Highway inspection records Gamston

Thank you for your request for information relating to Highway Inspection records Gamston, Nottingham, NG2 6NN. I can now let you have the following information in response to the questions you raised.

The Lock Public House, Gamston, is situated on Radcliffe Road and attached is the Street History report for this street section.

This report covers inspections (conditional survey), customer enquiries (customer service), works orders and repairs (maintenance management) and road opening/closing notices (street works).

You will see from this that the report was actually run to 30/01/2018 so as to include the first post incident inspection which was carried out on 29/01/2018 when 'no actionable defects' were identified. This inspection was a carriageway safety inspection as the carriageway on this street is inspected monthly whereas the footway is inspected annually (last inspection 05/09/17). Any defects such as a missing manhole lids are likely to have been identified, as part of this if present in the main walkway. The next post incident footway inspection is not programmed till September 2018. There have been no enquiries or reports raised relating to a missing cover since (and indeed prior to) the incident and therefore no ADHOC F/W inspections have been undertaken. The only notice that has been received regarding this incident was this FOI, 5 months since the alleged accident. There is no Street Works section contained in the report as there have been no road opening/closing notices registered for this street section.

We hope this now satisfies your request, and should you have any further enquiries please do not hesitate to contact me directly using the contact details below. In addition and for future reference Nottinghamshire County Council regularly publish previous Freedom of Information Requests and answers on our website, under Disclosure logs, available at the following link:
