Dear Sid

Please find the enclosed map showing the extent of our land holding with the public rights of way in the East Markham Parish.

I note the 6 year registration clause, will a notice be sent out as a reminder after 6 years?

On Footpath 4 the Parish Council agree 8-10 years ago that this would become a headland route instead of a cross field.

Thank you for informing me that the East Coast Mainline Safety Bill has now been passed, I will pass the news on.

Yours sincerely

P.JR/ME18/43

Dear Councillor Hemsall

DEPOSIT OF DECLARATION/HIGHWAYS ACT 1980 SECTION 31(b)

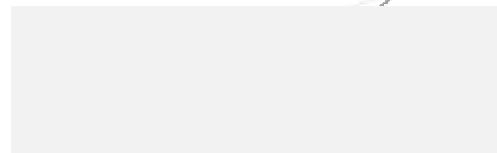

Nottinghamshire County Council hereby acknowledge receipt of the above declaration and plan showing the registered public rights of way over land in your ownership.

This information has now been recorded and the documents placed on file. There is no requirement to notify landowners on the expiration of the 6 year period.

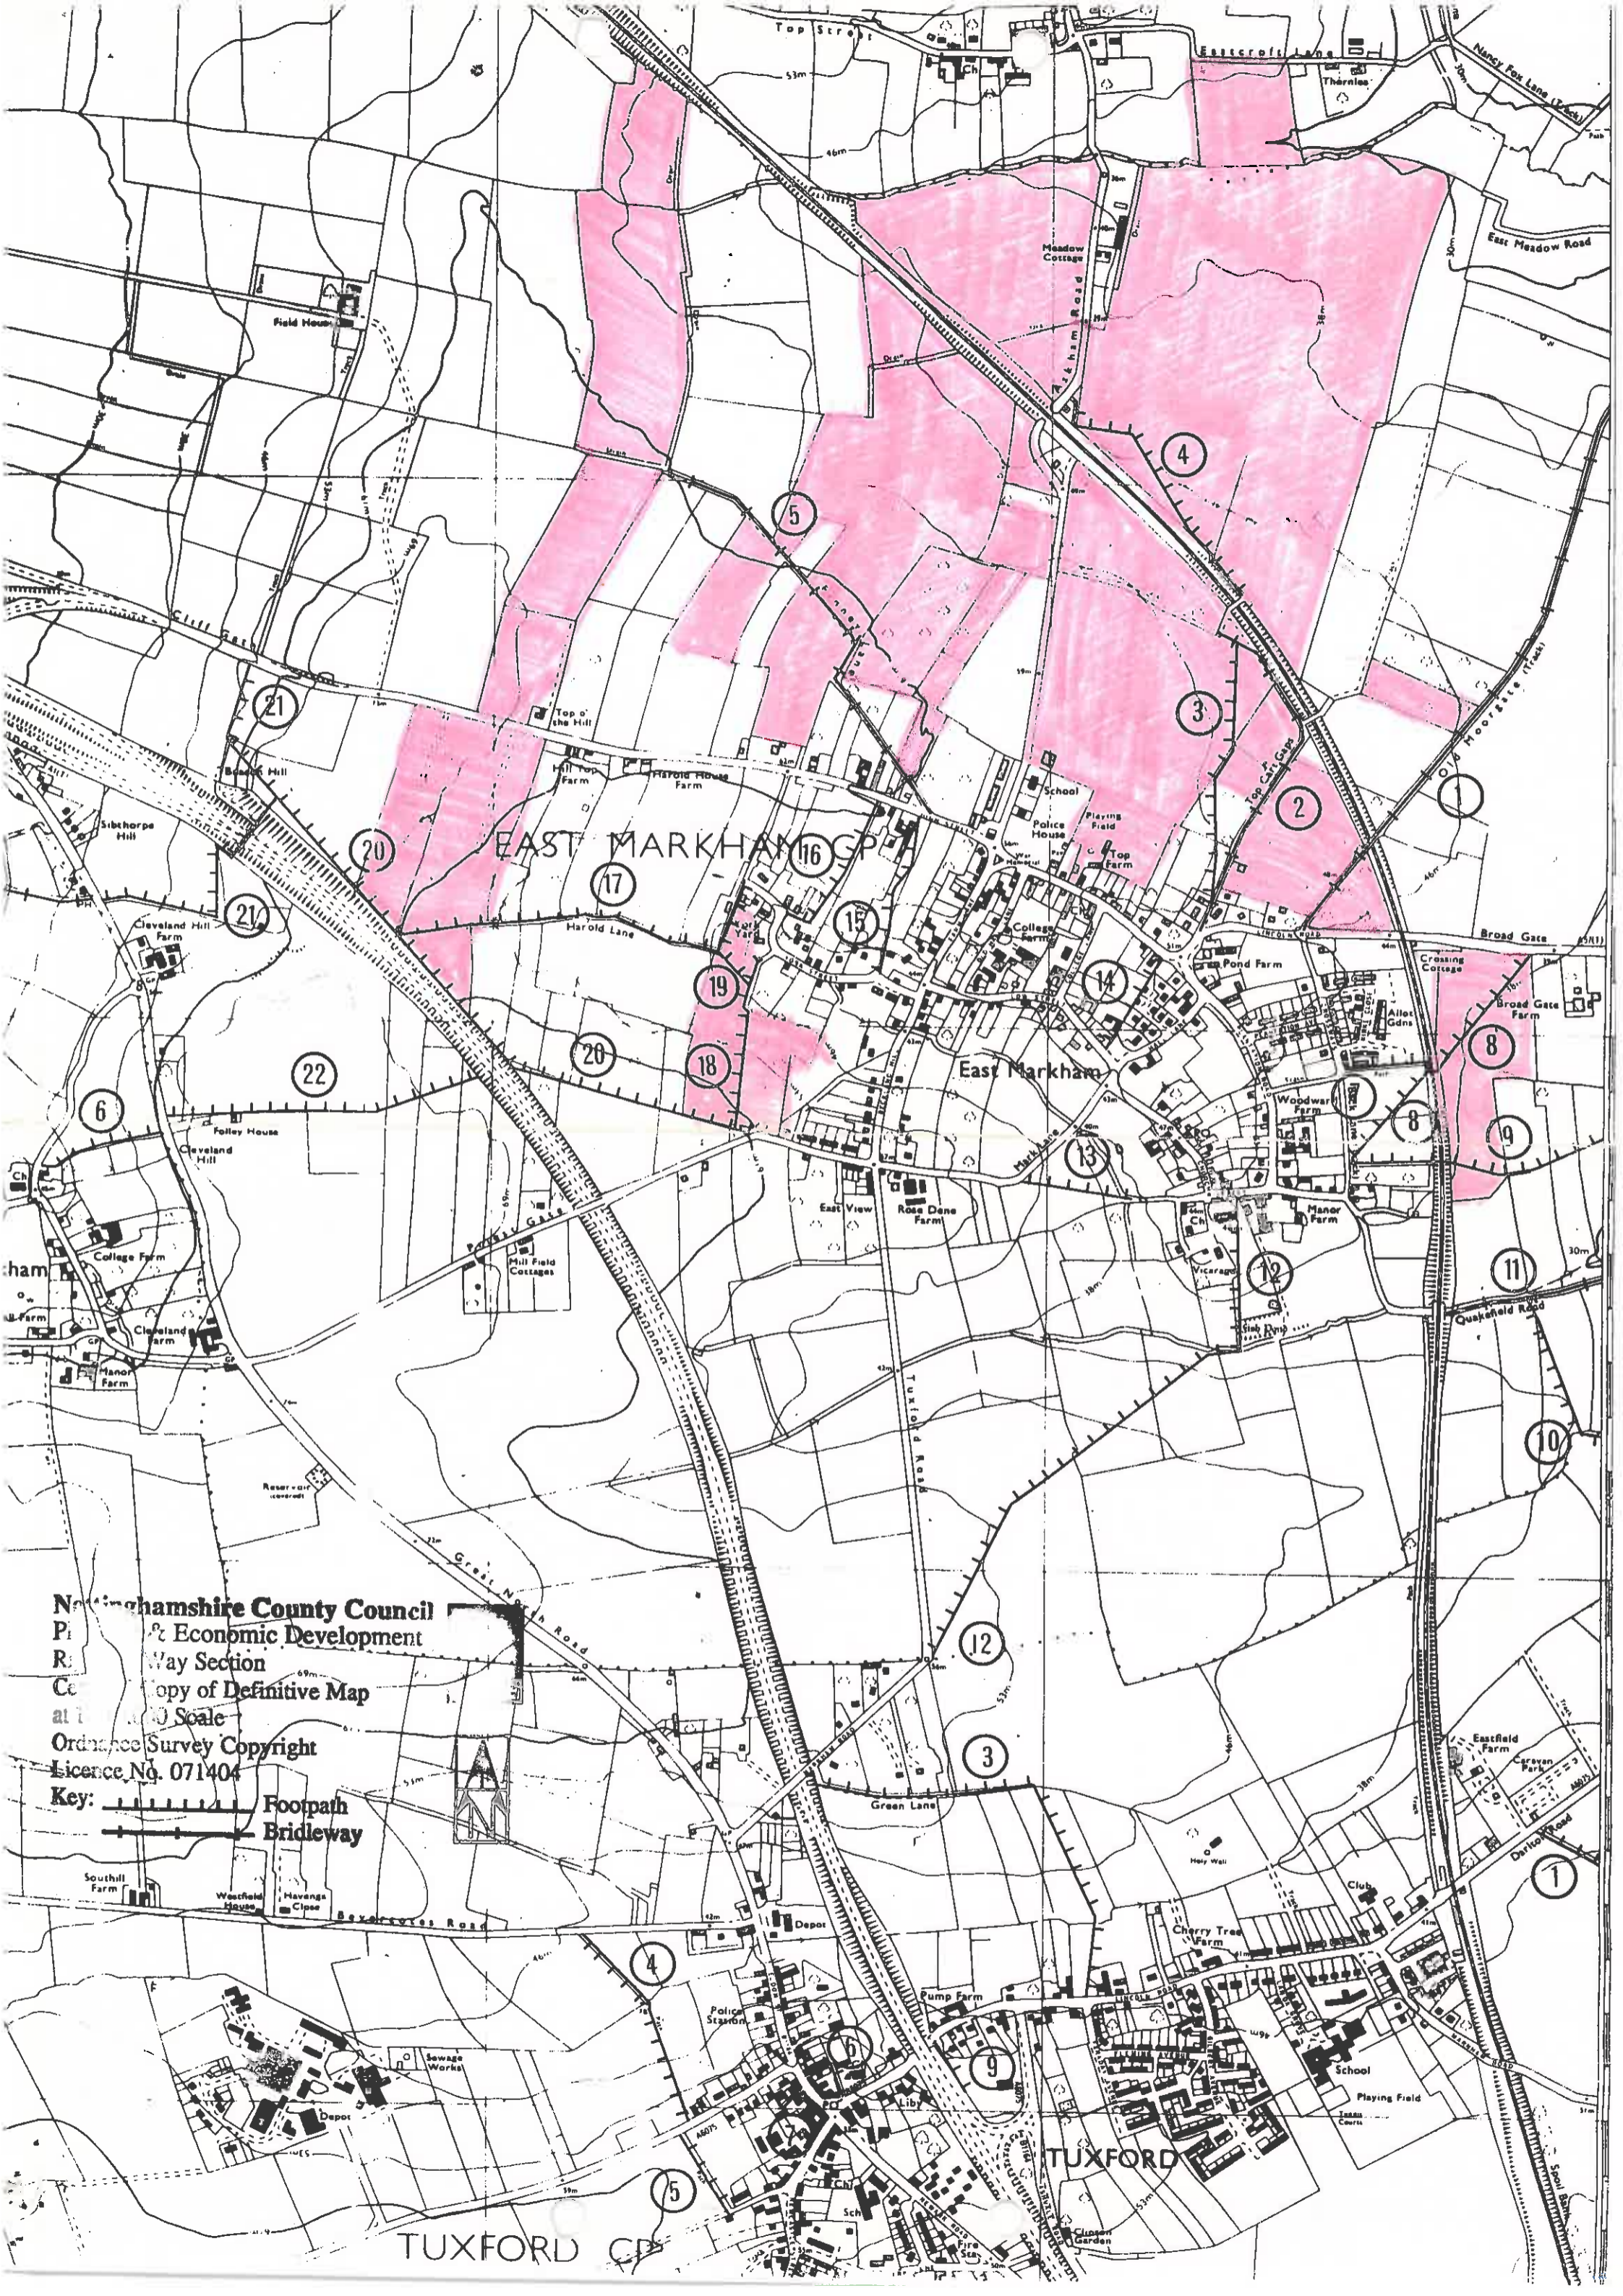

In the matter of footpath No. 4, I can find no record of any diversion taking place, from when the path was claimed by the Parish Council in June 1951 up until the present day.

Therefore, this footpath remains as it is shown on the Definitive Map and as recorded in the Definitive Statement as over fields.

Yours sincerely
