

Health & Wellbeing Board Summary 7 September 2016

Update on Sustainability & Transformation Plans.

David Pearson and Phil Mettam gave an update on the Sustainability & Transformational Plans (STP) progress

in Nottinghamshire and Bassetlaw. David highlighted the Nottinghamshire STP common objectives and the high impact areas for change. These areas cover prevention and promoting independence, primary and community care, urgent and emergency care and technology enabled care. David commented that on the 30th June checkpoint feedback was received from senior regional and national health & local government leaders. Recognition and praise was given to the work done locally on the Digital Road Map technology enabled care, now regarded nationally as a good example of best practice. David explained that support has been put in place to strengthen the governance structure to develop the STP plans with the appointment of Diane Prescott as Interim STP Programme Director and Shirley Clarke as her deputy.

Next steps will involve developing detailed business cases to close the gaps within the high impact areas for change, some of which are already underway for example workforce & estates and within the work done across the five local Vanguard sites. David explained that he continues to work closely with Bassetlaw as a member of the South Yorkshire & Bassetlaw STP group.

Phil Mettam explained that Bassetlaw is part of the South Yorkshire & Bassetlaw STP & has an associate status within the Nottinghamshire STP. The Nottinghamshire associate status has been clarified & agreed that any of the Nottinghamshire STP work streams relevant to Bassetlaw Community/population will require Bassetlaw's involvement, for example the work stream on the mental health services. Phil added that there will be challenges ahead to ensure Bassetlaw services are efficient which will involve looking at new and better ways to meet the needs of local people.

Showcase on Rushcliffe New Care Model for Health.

Dr Jeremy Griffiths and Kamaljeet Pentreath Chair of the Patient Active Group gave a presentation that covered Principia Multi-speciality Community Providers (MCP) Vanguard work in Rushcliffe. Jeremy explained the purpose of the MCP Vanguard and its aim to move care closer to home by joining up services between general practice, community services and third sector to reduce avoidable admission to hospital.

Kamaljeet gave an example of an 85 year old patient Jack's journey through the current system following a hospital admission, Kamaljeet explained examples of duplication between social care and health & where communication between the two areas needs improving.

Through the MCP Vanguard work the aim will be to deliver care in the future via a single point of access to community care services for South Nottinghamshire which Jeremy stressed that this presented a real opportunities for health and social care to test the proposed new care model. Jeremy requested the support of a councillor representative and Nottinghamshire County Council input to work on a business case to support and test the new model. Councillor Joyce Bosnjak & David Pearson acknowledge the challenges that Jeremy highlighted. David suggested that further discussion occur to clarify the Nottinghamshire County Council role and the measures to gather the learning from implementing the new model to enable sharing across the Nottinghamshire STP.

🕒 **Next meeting 2pm, Wednesday 10 October 2016 at County Hall, West Bridgford**

HWB September 2016

At this meeting:

[Development of integrated workforce development strategy and plan – progress report](#)
[Children and Young People's Mental Health and Wellbeing Transformation Plan](#)
[Better Care Fund \(BCF\) performance, 2016/17 plan & update and Disabled Facilities Grant Chair's report](#)

Development of integrated workforce development strategy and plan – progress report.

Lyn Bacon Chief Executive Officer of Nottingham Citycare and Chair of Nottinghamshire Local Workforce Action Board (formerly the Local Education & Training Council) updated the Board members on the progress in the development of the integrated workforce development strategy and plan. Lyn explained some of the changes in the organisation of the work to address 4 key objectives which includes a comprehensive baseline of the NHS and Social Care workforce. Lyn reaffirmed the commitment to deliver a fully costed workforce plan over the next five years. This will involve Organisational Development Leads from across Nottinghamshire County to examine the culture, the leadership gaps and reflect on the gaps and the affects on local people and carers.

Children and Young People’s Mental Health and Wellbeing Transformation Plan.

Public Health Consultant Kate Allen explained that the children and young people’s mental health and well-being transformation plan is five-year plan. Kate highlighted the key achievements particularly the integration of the previous Tier 2 and 3 Child & Adolescent Mental Health Services (CAMHS) to form ‘ONE Community CAMH Service’. Access to the service is now through a single point of access which has streamlined the process. 64% of young people are being treated within 8 weeks of referral. Kate explained that the multi-disciplinary Community Eating Disorder Service has been made permanent. A Crisis Team has been set up on a pilot basis to provide home treatment and meal support at weekends. Board members were pleased with the progress being made, and asked about waiting lists and working with schools.

Better Care Fund (BCF) performance, 2016/17 plan & update and Disabled Facilities Grant.

Jo Cooper presented the progress to date for the Better Care Fund (BCF) in four areas, Quarter 1 performance against the plan, amendments made to the 2016/17 plan on behalf of the Board were noted, use of Disabled Facilities Grant funding in 2016/17 and refresh of the terms of reference for the BCF programme steering group. The Board members approved the recommendations and acknowledge the work involved.

Chair’s report.

Councillor Bosnjak highlighted the article on the [Childhood Obesity plan](#) which outlines the government plan for action to reduce childhood obesity. In addition a Board member also suggested the article [‘Stepping up to the Place: Integration Self-Assessment tool.’](#)
