- Worksop Town Commission

INSIDE THIS ISSUE

Miles in May and launch of Better in Bassetlaw Place Plan	1
Primary care Networks	2
Focus on transport; acronym quiz; Bassetlaw Plan	3
ICP Board update and Bassetlaw	4

Following the success of System Perfect week in October 2018, a week of dedicated action and awareness raising took place in the week commencing 26 March 2019 in Doncaster, Bassetlaw and North Nottinghamshire.

The aim was raise awareness of mental health services in each of the areas and encourage conversations related to

mental health and where people can access support. Over the last 12 months, like most areas across the country, Bassetlaw Hospital has seen a rise in the number of people attending the emergency department when they need mental health support or when they are in crisis.

People attending the emergency department, along with the wider Bassetlaw community, are being asked to complete a

survey about Accident and Emergency and mental health. For more information, contact Catherine.huby@nhs.net or heather.towndrow@nottshc.nhs.uk

Sir Andrew Cash visits Bassetlaw

On Monday 4 March 2019, Bassetlaw Integrated Care Partnership (ICP) welcomed Sir Andrew Cash, Chief Executive of the South Yorkshire and Bassetlaw Integrated Care System, to the Bassetlaw Place. The conference took place at Retford Oaks Academy.

The focus of the visit was to profile our local Bassetlaw partnerships; what our partnerships look like, are doing and what difference they are making. Four main

themes were covered during the morning conference:

- Strategic partnerships and the wider determinants of health
- Health and wellbeing partnership for children, including work with schools
- Primary Care Networks/ Homes and partnerships
- Secondary care and beyond

To view the papers visit: <http://www.betterinbassetlaw.co.uk/>

Showcasing innovation in Primary Care Networks

Visits from the South Yorkshire and Bassetlaw ICS to Bassetlaw have given primary care networks (PCNs) the opportunity to share their most positive developments.

On 4th March, Retford and Villages PCN and Newgate

PCNs shared developments including pain management support groups, teen counselling, involvement of schools in the PCN, risk stratification work, links with social care and System Perfect, and closer working with the voluntary sector.

Primary Care Networks

'Physical activity is a great way of connecting with other people, and with Bassetlaw's many resources'

New GP contract and PCNs

Practices are being offered a new 'Primary care Network Contract' which provides the basis for collaboration with local providers and partners. Each is required to have a clinical director. For more information about the new contract, visit www.betterinbassetlaw.co.uk/news-resources.

Larwood

The integration of community health and social care services is going well at Larwood, with regular multi-disciplinary team (MDT) meetings, and increased co-location.

The surgery at Larwood has provided a community noticeboard for third sector organisations to promote their services. BCVS are co-ordinating this.

Newgate

Newgate's risk stratification meetings with partners continue to be positive, with plans developed collaboratively for the

most

complex patients, including with housing.

The new phone management system has reduced call waiting times for patients.

Retford and Villages

The 5 practices have formed a new executive team to drive forward improvements and developments within the Primary Care Network., and respond to the new Primary Care Network contract. They have also elected a new chair—Oliver Lord from Tuxford practice. The network is now electing a clinical director.

The network are actively exploring models of support for patients in local care homes.

#Better in Bassetlaw

Spotlight on: Miles in May

Better in Bassetlaw MILES IN MAY 2019

is a Bassetlaw-wide project which is encouraging as many local people and organisations as possible to commit to doing 26 miles – the equivalent of a marathon – or as much as they can in the month of May. The aim is to get people doing more than they usually would., and through walking, running, dancing, swimming, rowing, cycling or a mixture.

Dr Eric Kelly, chair of Bassetlaw NHS Clinical Commissioning Group, says ‘the benefits of being more physically active include not only helping to prevent and treat a range of conditions such as diabetes, coronary heart disease and mental ill-health, but also

improved
wellbeing.
Physical activity

National mental health week takes place in May 2019 on the topic of ‘body image’. The ICP’s health citizenship work stream is keen to support this with an initiative that brings Bassetlaw people together.

Sponsored by ‘Joel the complete package’, Active Notts and BPL, Miles in May’

is a great way of connecting with other people, and with Bassetlaw’s many resources. This is why Bassetlaw’s Integrated Care Partnership, which brings together the NHS, local government and the voluntary sector in our district, is supporting this project’.

Many local organisations and people have already committed—the practice team at Tuxford are planning daily walks for patients, Sparken Hill Academy are championing the scheme and BPL leisure centres are running initiatives throughout the month of May and beyond. To register and for more information, including ideas for completing the ‘Miles in May’ visit www.betterinbassetlaw.co.uk/milesinmay.

Have your say about Worksop Town Centre

Worksop Town Commission has been formed in response to the Grimsey Review of town centres, and aims to improve Worksop Town Centre by building on Worksop’s many assets, and understanding the priorities of local people.

As such, the views of local people and workers are invited via: <https://www.placestandard.scot/start/worksop-resident-visitors-workers>. Please share widely!

ICS Transport Panel

The chair of the ICP’s transport work stream, Vanessa Cookson, and Benjamin Eckersley from the ICP were invited to share Bassetlaw’s experience of developing a transport strategy, and engaging communities with

the ICS’ ‘transport panel’. The panel is made up of members of the public from across South Yorkshire and Bassetlaw, with the aim of responding to changes in health services with a transport perspective.

Other Bassetlaw News

To share learning from their work with the King's Fund on collaborative leadership, Nottinghamshire Healthcare Involvement Team ran a '**Changing our Services Collaboratively**' session for local change leaders in Bassetlaw. The slides and materials can be found at: <http://www.betterinbassetlaw.co.uk/news-resources/>

Helen Azar, chief executive of Talkzone and LGBT+ service at Centreplace in Worksop, has won **Nottinghamshire 'Woman of the Year'**. Congratulations to Helen on this well deserved accolade!

Nottinghamshire County Council's public health division have successfully applied to be part of a Department of Health funded **child obesity prevention programme**. The work will focus on innovative ways of working with children and the food environment.

It is **volunteers' week** from 1st—7th June this year. BCVS have plenty of information to support organisations in recognising the contributions of their volunteers. Click here for more information: <https://www.bcv.org.uk/latest-news/item/volunteers-week>

Bassetlaw's palliative care team were March's Nottinghamshire Healthcare 'Positive Stars' team.

Do you know how to identify a young carer? Young carers are entitled to an assessment, and may be able to access financial and other support. Find out more here:

Active Notts' Young People's Fund is available to community groups and organisations who would like to develop new ways in which to engage young people aged 14-19 (or up to 25 for disability groups) from target groups in physical activity. For more details please contact Will Hughes on 07799 025982 or will.hughes@activepartnertrust.org.uk

ICP Board Update

The Board received a presentation from its Transport Work Stream which demonstrated the significant progress taking place.

A helpful discussion about the first ICP outcomes framework report identified the future role for the work streams in identifying short, medium and long term outputs and outcomes from the work. It also identified a priority agenda item for the Board's next meeting regarding childhood obesity.

A report of the results of stakeholder engagement about vaping, and whether it should be permitted on public premises was considered by the Board. It was determined that a position statement be developed which partners are able to support if their organisational policies allow, and that a specific campaign was needed on vaping and young people.

Better in Bassetlaw: Place Plan 2019-2021

A series of films to support the Place Plan and the work of the ICP's work streams. Take a look at this film about how partners are working together to ensure Bassetlaw people get the right care at the right time here: <http://www.betterinbassetlaw.co.uk/wellbeing-in-bassetlaw/the-right-care-at-the-right-time/>.

Other films include those about transport, the ICP Board, wellbeing support for local people, and achieving sustainable and effective services. All the films can be used by partners in their communications.
