

I'd like to know how many social workers there are in Nottinghamshire for every thousand children identified as vulnerable by the council.

I'd like to identify how the numbers have changed since 5 years ago.

Thank you for your clarification below.

The department have provided the following information:

The requested information (social worker FTE numbers, caseloads etc.) is included in the children's social care workforce statistical return. The summary information from this return can be found here:

<https://www.gov.uk/government/collections/statistics-childrens-social-care-workforce>

This is a snapshot as at 30<sup>th</sup> Sept each year and goes back to 2013. The latest information for 2018 is due to be published in mid-February.

I hope this now satisfies your request, and should you have any further enquiries please do not hesitate to contact me directly on the details below.

In addition to this and for future reference Nottingham County Council regularly publishes previous FOIR,s and answers on its website, under Disclosure logs. (see link)

You can use the search facility using keywords.
