Hi

I have an FOI request my details are below.

I would like to know three things please;

1, does the council have a contract in place to process its waste through energy recovery (energy-from-waste or waste-to-energy)? **Yes**

2, if it does does it involve the council building its own EfW plant or does it involve sending waste to a plant not connected to directly to the council? **There is no proposal to build a new EfW plant for the Council, but our contracts do involve the use of 3rd party facilities.**

3, if the council does not have a contract does it intend to enter into one in the near future? **N/A**
