Following the closure of the meeting Mr Palframan informed members of the position of properties owned by the fund following the tragic event of Grenfell Tower, London. He reported that Aberdeen Asset Management who manage the Funds property portfolio have undertaken a review of all residential properties that are 18 metres or six stories high and was pleased to report no residential properties owned by the Fund had been found to have any Aluminium Composite Material (ACM) as part of the building.

There is however ACM present on 6 of the industrial retail warehouse and supermarket assets, current building regulations allow for such materials to be used.

A full update will be presented to a future meeting of the Pensions Fund Committee.
