short and long-term investments	74,008	110,001
Other payments for investing activities	966	72
Proceeds from the sale of Property, Plant and Equipment, Investment Property and Intangible Assets	(3,049)	(7,683)
Capital Grants and contributions received	(33,056)	(47,231)
Proceeds from short-term and long-term investments	(59,000)	(100,000)
Net other receipts from investing activities	(290)	(630)
Net cash flows from investing activities	65,186	19,818

39. Cash Flow Statement - Financing Activities

	2014/15 £000	2015/16 £000
Cash receipts of short and long-term borrowing	(90,816)	(42,694)
Cash payments for the reduction of the outstanding liabilities relating to finance leases and on-balance sheet PFI contracts	293	3,780
Repayments of short and long-term borrowing	34,231	11,813
Net cash flows from financing activities	(56,292)	(27,101)

40. Minimum Revenue Provision (MRP)

Regulations require local authorities to set aside money to provide for redemption of outstanding debt. This amount is offset against the level of depreciation already charged to the Authority's Comprehensive Income and Expenditure Statement to ensure that depreciation charges do not increase the net expenditure of the Authority. The MRP Policy agreed by the Authority on 26 February 2015 requires that:

- MRP for capital expenditure financed by borrowing prior to 1 April 2007 continues to be based on the previous regulatory method and the Authority continues to set aside 4% of outstanding debt
- MRP for capital expenditure financed by borrowing after 1 April 2007 is made on the basis of equal annual instalments over the estimated lives of assets
- For "on Balance Sheet" PFI contracts, the MRP requirement is regarded as met by a charge equal to the element of the unitary charge applied to write down the liability
- For finance leases, the MRP requirement is regarded as met by a charge equal to the element of the rent that goes to write down the liability.

The amount required under the MRP regulations for 2015/16 is £24.4 million (£24.7 million for 2014/15) of which £5.2 million (£4.1 million for 2014/15) relates to repayments of the PFI and finance lease liabilities. The amount of depreciation and amortisation charged was £42.1 million (£40.8 million for 2014/15).

41. Audit Fees

The Authority has been advised of the following fees payable to KPMG (UK) LLP. All fees have been included in the accounts for the period to which they relate except grant claims. The fees included for grant claims are an estimate of the cost of the certification of grant claims and returns relating to 2015/16 which will be paid to KPMG (UK) LLP in 2016/17.

	2014/15 £000	2015/16 £000
External Audit Fees	135	98
Grant Claims/Other Services	3	7
	138	105

42. Employee Remuneration

The table below shows the number of staff employed by the Authority whose remuneration, taxable expenses and severance (if applicable) amounted to £50,000 or more in the financial year. The table includes the senior staff separately identified in the subsequent tables.

Pay Band		Number of Staff

		274	109	396	273	116	405

The tables below show the remuneration of the Authority's Senior Employees as defined by the Accounts and Audit (England) Regulations 2015.

2015/16

Post Holder information (Post title and name (where applicable))	Note	Salary (including fees & allowances) £	Expenses £	Compensation for Loss of Office £	Employer Pension contributions* £	Total Remun-eration £
Chief Executive	3	3,074	169	14,626	-	17,869
Chief Executive - A May	3	169,499	2,175	-	33,137	204,810
Corporate Director of CFCS	8	68,578	429	-	13,407	82,414
Corporate Director of ASCH & PP (and Deputy Chief Executive)	7	126,297	102	-	24,689	151,088
Corporate Director of Place		121,371	463	-	-	121,834
Corporate Director of Resources	1	121,371	927	-	23,728	146,026
Director of Public Health - Dr C Kenny	4	159,031	-	-	20,925	179,956
Service Director (Finance, Procurement & Improvement)	2	82,063	300	-	16,043	98,406
Deputy Director of Public Health - Dr J Tomlinson	5	163,921	562	-	-	164,482
Deputy Director of CFCS	6	103,521	553	-	20,238	124,312

*Pension Contributions are estimated at 19.55% to account for the pensions deficit (see note 19).

A revised senior level organisational structure was implemented on 1 September 2015 – post titles quoted reflect the current departmental structure arising

1. The post of Corporate Director of Resources has the statutory responsibility of Monitoring Officer.
2. The post of Service Director (Finance, Procurement and Improvement) has the statutory responsibility of S151 Officer.
3. Retiring Chief Executive was replaced with effect from 7 April 2015 by the former Corporate Director of CFCS. There was payment in lieu of notice due to the timing of the appointment. The Chief Executive's annualised salary is £170,000. The former Corporate Director of CFCS annualised salary was £134,908.
4. This senior employee is named as their salary and allowances are over £150,000 in accordance with The Code.
5. This senior employee is named as their salary and allowances are over £150,000 in accordance with The Code. One of the allowances the officer receives is a National Clinical Excellence Award of £35,602 which was amended to an award of £23,656 on 1 October 2015 and is paid for by Public Health England.
6. From 19 Jan 2015 an officer was in receipt of an allowance for acting as Deputy Director of CFCS. This arrangement ceased on appointment of a new director of CFCS who took up the post on 28 September 2015. Their annualised salary (and allowance of £13,721 pa) is £102,500.
7. Post of Corporate Director ASCH&PP is also the Deputy Chief Executive.
8. A new Corporate Director CFCS commenced on 28 September 2015. Their annualised salary is £134,908.

2014/15

Post Holder information (Post title and name (where applicable))	Note	(including fees & allowances) £	Expense Allowances £	sation for Loss of Office £	Pension contributions £	Total Remun-eration £
Chief Executive - M Burrows		184,410	1,999	-	-	186,409
Corporate Director of CFCS		139,908	918	-	26,862	167,688
Corporate Director of ASCH & PP		121,371	111	-	23,303	144,785
Corporate Director of Env & Resources		121,371	484	-	7,768	129,623
Corporate Director of PPCS	1	121,371	693	-	23,303	145,367
Direct of Public Health	4	129,577			16,066	145,643
Service Director (Finance & Procurement)	2	41,654	92	-	7,613	49,359
Service Director (Finance & Procurement)	3	69,933	387	-	13,427	83,747
Deputy Director of Public Health - Dr J Tomlinson	5	168,199	973	-	(50)	169,122
Service Director of Personal Care and Support (Younger Adults)	6	101,206	438	-	19,432	121,076
Deputy Director of CFCS	7	90,240	923	-	17,326	108,489

*Pension Contributions are estimated at 19.2% to account for the pensions deficit (see note 19).

1. The post of Corporate Director of PPCS has the statutory responsibility of Monitoring Officer.
2. The post of Service Director (Finance & Procurement) has the statutory responsibility of S151 Officer. The original post holder left 15 September 2014. Their annualised salary is £87,038.
3. The post of Service Director (Finance & Procurement) has the statutory responsibility of S151 Officer. The incumbent started in this role 15 September 2014. Their annualised Salary is £79,867.
4. The post of Director of Public Health is employed by NCC but 40% is recharged to Nottingham City Council under a formalised Joint Arrangement under Section 113 of Local Government Act 1972. The above table shows the full remuneration.
5. This senior employee is named as their salary and allowances are over £150,000, in accordance with the Code. With effect from 1 October 2013 20% of basic salary and on-costs are recovered from Public Health England of £25,377. One of the allowances the officer receives is a National Clinical Excellence Award of £35,602.
6. In 2013 the Corporate Director ASCH & PP was elected as the Vice President, and then President, of the Association of Directors of Adult Social Services (ADASS) until 31 March 2015. From 11 November 2013 a Deputy Director was appointed and represents ASCH & PP at the Corporate Leadership Team.
7. From 19 Jan 2015 an officer has been in receipt of an allowance for acting as Deputy Director of CFCS. Their annualised salary (including allowance) is £102,500.

The table below includes all exits from the Authority, including school based staff, and takes into account the cost of pension contributions that would have been paid had a retiring employee not left the Authority early. It may therefore differ from other published information.

Payment Ranges	Number of Compulsory Redundancies		Number of Other Departures Agreed		Total Number of Exit Packages		Total Cost of Exit Packages £

	147	85	275	93	422	178	5,859,344	2,559,219

43. Deployment of Dedicated Schools Grant

The Authority's expenditure on schools is funded primarily by grant monies provided by the Department for Education, the Dedicated Schools Grant (DSG). An element of DSG is recouped by the Department to fund Academy schools in the Authority's area. The DSG is ringfenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the School Finance (England) Regulations 2015. The schools budget includes elements for a range of educational services provided on an Authority-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2015/16 are as follows:

Schools Budget Funded by Dedicated Schools Grant

	Central Expenditure £000	Individual Schools Budget (ISB) £000	Total £000
Final DSG for 2015/16 before Academy			532,108
Academy figure recouped for 2016/17			(220,111)
Total DSG after Academy recouplement for			311,997
Brought Forward 2014/15			15,006
Carry Forward to 2016/17 agreed in advance			-
Agreed initial budgeted distribution for	58,071	268,932	327,003
	Central Expenditure £000	Individual Schools Budget (ISB) £000	Total £000
In year adjustments	(12,011)	12,393	382
Final budgeted distribution for 2015/16	46,060	281,325	327,385
Actual central expenditure	(34,778)	-	(34,778)
Actual ISB deployed to schools	-	(281,325)	(281,325)
Plus Local Authority contribution for 2015/16	-	-	-
Carried forward to 2016/17	11,282	-	11,282

44. Pooled Budgets

Under Section 31 of the Health Act 1999, Nottinghamshire County Council has entered into the following Pooled Budget Arrangements with the partners set out below. The County Council is the host authority for the pooled budget and has responsibility for its financial management. The details are set out below:

Integrated Community Equipment Loan Service (ICELS) - Nottinghamshire

Nottinghamshire County Council (Host)
 Nottingham City Council
 Nottingham City CCG
 Nottinghamshire County CCG's
 Bassetlaw CCG

Pooled Budgets Memo Account	2014/15 £000	2015/16 £000
Net (surplus) / deficit brought forward	(145)	(96)
<u>Funding provided to the pooled budget:</u>		
Nottinghamshire County Council ASCH&PP	(2,110)	(1,966)
Nottinghamshire County Council CYP	(267)	(283)
Nottingham City Council ASCH	(1,201)	(1,309)
Bassetlaw CCG	(362)	(419)
Nottinghamshire County CCG's	(2,400)	(1,288)
Nottingham City CCG	(1,189)	(2,655)
Continuing Healthcare Specialist Equipment	(187)	(233)
Other	(401)	2
Total Funding	<u>(8,117)</u>	<u>(8,151)</u>
	2014/15 £000	2015/16 £000
<u>Expenditure met from the pooled budget:</u>		
Partnership Management and Administration Costs	366	536
Contract Management Fee	1,191	1,410
Continuing Healthcare Specialist Equipment	235	250
Equipment	5,451	5,516
Minor Adaptations	846	419
Weekend Working Project	76	-
Direct Payments	1	6
Total Expenditure	<u>8,166</u>	<u>8,137</u>
Net (surplus) / deficit carried forward	<u>(96)</u>	<u>(110)</u>

The combined ICELS Contract commenced on 1 April 2011 for a period of 3 years. The option to extend for up to 2 years was agreed and this ended 31 March 2016. A new contract will begin on 1 April 2016 for a period of 5 years, with the option to extend for a further 2 years.

Better Care Fund

The Better Care Fund was announced by the Government in the June 2013 spending round, to ensure a transformation in integrated health and social care. In 2015/16 an additional £1.1bn was transferred from NHS England Area Teams for former Section 256 Schemes to Clinical Commissioning Groups to create the total fund of £3.8bn. In 2015/16, the Nottinghamshire Clinical Commissioning Groups (CCG) received an additional £16.2m allocation and put £52.7m towards the creation of a Better Care Fund Pooled Budget in Nottinghamshire of £57.8m. Assessment of the operation of the BCF pooled fund identified that it does not constitute a joint arrangement and therefore requirements of IFRS11 are not met.

Pooled Budgets Memo Account	2015/16
	£000
Net (surplus) / deficit brought forward	-

Funding provided to the pooled budget:

Nottinghamshire County Council ASCH&PP	(5,168)

Mansfield & Ashfield CCG	9,552
Newark & Sherwood CCG	5,973
Nottingham North and East CCG's	5,059
Nottingham West CCG	3,249
Rushcliffe CCG	3,880
Total Expenditure	56,146
Net (surplus) / deficit carried forward	(1,672)

45. Termination Benefits

The Authority terminated the contracts of a number of employees in 2015/16, with a net value of £-0.5 million (£2.2 million in 2014/15). These figures include accounting entries required by The Code. The negative value is due to an overprovision in the previous year.

46. Members Allowances

The Authority makes payments to Councillors for work undertaken in the course of their duties. The cost during the financial year was £1,443,060 (£1,441,432 in 2014/15). In addition to this, Members were reimbursed a total of £71,460 (£60,325 in 2014/15) for expenses incurred on Authority business.

47. Income from bodies under the Local Authority (Goods and Services) Act 1970

The Authority is empowered by this Act to provide goods and services to other public bodies. The Authority provided the following:

	2014/15		2015/16	
	£000 Expenditure	£000 Income	£000 Expenditure	£000 Income
Administration and Professional Services				
NHS Trusts	58,205	58,205	97,949	97,949
Other Authorities	7,227	7,227	6,445	6,445
Schools and Colleges	32	32	147	147
Maintenance works				
Other Authorities	174	174	149	149
Schools and Colleges	92	92	25	25
	65,730	65,730	104,715	104,715

48. Section 137 of the Local Government Act 1972

Local authorities are empowered by Section 137 of the Local Government Act 1972, as amended, to make contributions to certain charitable funds, not for profit bodies providing a public service and mayoral appeals. During 2015/16 these powers were not used.

49. Publicity Work

Local authorities are required to disclose their expenditure on publicity. The definition of publicity includes a number of routine items of expenditure. The Authority's expenditure is summarised below:

	2014/15 £000	2015/16 £000
Advertising for staff	455	554
Other advertising, including education courses	656	910
Public Relations - salaries and running costs	975	1,070
Other publicity expenditure	63	156
	2,149	2,690

As a percentage of gross expenditure (cost of services)	0.20%	0.24%

Introduction

Nottinghamshire County Council is the Administering Authority for the Local Government Pension Scheme (LGPS) within Nottinghamshire. The LGPS is a statutory scheme administered by individual pension funds. The benefits within the scheme are determined by regulation and are guaranteed by statute. The pension fund exists to help defray the cost of paying the pension benefits. Members make contributions to the Fund as specified in the regulations and employers make contributions as determined by the Fund's actuary as part of the triennial valuation of the Fund. All new employees are brought into the scheme automatically, unless a positive election not to participate is received from the employee.

The Authority administers the pension fund for over 300 participating employers and over 120,000 members. The employers include the County Council, the City Council, District Councils and organisations which used to be part of local government (such as Nottingham Trent University, Colleges, Police civilian staff and Academies). They also include organisations which satisfy the conditions to participate in the LGPS and have been admitted to the Fund by the Authority. In general, these organisations are non-profit making, or are undertaking a service which was, or could be, carried out by a local authority.

The operation of the Fund is set out in a number of published policy statements. Under the Governance Compliance Statement, the functions as administering authority of the Fund are delegated to the Nottinghamshire Pension Fund Committee supported by two advisory sub-committees.

The Funding Strategy Statement sets out the aims and purpose of the Fund and details the responsibilities of the administering authority as regards funding the scheme.

The Statement of Investment Principles sets out more detailed responsibilities relating to the overall investment strategy of the Fund including the proposed asset allocation, restrictions on investment types, the type of investment management used and performance monitoring. It also states the Fund's approach to responsible investment and corporate governance issues.

The Communications Strategy Statement details the overall strategy for involving stakeholders in the Fund. A key part of this strategy is a dedicated Fund website (available at www.nottspf.org.uk).

A separate annual report for the Fund is also produced and this, along with previous years' reports, will be accessible via the the pension fund website. The annual report includes the accounts and the published policies as well as information on the performance of the fund.

The accounts of the fund are set out over the following pages. The CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 requires:

- a fund account showing the changes in net assets available for benefits
- a net assets statement showing the assets available at the year end to meet benefits
- supporting notes.

NOTTINGHAMSHIRE COUNTY COUNCIL PENSION FUND

FUND ACCOUNT

	Notes	2014/15 £000	2015/16 £000

The actuarial present value of promised retirement benefits, as required by the *Code of Practice on Local Authority Accounting in the United Kingdom 2015/16*, is shown at note 2c.

1. Accounting Policies**(a) Basis of Preparation**

The Pension Fund accounts have been prepared in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom 2015/16* (the Code). On issues where there is no clear guidance in the Code, reference has been made under the hierarchy of standards to *Financial Reports of Pension Schemes: a Statement of Recommended Practice 2015* (the Pensions SORP) or to individual International Accounting Standards (IAS). Disclosures in the Pension Fund accounts have been limited to those required by the Code.

(b) Debtors and Creditors

The accruals concept is applied to these accounts in compliance with the Code.

(c) Investments

Pension fund investments are carried at fair value in accordance with the Code. Fair value is defined as 'the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's-length transaction'. Where an active market exists, the quoted market price is used. Where there is no active market, fair value is established by using valuation techniques.

Specific details on the valuation methods for particular classes of assets are listed below:

- Equities traded through a stock exchange are valued at the latest quoted price. Where more than one price is quoted the 'bid' price is used.
- Unit Trusts and managed funds are valued at the closing single price or the bid price where applicable. These reflect the market value of the underlying investments.
- Unquoted securities and pooled private equity investments are valued at fair value by the fund managers at the year end in accordance with industry accepted guidelines.
- The market value of fixed interest investments is based on the 'clean price', i.e. excludes income accrued at 31 March but not yet due for payment.
- Property investments are stated at open market value based on a quarterly independent valuation at the Net Assets Statement date.

Transaction costs arising on all investment purchases and sales are charged to the Fund Account within 'Profits & losses on disposal of investments & changes in value' by adding to purchase costs and netting against sale proceeds, as appropriate, for all investment types. This achieves consistency between asset classes and ensures all transaction costs are charged to the Fund Account. It also ensures that the financial statements faithfully represent the economic substance of the transactions. The economic substance of purchases and sales of all asset types is to generate returns for the Fund to help mitigate the cost to employers of providing pensions. Transaction costs are ancillary to this purpose.

The change in fair value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments and unrealised changes in market value.

Forward foreign exchange contracts are "over the counter contracts" under which two parties agree to exchange two currencies on a specified future date at an agreed rate of exchange. These are used to manage the economic exposure to bond markets and hedge against foreign currency movements. These contracts are included at fair value by determining the gain or loss that would arise from closing out the contract at the Net Assets Statement date by entering into an equal and opposite contract at that date. The movements on these contracts during the year are shown in the reconciliation of opening and closing balances of investments at note 10(b).

(d) Investments Income

Income is accounted for on an accruals basis for the following:

- interest on cash deposits and fixed interest securities is accrued on a daily basis
- dividends from equities are accrued when the stock is quoted ex-dividend
- rents from property are accrued in accordance with the terms of the lease.

(e) Taxes on Income

UK equity dividends are quoted and accounted for at the net rate. The tax credit, which the Fund is unable to recover, is not recognised (in accordance with the Pensions SORP). Overseas equity dividends are accounted for gross of withholding tax, where this is deducted at source. Partial reclaims of withholding tax, where allowed, are adjusted at the year end by outstanding claims.

(f) Foreign Currencies

Where forward exchange contracts are in place in respect of assets and liabilities in foreign currencies, the contract rate is used. Other assets and liabilities in foreign currencies are expressed in sterling at the rates of exchange ruling at the year-end. Income from overseas investments is translated into sterling at the rate ruling on the date of the transaction. Surpluses and deficits arising on conversion or translation are dealt with as part of the change in market value of investments.

(g) Contributions

Normal contributions, both from the members and from employers, are accounted for in the payroll month to which they relate at rates as specified in the rates and adjustments certificate. Additional contributions from employers are accounted for on an accruals basis.

(h) Benefits Payable

Under the rules of the Scheme, members can receive a lump sum retirement grant in addition to their annual pension. Lump sum retirement grants are accounted for from the date of retirement. Where a member can choose whether to take a greater retirement grant in return for a reduced pension these lump sums are accounted for on an accruals basis from the date the option is exercised. Other benefits are accounted for on the date the member leaves the Scheme or on death.

(i) Transfers to and from Other Schemes

Transfer values represent the capital sums either receivable (in respect of members from other pension schemes of previous employers) or payable (to the pension schemes of new employers for members who have left the Scheme). They take account of transfers where the trustees (or administering authority) of the receiving scheme have agreed to accept the liabilities in respect of the transferring members before the year end, and where the amount of the transfer can be determined with reasonable certainty.

(j) Other Expenses

Management expenses are accounted for on an accruals basis. Expenses are recognised net of any recoverable VAT. Nottinghamshire County Council charges the Fund with the costs it incurs in administering the scheme and the Fund. Fees and charges within pooled investment vehicles have the effect of reducing the fair value of those investments. The embedded costs are disclosed at note 8.

2. Operation of the fund

(a) Contributions and Solvency

With effect from 1 April 2008 The Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 were introduced. The principal changes from the 1997 regulations were: the replacement, for future service, of the existing benefits structure (based on a pension of 1/80th of pensionable pay for each year of pensionable service plus an automatic lump sum of three times this amount) by one based on 1/60th of pensionable pay for each year of pensionable service and no automatic lump sum. Under the 2008 scheme, employees were required to make percentage contributions by deduction from earnings at a rate between 5.5% and 7.5% depending on salary.

From 1 April 2014 the new Local Government Pension Scheme was introduced for service accruing after that date. This is a career average revalued earnings (CARE) scheme with an accrual rate of 1/49th of pensionable pay and a retirement age linked to the state retirement age. Employee contribution rates in the new scheme range from 5.5% to 12.5% depending on salary.

Employers are required to make such balancing contributions, determined by the Actuary, as will maintain the fund in a state of solvency, having regard to existing and prospective liabilities.

(b) Actuarial Valuations

As required by the Regulations an Actuarial Valuation of the Fund was carried out as at 31 March 2013. The market value of the Fund's assets at the valuation date was £3,470 million. The Actuary has estimated that the value of the Fund was sufficient to meet 85% of its expected future liabilities in respect of service completed to 31 March 2013. The certified contribution rates are expected to improve this to 100% within a period of 20 years. The full actuarial valuation report is available on the Fund's website at www.nottspf.org.uk.

The Actuarial Valuation was carried out using the projected unit method and the assumptions used within the valuation are shown below.

31 March 2013	
% pa	
Expected investment returns:	
Equities	6.7
Gilts	3.3
Property	5.8
Discount Rate	6.0
Retail price inflation (RPI)	3.5
Consumer price inflation (CPI)	2.7
Long term pay increases	4.5
Pension Increases	3.5

The 2013 valuation produced an average employer contribution rate of 18.8%. Employer contributions were certified by the actuaries for the years 2014/15 to 2016/17. For the majority of employers, the rate for future service accrual was certified as a percentage of salary with an additional cash amount specified for deficit recovery. The following list shows the contributions payable by the main employers:

Certified employer contributions	2014/15	2015/16	2016/17
Nottinghamshire County Council	13.2%	13.2%	13.2%
Plus:	£12,638,000	£12,979,000	£13,330,000
Nottingham City Council	12.5%	12.5%	12.5%
Plus:	£8,031,000	£8,880,000	£9,356,000
Ashfield District Council	12.3%	12.3%	12.3%
Plus:	£1,021,000	£1,144,000	£1,272,000
Bassetlaw District Council	13.5%	13.5%	13.5%
Plus:	£1,890,000	£2,027,000	£2,127,000
Broxtowe Borough Council	13.2%	13.2%	13.2%

Plus:	£946,000	£1,065,000	£1,189,000
Rushcliffe Borough Council	13.0%	13.0%	13.0%
Plus:	£478,000	£556,000	£638,000

(c) Actuarial Present Value of Promised Retirement Benefits

The actuarial present value of promised retirement benefits has been calculated by the Fund's actuaries in accordance with IAS 19. To do this, the actuaries rolled forward the value of the Employers' liabilities calculated for the Triennial valuation as at 31 March 2013 allowing for the different financial assumptions required under IAS19. The assumptions used for the purposes of the IAS 19 calculations are as follows:

	31 March 2014		31 March 2015		31 March 2016	
	% pa	Real % pa	% pa	Real % pa	% pa	Real % pa
RPI Increases	3.6	-	3.3	-	3.3	-
CPI increases	2.8	(0.8)	2.5	(0.8)	2.4	(0.9)
Salary Increases	4.6	1.0	4.3	1.0	4.2	0.9
Pension Increases	2.8	(0.8)	2.5	(0.8)	2.4	(0.9)
Discount Rate	4.5	0.9	3.4	0.1	3.7	0.4

The net liability under IAS 19 is shown below.

	31 March 2014 £000	31 March 2015 £000	31 March 2016 £000
Present value of funded obligation	5,733,792	6,886,812	6,665,990
Fair value of scheme assets	3,708,200	4,050,198	4,034,292
Net Liability	2,025,592	2,836,614	2,631,698

The present value of funded obligation consists of £6,387.2 million in respect of vested obligation and £278.8 million in respect of non-vested obligation.

These figures are presented only for the purposes of IAS 19. In particular, they are not relevant for calculations undertaken for funding purposes or for other statutory purposes under UK pensions legislation.

(d) Investment Strategy

The investment strategy of the Fund is designed to maximise growth within acceptable risk parameters to help meet the future liabilities. The powers of investment are governed by the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. The investment policy is set out in the Fund's Statement of Investment Principles, a copy of which is available on the pension fund website (www.nottspf.org.uk).

The Nottinghamshire Pension Fund Committee, advised by the Pensions Sub-Committee, is responsible for determining the investment strategy of the Fund and the type of investment management to be used. The Pensions Sub-Committee consists of nine elected County Councillors, three representatives of Nottingham City Council, two representatives of the District Councils, two representatives of the Trade Unions, a representative elected by the other scheduled and admitted bodies and two appointed pensioner representatives. Meetings are also attended by an independent adviser and representatives of the Chief Financial Officer.

The investments are managed by officers of the Authority or by organisations specialising in the management of pension fund assets. The Investments Sub-Committee is responsible for monitoring performance of the fund and meets on a quarterly basis to review the Fund's main investment managers and their performance.

(e) External Audit

A separate fee is payable to KPMG LLP for audit of the pension fund. All fees have been included in the accounts for the period to which they relate. The fee for 2015/16 is £26,626 (£26,055 for 2014/15).

Administering Authority Costs	401	387
	<u>572</u>	<u>584</u>

8. Investment Income

Analysis by type of investment	2014/15 £000	2015/16 £000
Interest from fixed interest securities	(17,232)	(17,483)
Income from index-linked securities	-	-
Dividends from equities	(61,158)	(62,828)
Income from pooled investment vehicles	(12,876)	(13,466)
Income from property pooled vehicles	(3,557)	(3,484)
Net rents from property	(13,661)	(13,244)
Interest on cash deposits	(911)	(771)
Other	(1,395)	(1,087)
	<u>(110,790)</u>	<u>(112,363)</u>
Directly held property		
Rental income	(15,723)	(15,005)
Less operating expenses	2,062	1,761
Net rents from property	<u>(13,661)</u>	<u>(13,244)</u>

9. Investment Management Expenses

	2014/15 £000	2015/16 £000
Custody fees	326	323
Investment management fees	3,335	3,473
Other external fees	158	176
Administering Authority Costs	19	18
	<u>3,838</u>	<u>3,990</u>

The investment management fees shown above are those fees attributable to external managers and charged directly to the Fund. Additional fees and charges are incurred through pooled investment vehicles. These have the effect of reducing the fair value of the investments. The estimated embedded costs within pooled investment vehicles were £8.1 million in 2015/16 (£7.4 million in 2014/15).

10. Investments

Total Investments	<u>4,049,479</u>	<u>4,038,833</u>

The original values of investments are based on purchase cost plus transaction costs. If any investments have been held since 1 April 1974 (when the Authority was given the responsibility for the Fund) these are included at the market value as at that date.

	31 March 2015 £000	31 March 2016 £000
Market Value	4,049,479	4,038,833
Original Value	2,771,543	2,884,394
Excess/(Deficit) of Market Value over Original Value	<u>1,277,936</u>	<u>1,154,439</u>

The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 contain a number of restrictions on investments. The limits that are relevant to the Fund are specified in the Fund's Statement of Investment Principles as follows:

- (a) Not more than 10% of the Fund to be invested in unlisted securities.
- (b) Not more than 10% of the Fund to be invested in a single holding.
- (c) Not more than 25% of the Fund to be invested in securities which are managed by any one body, i.e. in a unit trust type arrangement.
- (d) Not more than 15% of the Fund to be invested in partnerships, with not more than 2% in any one partnership.

No investments have been made contrary to these limits.

(b) Reconciliation of Opening and Closing Values of Investments 2015/16

Cash deposits	153,469				131,916
	<u>3,712,293</u>				<u>4,049,479</u>

For Forward Foreign Exchange contracts, the purchase cost and sale proceeds represent the sterling value of the currency purchases and sales at the settlement dates specified in the contracts.

Transaction costs are included in the cost of purchases and sale proceeds. The costs charged directly to the fund, such as fees, commissions and stamp duty, amounted to £3.9 million in 2015/16 (£2.0 million in 2014/15). In addition, indirect costs are incurred through the bid-offer spread on investments. This amount is not separately provided.

(c) Management Arrangements

The assets of the Fund are managed within five portfolios and a breakdown of these as at the Net Assets Statement date is shown below:

	31 March 2015 £000		31 March 2016 £000	
In-house	1,616,513	39.9%	1,503,184	37.2%
Schroder Investment Management	1,161,491	28.7%	1,075,755	26.7%

(g) Private Equity and Infrastructure Funds

The Fund has made commitments to a number of private equity and infrastructure funds. The original commitment amounts are shown below in the fund currencies:

	Currency	Commitment millions
Private Equity Funds		
Wilton Private Equity Fund LLC	USD	14
Pantheon Europe Fund III	EUR	10
East Midlands Regional Venture Capital Fund	GBP	5
Coller International Partners IV	USD	10
Schroders Private Equity Fund of Funds III	EUR	22
DCM Private Equity Fund II	USD	18
Pantheon Europe Fund V	EUR	15
Coller International Partners V	USD	18
Catapult Growth Fund LP	GBP	4
Altius Associates Private Equity Fund	USD	10
Partners Group Secondary 2008	EUR	13
DCM Private Equity Fund III	USD	16
Coller International Partners VI	USD	16
Altius Associates Private Equity Fund II	USD	15
Foresight Nottingham Fund LP	GBP	10
Aberdeen SVG Private Equity	USD	15
DCM Private Equity Fund IV	USD	16
Coller International VII	USD	16
Pantheon Multi-Strategy	EUR	14
Infrastructure Funds		
Partners Group Global Infrastructure	EUR	12
Altius Real Assets Fund I	USD	15
Hermes GPE Infrastructure Fund LP	GBP	25

These commitments are drawn by the funds over time as investments are made in underlying companies or assets. The undrawn commitments as at 31 March 2016 were £93.3 million (£75.7 million at 31 March 2015). Of the funds above, the following were new commitments made during 2015/16:

	Currency	Commitment millions
Coller International VII	USD	16
Pantheon Multi-Strategy	EUR	14
Hermes GPE Infrastructure Fund LP	GBP	25

No financial assets were reclassified during the accounting period.

(b) Valuation of financial instruments carried at fair value

The valuation of financial instruments has been classified into three levels according to the quality and reliability of information used to determine fair values.

- Level 1 Fair values derived from quoted market price.
- this includes all quoted equity, fixed interest and index linked instruments.
- Level 2 Fair values derived from valuation techniques based significantly on observable inputs.
- this includes all pooled property investments.
- Level 3 Fair values derived from valuation techniques where at least one significant input is not based on observable market data.
- this includes unlisted shares and investments in private equity funds.

As at 31 March 2016	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
Financial Assets				
Fair value through profit and loss	3,245,641	169,618	86,921	3,502,180
Loans and receivables	230,339	-	-	230,339

Net	3,550,228	131,621	75,051	3,756,900

(c) Nature and extent of risks arising from financial instruments

The aims of the Fund are to:

- manage employers' liabilities effectively
- ensure that sufficient resources are available to meet all liabilities as they fall due
- maximise the returns from investments within reasonable risk parameters
- enable employer contribution rates to be kept as nearly constant as possible and at reasonable cost to the taxpayers, scheduled, resolution and admitted bodies.

The key risks to the achievement of these aims, as well as measures to mitigate those risks, are set out in the various Fund policies (available at www.nottspf.org.uk) including:

- Statement of Investment Principles
- Funding Strategy Statement
- Governance Compliance Statement
- Risk Management Strategy and Risk Register

The Risk Register identifies the highest risks as arising from:

- Fund assets are assessed as insufficient to meet long term liabilities
- Standing data and permanent records are not accurate
- Significant variations from assumptions used in the actuarial valuation

Actions have been agreed to mitigate these risks.

The Fund's primary risk is that its assets fall short of its long term liabilities. The Funding Strategy Statement states that the funding objectives are to:

- Set levels of employer contribution that will build up a fund of assets that will be sufficient to meet all future benefit payments from the Fund
- Build up the required assets in such a way that employer contribution rates are kept as low and stable as possible.

The most significant effect on the funding level arises from changes in the discount rate used by the actuaries. The sensitivity analysis below (prepared by the Fund's actuaries) shows the impact of a

Adjustment to discount rate	+0.1%	0.0%	-0.1%
Present Value of Total Obligation (£000)	6,541,542	6,665,990	6,792,930

The Fund deficit at the last triennial valuation was £620 million. With no other change in assumptions, an increase in the discount rate of around 0.5% would reduce the deficit to nil.

For the first time in 2013/14 there was a net withdrawal from dealings with members. The net withdrawal in 2014/15 would have been marginal but for the transfer out in respect of the Nottinghamshire Probation Trust. The net withdrawal in 2015/16 was again marginal.

The Fund continues to receive significant investment income and is therefore unlikely to need to sell assets in order to meet pension benefits. This allows the Fund to implement a long term investment strategy and minimise the impact of short term fluctuations in investment and currency markets. The strategy, and the assumptions that underpin it, are reviewed on a regular basis and cash flows are monitored closely to ensure there is sufficient liquidity to meet forecast cash flows.

The investment strategy is aimed at achieving best returns in line with the requirements of the triennial valuation whilst minimising risk and overall variability in future employers' contribution rates. A key part of managing the investment risk is by ensuring an adequate number of suitably qualified investment managers and by requiring managers to hold a diversified spread of assets. The level of risk in the equities block is managed by a balance between passive and active management.

Policies are reviewed regularly to reflect changes in activity and in market conditions. Responsibility for reviewing and revising the policies rests with the Nottinghamshire Pension Fund Committee.

15. Members Additional Voluntary Contributions

The Nottinghamshire Fund provides an additional voluntary contribution (AVC) scheme to enable members to purchase additional benefits. Contributions are paid over to, and invested separately by, the two scheme providers, Prudential and Scottish Widows. The contributions are not included in the Fund's accounts in accordance with regulation 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. The value of the separately invested AVCs is shown below:

	31 March 2015 £000	31 March 2016 £000
Prudential	33,573	32,802
Scottish Widows	3,298	3,221
	<u>36,871</u>	<u>36,023</u>

16. Related Party Transactions

Under IAS 24, a party is related to an entity if:

- the party is a member of the key management personnel
- the party is a post-employment benefit plan for the benefit of employees of the entity.

The purpose of related party disclosures is to provide information on transactions and balances that could have an effect on the operations or financial position of an entity. For example, related parties may enter into transactions that unrelated parties would not and transactions between related parties may not be made at the same amounts as between unrelated parties.

Disclosures are required for:

- the nature of the related party relationship
- key management personnel compensation
- information about the transactions and outstanding balances necessary for an understanding of the potential effect of the relationship on the financial statements.

Nottinghamshire County Council is the administering authority for the Local Government Pension Scheme (LGPS) within Nottinghamshire and is one of the major employers within the scheme. Information regarding key management personnel is provided within the main accounts of Nottinghamshire County Council. Members and officers of the Council involved in managing the Fund are allowed to be members of the LGPS. All transactions between Nottinghamshire County Council and the Fund and all benefit payments from the Fund are in accordance with the regulations governing the LGPS. There are no transactions therefore that are made on a different basis from those with non-related parties.

GLOSSARY OF TERMS

Accruals	The concept that income and expenditure are recognised as they are earned or incurred, not as money happens to be received or paid.
Actuary	An actuary is an expert on pension scheme assets and liabilities. The Local Government Pension Scheme actuary reassesses the rate of employer contributions to the Pension fund every three years.
Added Years	Additional years of service awarded to increase benefits of employees taking early retirement.
ASCH&PP	Department for Adult social Care, Health and Public Protection
Amortisation	The process of charging capital expenditure, usually on Intangible Assets, to the Comprehensive Income & Expenditure Statement over a suitable period of time.
Balance Sheet	The accounting statement which sets out the Council's total net assets and how they were financed.
Budget	The Council's statement of spending plans and policies for a financial year, expressed in financial terms.
Capital Adjustment Account (CAA)	This account absorbs the timing differences between the consumption of non-current assets and the financing arrangements in respect of their acquisition, creation or enhancement throughout their useful life.
Capital Financing Requirement (CFR)	The Capital Financing Requirement is a measure of the capital expenditure incurred historically by the Authority that has yet to be financed.
Capital Grants Receipts in Advance	Under the Code, grants and contributions for capital schemes are recognised as income when they become receivable unless conditions apply to the grant/contribution. In which case the grant/contribution is classified as capital grants receipts in advance on the balance sheet.
Carbon Reduction Commitment Efficiency Scheme (CRC)	The CRC Efficiency Scheme is a mandatory scheme aimed at improving energy efficiency and cutting emissions in large public and private sector organisations.
Cash Flow Statement	Summarises the inflows and outflows of cash arising from transactions with third parties for capital and revenue purposes.
CFCS	Department for Children's, Family and Cultural Services
Clinical Commissioning Groups (CCG)	The Clinical Commissioning Groups took over from Primary Care Trusts (PCT) with effect from 1 April 2013.

Comprehensive Income and Expenditure Statement (CI&E)	Consolidates all the gains and losses experienced during the financial year.
Community Assets	Assets such as historical structures and artefacts that the Authority intends to hold in perpetuity, that have no determinable useful life, and that may have restrictions on their disposal.
Creditors	Persons or bodies owed monies by the Authority that have not been paid by the end of the financial year.
DCLG	Department for Communities and Local Government.
Debtors	Persons or bodies owing sums to the Authority that have not been paid by the end of the financial year.
Direct Labour/Service Organisations	Workforces employed directly by local authorities to carry out works of repair, maintenance, construction etc. of buildings, grounds and roads and to provide catering and cleaning services and repairs and maintenance of vehicles.
Earmarked Reserves	Reserves set aside for a specific purpose.
Financial Instruments	A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability of another. For instance, financial assets could be bank deposits, loans receivable, shares etc, whilst financial liabilities could be borrowings, financial guarantees etc.
General Fund	This balance is a general revenue reserve. Part of this fund is earmarked to provide a number of reserves.
IAS	International Accounting Standard.
IFRS	International Financial Reporting Standard.
IFRIC	The International Financial Reporting Interpretations Committee provides interpretations of IFRS.
Infrastructure Assets	Assets such as roads and bridges, expenditure on which is recoverable only by continued use of the asset. These assets, by their nature, have no practical prospect of being decommissioned and sold or applied to alternative uses.
Impairments	An impairment or loss of value may arise on an asset upon revaluation. Assets which may be impaired are those in the categories of Property, Plant and Equipment and Intangible Assets.
Intangible Assets	Identifiable assets that lack physical substance and are expected to yield benefits to the Authority and the services it provides, e.g. software.
LASAAC	CIPFA LASAAC Local Authority Code Board is a board which is a partnership between CIPFA (England, Northern Ireland and Wales) and the Local Authority (Scotland) Accounts Advisory Committee (LASAAC).

LOBO	Lenders' Option Borrowers' Option.
Leasing	A method of financing capital expenditure in which a rental charge for an asset is paid for a specific period. There are two forms of lease: 'finance leases' which transfer substantially all the risks and rewards of ownership to the lessee and other leases which are known as 'operating leases'.
Local Government Pension Scheme (LGPS)	Nottinghamshire County Council is the administrating authority for the LGPS within Nottinghamshire.
Minimum Revenue Provision (MRP)	The minimum amount which must be charged to revenue in the year for the repayment of debt (credit liabilities and credit arrangements). An authority may voluntarily set aside amounts in excess of the minimum required.
NNDR	National Non-Domestic Rate.
PFI	Private Finance Initiative.
PPE	Property, Plant and Equipment.
PPCS	Department for Policy, Planning and Corporate Services (pre Sept 2015)
Precept Income	County Councils obtain part of their income from precepts levied on the District Councils in their area. Precepts, based on the 'Council Tax bases' of the District Councils, are levied on each District's 'collection fund'.
PWLB	Public Works Loans Board.
Provisions	Sums of money set aside to meet specific expenses which are likely or certain to be incurred, but where the amounts cannot be accurately determined or dates on which they will arise. The sums set aside are charged to the appropriate service revenue accounts.
Reserves	Sums of money set aside to cover future eventualities. The sums set aside are charged to the General Fund and not to service revenue accounts.
Revaluation Reserve	Represents the difference between the revalued amount of Property, Plant and Equipment as shown in the accounts and actual costs.
Revenue Expenditure Financed from Capital Under Statute (REFCUS)	These were previously known as deferred charges and included such items as work on property not owned by the authority and grants for economic development purposes.
