The data we have provided in answer to your enquiry is from 2013/14 to the present. We have focused on the Highway Maintenance funding specifically for day to day maintenance of the highway infrastructure to keep the network safe and resolve such actionable defects associated with pothole and patching repairs. This type of maintenance is known as Reactive Maintenance and includes those activities associated with both carriageways and footways (it is not possible to split the funding data, although we do hold split data in relation to the number of defects

repaired). We have not included any funding associated with the longer term maintenance of the highway asset associated with resurfacing and such treatments.

We hope this now satisfies your request, and should you have any further enquiries please do not hesitate to contact me directly using the contact details below. In addition and for future reference Nottinghamshire County Council regularly publish previous Freedom of Information Requests and answers on our website, under Disclosure logs, available at the following link:
