The existing building is shown in grey and the proposed extension is shown in red. The plan shows the layout of the extension, including classrooms, play areas, and external spaces. The overall area of the extension is 254m<sup>2</sup>.

**1 Existing Building External Walk- Brown Brick Clavity wall**

**2 Proposed Building-**

- a. Insulated rendered walls to East, West, North and in between windows on the South of the KS1 using a colour to complement the concrete pillars of the school hall.
- b. Brickwork surround to the south facing windows, colour to match the existing brick but as the location of the brick is separate from the existing brick, an exact match of brick is less critical.
- c. Colour coated metal windows, doors, eaves and rain water goods
- d. Single ply membrane roof
- e. Parapet wall and a 3 degree sloped roof to tie in with the existing facade
- f. External play (940m<sup>2</sup>) mix of Tarmac and brown soft play
- g. 1200mm High wooden fencing to enclose KS1 play area
- h. 1200mm High wooden gate access into KS1 from East, West and North side of KS1 extension Building
