

PUBLIC CONSULTATION RESPONSES – OBJECTIONS AND SUPPORT DATA

Land off A634 (between Blyth and Barnby Moor) objections	
Local Area (officers have defined this as an area broadly contained within the A631 to the north, settlements along the A60 to the west, Worksop to Retford rail line to the south and the B1403/A620 to the east)	
Total Number of Objections	132
Issue	No. of objections per issue
General opposition to fracking/climate change/global warming/contrary to planning policy/precautionary principle/inaccuracies in the application	31
Water contamination/pollution/ground water protection zone/flood risk area	20
Proximity to/contamination of aquifer	94
Support for renewable energy/and non- carbon or methane generating energy sources	7
Noise pollution	96
Impact on several SSSIs/Mattersey Marsh SSSI/Daneshill Lakes wetlands area	86
Negative Impact on health/well being	87
Increase in traffic, Including HGVs/inaccuracies regarding traffic issues/danger to road users	94
Use/transportation of harmful chemicals/hazardous substances	13
Unnecessary use/transportation of large quantities of water	1
Industrialisation of countryside	85
Disposal of contaminated water	2
Impact on countryside/environment/agricultural land (food supply) (organic land)	18
Unsuitable roads on potential routes/access issues/impact on major transport infrastructure	3
Impact on landscape/visual impact	83
Light pollution	89

Air pollution/dust/toxic gases released	93
Impact on wildlife/ecology	24
Problems caused by vibration	90
Impact on recreation/tourism	6
Impact on house prices/sales/lack of insurance cover	16
Earthquakes/tremors/subsidence /ground instability/impact on listed properties and heritage asset	13
Other uses in the area that have negative impacts	2
Doubts over future monitoring/restoration/need for liability/insurance bonds	3
Local businesses will suffer	2
Concern over drill casing/rig height/decommissioning problems	4
Will not create jobs or local employment/no economic benefits/financial instability of DART Energy	3
Previous works conducted by applicant/ applicant past record	10
Impact on area's heritage (generic)	5
Concern over current geological conditions (current seismic activity/previous coal mining activity)	15
Need for water source for development	1
Lack of consideration for wildlife in application	1
2Precedent set for determination of future applications (for exploratory drilling and gas extraction)	6
Lack of public consultation	2
Structural damage to houses	0
Comment on Environment Agency Environmental Permit	1
Documents in application are not consistent with copies supplied to other organisations	2
Integrated Management System terms do not apply to contactors	1
Proximity to dwellings	1
Lack of Industry Regulation	1

Inadequate compensation to residents	1
Waste of police resources	1

Land off A634 (between Blyth and Barnby Moor) objections	
The remainder of the Nottinghamshire/Derbyshire/Lincolnshire/South Yorkshire areas	
Total Number of Objections	579
Issue	No. of objections per issue
General opposition to fracking/climate change/global warming/contrary to planning policy/precautionary principle/inaccuracies in the application	189
Water contamination/pollution/ground water protection zone/flood risk area	51
Proximity to/contamination of aquifer	476
Support for renewable energy/and non- carbon or methane generating energy sources	353
Noise pollution	467
Impact on several SSSIs/Mattersey Marsh SSSI/Daneshill Lakes wetlands area	476
Negative Impact on health/well being	455
Increase in traffic, Including HGVs/inaccuracies regarding traffic issues/danger to road users	459
Use/transportation of harmful chemicals/hazardous substances	15
Unnecessary use/transportation of large quantities of water	10
Industrialisation of countryside	476
Disposal of contaminated water	3
Impact on countryside/environment/agricultural land (food supply) (organic land)	60
Unsuitable roads on potential routes/access issues/impact on major transport infrastructure	8

Impact on landscape/visual impact	476
Light pollution	442
Air pollution/dust/toxic gases released	441
Impact on wildlife/ecology	45
