Dear #

**Re: Newton House Care Home Closure**

I write to you in respect of the closure of Newton House Care Home, Shireoaks. Nottinghamshire County Council would like to express their dissatisfaction with the decision that you have taken to continue to admit residents into your service, some of whom had been admitted only two weeks prior to closure.

3rd party information the closure placed very frail residents at risk – and was a decision that came as a terrible shock to those residents that had resided there for some time 3rd party information

In my view it was only the actions and management of the dedicated Council staff including those from Quality Market Management Team (that attended the home daily – even at weekends) that minimised the risk.

Yours sincerely,
