

**NCC-050919-21reports, research or policy documents**

Dear Requester,

Further to your request for information under The Freedom of Information Act, please see below responses from Departments, please accept our sincere apologies for the delay in responding.

We do hold the data in an easily accessible format. In terms of children's records, the only place this would be referred to would be as a part of an assessment or child safeguarding referral when capturing the issues and child's needs. This would be in free text as part of the social workers overall assessment and would exceed the appropriate limit under the act in extracting this data. The same would apply in terms of Adult data  
Our public health Team do not hold any data and would not ask our providers to collect any such information either.

We are sorry we are unable to help at this time, however should you have any further enquiries please do not hesitate to contact me directly on the details below. In addition to this and for future reference Nottingham County Council regularly publishes previous FOIR,s and answers on its website, under Disclosure logs. (see link)

You can use the search facility using keywords.

If you wish to raise any concerns about the way your request was dealt with, then please write to the Team Manager, Complaints and Information, County Hall, West Bridgford, Nottingham, NG2 7QP or e-mail [foi@nottscc.gov.uk](mailto:foi@nottscc.gov.uk) quoting the reference number above.

Kind Regards  
Complaints, Information & Mediation Officer.

Hello.

I am a PhD student at the University of Sheffield investigating individuals who live in squalor.

I am searching for any reports, research or policy documents produced by your council into individuals living in squalid conditions, or classed as having Diogenes Syndrome or extreme self-neglect.

If any further information is required, please let me know.

Thank you for your time.
