## **REPORT OF CORPORATE DIRECTOR - PLACE**

### **DEVELOPMENT MANAGEMENT PROGRESS REPORT**

1. To report on planning applications received by the Development Management Team between 1 April 2017 to 30 June 2017, and to confirm the decisions made on planning applications since the last report to Members on 18 April 2017.

#### **Background**

2. Appendix A highlights applications received since the 1<sup>st</sup> April 2017, and those determined in the same period. Appendix B highlights applications outstanding for over 17 weeks. Appendix C provides information on a proposed Nationally Significant Infrastructure Project at West Burton Power Station. Appendix D highlights the latest quarterly and annual planning statistics provided by Department for Communities and Local Government.
3. This report has been compiled after consideration of implications in respect of finance, the public sector equality duty, human resources, crime and disorder, human rights, the safeguarding of children, sustainability and the environment and those using the service and where such implications are material they are described below. Appropriate consultation has been undertaken and advice sought on these issues as required.
4. The relevant issues arising out of consideration of the Human Rights Act have been assessed in accordance with the Council's adopted protocol. Rights under Article 8 and Article 1 of the First Protocol are those to be considered. In this case, however, there are no impacts of any substance on individuals and therefore no interference with rights safeguarded under these articles.

#### **RECOMMENDATIONS**

5. It is RECOMMENDED that the report and accompanying appendices be noted.

## **New Gas-Fired Power Station at West Burton**

EDF Energy (West Burton Power) Limited are proposing the construction and operation of a gas-fired power station with a capacity of up to 299MW at the existing West Burton power station site. The project is intended to provide back-up generating capacity to the electricity network, to operate flexibly and respond quickly and efficiently to both short term variation in demand and intermittent generation from other sources.

The generating capacity of the proposed power station would be in excess of 50MW and is, therefore, classed as a Nationally Significant Infrastructure Project (NSIP) under the Planning Act 2008. This means that a Development Consent Order (DCO) is required to build and operate the power station, and consent will be sought by EDF, from the Secretary of State for Business, Energy and Industrial Strategy (BEIS).

When the DCO is submitted by EDF to BEIS, Nottinghamshire County Council will be a consultee. EDF propose to begin informal consultation with the community on the development in the Summer of 2017 and have recently consulted the County Council on their proposed approach, which is set out in the Statement of Community Consultation.

Appendix D shows two tables of Government statistics for England giving the results for the County Council dealing with county matter and regulation 3 applications.

**Table P143** shows the last quarter from January to March 2017 and how many county matter applications were received, decided and granted permission and how long those applications took to be determined. It also shows how many regulation 3 applications were received during that quarter.

Nottinghamshire determined 100% of county matter applications within the statutory timeframe or an extension agreed with the applicant, and was equal 6<sup>th</sup> out of 27 for the amount of decisions made on applications.

**Table P144** shows the year ending March 2017 results for county matter applications received, decided and granted within the agreed time limits and regulation 3 decisions made. The last column is for decisions issued under ROMPS (Review of Old Mineral Permissions) of which Nottinghamshire made 2 decisions. Nottinghamshire has dealt with 86% of applications within the statutory timeframe or an extension agreed with the applicant within that 12 month period, and was equal 6<sup>th</sup> highest out of 27 for the amount of decisions made. The County Council came 11<sup>th</sup> out of 27 for dealing with the amount of regulation 3 applications.
