### White Stub Lane to Hockerton Moor BW

#### 1. Introduction

Application for a bridleway linking Hockerton BW8 to Hockerton BW4 via Hockerton Moor. The whole route was important in two ways: -

- It provided a route between Hockerton and Eakring that avoided going down and back up very steep hills, an important consideration in the days of horse motive power.
- It ran along the boundary of all four parishes so provided access to outlying land in each parish.
