Dear

Thank you for your request for information about Nottinghamshire's cycling infrastructure (primarily hubs, compounds and storage) contract arrangements and tendering

Please find below our response to your specific questions

1). Please confirm cycle infrastructure plans

The Nottinghamshire Cycling Strategy Delivery Plan (attached) sets out how the Council, working with partners, aims to get more people cycling, more often, including the provision of new and/or improved cycling infrastructure.

The County Council has recently determined its priorities for future investment in cycling (attached) and further work is now underway to identify the specific routes that will be prioritised for potential future investment. This work includes the development of a D2N2 wide Local Cycling & Walking Infrastructure Plan (LCWIP). The County Council is also undertaking additional technical analysis to help identify, evaluate and prioritise potential cycle route improvements across the whole of Nottinghamshire in a consistent way. Once these two pieces of work are complete, County Councillors will consider the findings and determine the routes that will be priorities for future investment.

Highway delivery programmes (including cycling infrastructure improvements) are determined by the appropriate Committee on an annual basis; and the provisional 2021/22 highways programmes were approved at the 7 January 2021 Communities & Place Committee (agenda item 4, attached).

2.) Please confirm if there is an approved supplier list / tender list

We do have contracted suppliers. As and when new opportunities arise these will be advertised on <https://www.eastmidstenders.org>

I hope that you find this information to be helpful, however if you are unhappy with the way in which your request has been handled, then please email us at foi@nottscc.gov.uk quoting the reference NCC-049285-20 and we will be happy to review your request

With kind regards
