I am writing to you in reply to your Freedom of Information Act (FOIA) request to Nottinghamshire County Council. I have the following information.

Details of all projects that carbon offset payments have been made towards by the council since 2015.

No such projects; no offset scheme is in place or under consideration.

Details of any offset fund that has been established by the local planning authority to meet carbon targets for building developments.

As above.

A list of the major developments in the area under the council's jurisdiction since 2015 that have involved the purchase of carbon offsets in order to meet the council's climate targets, whether from offset funds or individual offsetting projects. Please include developments still in the planning stages where the purchase is only anticipated.

N/A

Details of the environmental strategy for the developments covered by part 4.

N/A

Do you have any information on these requests referring to carbon offsets, including offset funds for property developments?

N/A

Can you also clarify if there is a new strategy document in development and if the council is going to declare a state of climate emergency / declare a net zero target by a particular year?

No climate emergency declared or target set. Latest relevant report was to Policy Committee in March item 4, which had the recommendations approved.
