

Supporting Families

**Helping to support families struggling
with education, crime, anti-social
behaviour and poverty**

Supporting Families

How can we help you?

- Do you struggle to get your children up in the morning and out of the house for school?
- Are school ringing you up to complain about your child?
- Are you struggling to find work or worried about your benefits?
- Does it seem like your neighbours constantly complain about you and your family
- Do people ring Social Services about you or do you already have a Social Worker?
- Are you at risk of losing your home?
- Are you getting letters from the council or courts which you are worried about?

- Do you have loans or rent arrears that you are struggling to pay?
- Do you have lots of social workers, nurses, ASB officers or housing workers visiting you?

These are just a few of the things which can cause you worry and affect you, your family and your local community.

Supporting Families Teams can work with you and the people supporting you to improve your family life and situation.

Being a parent can be the hardest job in the world...and there is no handbook. So let us help you to tackle problems and improve your quality of life.

This information can be made available in other formats and languages on request.
