

Dear Requester,

Thank you for your Freedom of Information Request.

The Council's response is as follows:

1. Has your council implemented or planned any new low-traffic neighbourhoods (LTNs) since 16 March 2020? **No – none implemented; none currently planned (although [NCC's Active Travel Fund Tranche 2 proposals](#) include a 'point closure' on one road to restrict vehicular access to provide a quieter route for cyclists and pedestrians accessing a town centre)**
2. How many individual LTNs has your council implemented or planned since 16 March? (please break numbers down by implemented and planned schemes.) **N/A**
3. What costs (estimated or actual) have been accrued because of these LTNs? Please break the data down by implemented schemes, and projected costs for planned schemes, if possible and relevant. Please also break costs down by areas as logged by your council (EG marketing, signage, consultation, physical works) if this level of detail would not take too long to acquire within the scope of FOI guidelines. **N/A**
4. Has your council reversed/removed any installed LTNs since March 16 2020? Or has your council decided against installing LTNs that had previously been planned? **N/A**
5. Has your council altered any LTNs following their installation after feedback from residents or other stakeholders? **N/A**
6. What costs (estimated or actual) have been accrued in the process of returning roads to their pre-LTN state, or altering LTNs following stakeholder feedback? Please break these costs down by area of expense, if possible. **N/A**

I hope this now satisfies your request, and should you have any further enquiries please do not hesitate to contact me directly on the details below.

In addition to this and for future reference Nottingham County Council regularly publishes previous FOIRs and answers on its website, under Disclosure logs. (see link)
