A Greener Nottinghamshire	H 9

## **SECTION I**

### **Technical Appendices**

Technical Appendix A	I 2
Technical Appendix B	I 8

# introduction

Welcome to the sixth edition of The Condition of Nottinghamshire. Recent editions of this document have set out information and statistics for Nottinghamshire County Council's Strategic Plan priorities. This document will again help inform the next Strategic Plan. However, in recognition of the significance of partnership working, this document has been produced as an evidence base for the forthcoming Nottinghamshire Sustainable Community Strategy. Its structure follows the six themes within the Strategy and the information and statistics help set the context for them.

Previous users of The Condition of Nottinghamshire will notice that this edition is significantly expanded. The number of data sets included has more than doubled from 48 in the previous edition to 97 this time. However the format remains the same with information presented both in tables and graphically at various geographic levels.

Much of the data is sourced from the Research and Information Team in the Communities Department of Nottinghamshire County Council but other data sets have been supplied by colleagues from other departments within the County Council. The input and assistance of these colleagues is gratefully appreciated. Recognising the extensive partnership working which exists across the county, more partners than ever have also provided data sets for this document. These partners include Borough and District Councils, NHS Nottinghamshire, the East Midlands Public Health Observatory, Nottinghamshire Police, the Environment Agency, the Teenage Pregnancy Unit and Sport England. Their assistance is gratefully acknowledged.

This publication can be viewed on the Nottinghamshire County Council website at [www.nottinghamshire.gov.uk](http://www.nottinghamshire.gov.uk) and also for the first time on the Nottinghamshire Partnership website at [www.nottinghamshirepartnership.org.uk](http://www.nottinghamshirepartnership.org.uk). Other more regular statistical reports, including Employment and Population bulletins, can be found on the County Council website. Information relating to the Nottinghamshire Sustainable Community Strategy and Local Area Agreement can be found on the Nottinghamshire Partnership website.
