

Cross section

Kerb detail

NOTES:

1. All dimensions are in millimetres unless otherwise stated.
2. For kerb construction details see Drg SD/11/2.
3. The 150 x 125 half batter kerb was formerly designated as a PC9 on BS 340.
4. At the start of the cycleway or other locations where cyclists will be joining the cycleway at acute angles the number of flush kerbs should be increased to minimum of four.
5. Where specified, on new carriageways a 255 x 125 channel blocked to be laid over the width of the crossing. Foundation as per Drg SD/11/2
