

# D2N2 Teaching Partnership

*Social Work Academy for Excellence*

## Developing Productive Partnerships

*Working with Communities to Support Excellence in Social Work*

**Richard Herrod Centre, Carlton, Nottingham**  
**Wednesday 17<sup>th</sup> July 2019 (12.30 – 4.00pm)**

- **Are you a community-based charity?**
- **Do you support children, young people, or adults?**
- **Would you like to promote the work you do?**

The D2N2 Teaching Partnership operates across Nottinghamshire and Derbyshire, and works to improve and develop the range of training offered to student social workers, and to more experienced social workers.

We want all our social workers to have a clearer understanding of the voluntary and independent support services that exist in their area, so that they can source the right support for the children, families and adults that they work with, and develop productive relationships with those organisations.

To this end we're running an event in early July where we hope to bring together a range of voluntary and independent service providers – allowing them to:

- showcase their work
- tell us about the impact of what they do
- provide a broad service user profile
- explain their referral process and criteria
- engage with trainee and more experienced social workers

We are proposing to focus the event on 4 key themes:

1. Mental Health
2. Domestic Abuse
3. Substance Misuse
4. Social Work in the Voluntary Sector

We'd like to invite your organisation to join us at this event – and would like to hear more about the work that you do. If you'd like to get involved, please contact:

**Chris Durkin**  
**Project Manager, D2N2 Teaching Partnership**
