

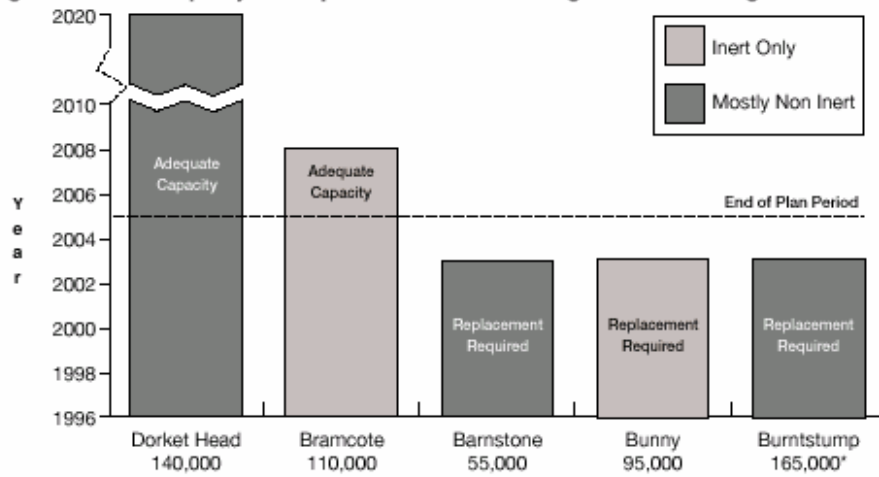

Figure 10.2 – Adequacy of Disposal Facilities Serving Greater Nottingham

Waste Disposal Input in Tonnes per annum. Figures indicate average annual input between April 1997 and April 2000.

*Excludes estimated 10,000 tonnes of waste originating from Mansfield/Ashfield. (See Fig. 10.3).

Note: All values rounded to nearest 5K.

Barnstone – If no new options become available Staple Quarry and/or Fiskerton may serve as a partial replacement (see Table 10.1, note 10).
