**Request for Information: Ref NCC-032374-18
Collingham Road**

Thank you for your request for information relating to Collingham road. In your request you asked for:

Information on which the upgrading of the 1133 to its present A road status through Collingham was based. Including

- * The reasons for the change of status of this road through the village
- * The arguments for and against
- * Consultation submissions including from the Parish Council and local Councillors
- * Traffic projections
- * Details and (before) photographs of the section in North Collingham where the line of the Road and the Village Cross were moved and two buildings demolished - including any images and information of these buildings. Also if there was an archaeological watching brief or similar, the resultant report and information on any archaeological or similar finds.

I can confirm that Nottingham County Council has checked for all relevant transport planning files relating to matters in Collingham and can advise that these paper files have been destroyed over the last 10 years arising from a rationalisation of office space and various office moves.

We have also checked the records and files that have been archived over the last 25 years+ again without identifying the files / reports where information on this topic were likely to be stored.

We have checked with the Council's admin officers re records relating to Committee reports dating back to 1974. I have searched the committee papers for items relating to Collingham and having viewed these I cannot find any relevant information.

We have checked with Via East Midlands who manage and maintain the A1133 through Collingham and they too have checked whether they have any records relating to the road reclassification. This search too has drawn a blank.

The information that you have requested is not held by Nottingham County Council. should you have any further enquiries please do not hesitate to contact me directly using the contact details below.
