

Dear Nottinghamshire County Council,

Q1. What computer software are you using for Highways Maintenance Works Ordering and Inspections, how much are you paying per year, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Q2. What computer software are you using for Bridges/Structures, how much are you paying per year, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Q3. What computer software are you using for Flood Risk, how much are you paying per year, how many users are you licensed for and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Q4. What computer software are you using for Drainage, how much are you paying per year, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Q5. What computer software are you using for Street Lighting Management, how much are you paying per year, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Q6. What computer software are you using for Public Rights of Way, how much are you paying per year, how many users are you licensed for, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Q7. What computer software are you using for Parks and Open Spaces, how much are you paying per year, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Q8. What computer software are you using for Street Works, how much are you paying per year, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Thank you for your recent Freedom of Information Request.

I am now able to provide you with the information supplied by the relevant Department, as follows:

The answer to Q1,Q2,Q4, Q5 and Q8 are the same, in that the Highway Asset Management System used in Nottinghamshire is Confirm supplied by Pitney Bowes and has been used since 2008. We own the application but pay an annual service charge which includes updates and service support. The application and data is locally hosted and the license we use are the Enterprise version so we can make maximum use of the software. The annual maintenance cost varies but is in the region of £70-£80k but as we expand the use the system this may increase depending on licensee use. The contract was initially tendered with an extension period built in, this was then retendered on similar arrangements but including the Enterprise provision and we are now in the extension period of this contract. It is unlikely that we will move away from this product in the short term given its use across the highway service and its embedment in day to day activities. The Highway Asset and

Development team in Via East Midlands Ltd manage and maintain the HAMS and the contact is either Don Fitch (Team Manager) or Ian Patchett (Highway Asset Manager).

Q3. What computer software are you using for Flood Risk, how much are you paying per year, how many users are you licensed for and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

No bespoke software, just generic NCC products. Certain data is stored in HAMS (as above) whilst other records are maintained in local data bases. Data is mapped using MapInfo, the GIS tool used across the County Council and Via East Midlands Ltd.

Q6. What computer software are you using for Public Rights of Way, how much are you paying per year, how many users are you licensed for, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

CAMs by Exegesis, £5,500 per year, annual maintenance renewal, up to 12 users, no plans to change, Neil Lewis (Countryside Access Team Manager, Nottinghamshire County Council).

Q7. What computer software are you using for Parks and Open Spaces, how much are you paying per year, and when is the contract due to expire and what format will the procurement process take? Who within the council is responsible for this contract?

Country Parks are commissioned out we don't have a system. Open spaces fall under the District and Borough Councils

I hope this now satisfies your request, and should you have any further enquiries please do not hesitate to contact me directly on the details below.

In addition to this and for future reference Nottingham County Council regularly publishes previous FOIR,s and answers on its website, under Disclosure logs. (see link)

<http://site.nottinghamshire.gov.uk/thecouncil/democracy/freedom-of-information/disclosure-log/>

You can use the search facility using keywords.

If you wish to raise any concerns about the way your request was dealt with, then please write to the Team Manager, Complaints and Information, County Hall, West Bridgford, Nottingham, NG2 7QP or e-mail foi@nottscc.gov.uk quoting the reference number above.

Kind Regards

Complaints, Information & Mediation Officer.
