Dear Ms Skinner

Re: Planning application – Bilsthorpe Energy Centre, Nottinghamshire
Ref: 13/01767/CMW

Please treat this letter as confirmation of this Chamber's endorsement of the above proposal following representations that have previously been made by Peel Environmental in which our members have been briefed about the proposal's objectives, together with its economic impact on the area.

At a time when the priorities focus on growth and the creation of jobs, these plans correspond with the business-led economic recovery both the Government and Chamber alike have been calling for.

Chamber-members felt that Peel Environmental had made a compelling case for optimising the available skills of the local workforce, as well as offering supply-chain opportunities that would benefit local firms as well as retain expenditure within the North Nottinghamshire economy.

For this reason, this Chamber continues to endorse the proposals – please contact us if we can be of any further assistance; and kindly keep the Chamber updated on developments.

Yours sincerely
