- How many times in each year between 2011 and 2016 was the council subject to cyber attacks? Please break down these figures by type of attack e.g ransomware, malware, denial of service, phishing attack or other (please specify). **As previous response we are unable to gather the information as there are thousands of spam and phishing emails per week which would be impossible to collate for these amounts of years.**
- How much money has the council invested each year between 2011 and 2016 on cyber/IT security? Please break down these figures by the type of improvement purchased. Please present the information in a format similar to the example below:

Spend on Cyber/IT security

	Antivirus	Firewall	Total
2011/12	49,745		49,745
2012/13	47,934		47,934
