

**NCC-034730-18 specialist health training for school transport and short break providers**

Good morning

I wonder if someone, perhaps involved in Children's Commissioning or SEND, could help me with an enquiry please?

I am investigating how Local Authorities in our statistical neighbour group commission and fund specialist health training for school transport and short break providers. This is the type of training that would be required for example to support a transport provider who was transporting disabled children with particular moving and handling requirements or other types of medical requirements.

Is this commissioned and funded by Health (CCG's?) in your area or by the local authority or a combination of both? If a combination of both could you give me a rough idea of who funds what or what proportion is funded by each?

Your assistance is greatly appreciated.

Kind regards

Dear Requester,

Further to your recent request for information, please see below.

Nottinghamshire commissions transport for SEN or short breaks and where specific training is required this is included in the procurement specification. The transport providers must ensure that the crew are trained appropriately whether it's manual handling or medical training. This is funded from either the SEND Transport budget held by Transport & Travel Services or the Short breaks budget held by Children's Services.

We trust this now resolves your enquiry, however should you have any further queries please do not hesitate to contact me directly on the details below.

Nottinghamshire County Council regularly publishes previous FOIR,s and answers on its website, under Disclosure logs. (see link)
