

Our Collaborative Planning and Commissioning Framework

VISION

To deliver **Integrated Health and Care** within the ICS, joining up strategic leadership and the transformation of health and care to improve outcomes for our population, ensuring decision making is led and integrated at the appropriate population level, with an emphasis on subsidiarity.

PRINCIPLES

Why we are taking this approach

- We will deliver improved outcomes and reduce health inequalities, driven by an understanding of the needs of our population
- We will optimise the use of our collective resource by reducing duplication, moving away from services commissioned and delivered in silos, making it easier for people to access the right support or care to meet their needs
- We will enable providers to work collaboratively to deliver improved quality and efficiencies

What we will do together

- We will work with our population to ensure they are involved in decision making at all stages of planning and delivery
- We will work as health and care partners, considering the opportunities for person centred integrated delivery for every decision we make
- We will focus on early intervention and prevention to support people to avoid increasing levels of support / cost
- We will use the best available evidence to support our decision making

How we will work

- Our Place Based Partnerships will drive our integrated health and care approach, bring together the planning and delivery of integrated care
- We will have transparency in our decision making, sharing financial and outcomes information to reach a collective decision
- We will hold ourselves accountable for working to these principles and for the delivery of integrated health and care, recognising the statutory responsibilities of each partner

VALUES

- We will be open and honest with each other
- We will be respectful in working together
- We will be accountable, doing what we say we will do and following through on agreed actions
