

Brackenhurst Environmental Education Centre Summer 2018

Come and enjoy Summer outdoors!

Rocket Science

Have a fun, action-packed science day where children work in small teams to investigate forces using air/water rockets to predict, test, record and present their results. Whose Rocket will fly the furthest?

Pond dipping

Go pond dipping! Take a nature walk through the beautiful grounds of Brackenhurst, down to our purpose built pond-dipping site. Here your pupils can catch and identify a host of marvellous and magnificent minibeasts.

Traditional Tales

Jack and the Beanstalk – plant magic bean seeds and visit our Victorian walled garden. Re-enact the story and bring it life with a variety of props.

Little Red Riding Hood – follow Red Riding Hoods footsteps through the woodland to grandma's cottage. Using environmental art make a clay head of the big bad wolf and other crafts in the great outdoors.

The Three Billy Goats Gruff – cross the bridge, if you dare! Visit our goats at the Animal Care Unit, where you can re-live the Billy Goats story, feed the goats and make crafts linked to this popular tale.
