

Dear Requester

I refer to your recent Freedom of Information Request:

1. A614/ A697 Corridor Scheme

This is sometimes referred to as “embodied carbon”.

For the avoidance of doubt this is not a request for carbon emissions data directly related to the use of the road by all kinds of vehicles over the 60 year assessment period.

Please let me know if these assessments of carbon were carried out following guidance contained in PAS2080 Carbon Management in Infrastructure and which organisation or consultancy /consultancies carried out the assessment.

The response is: This element of the project is yet to be completed but will be undertaken as part of the Climate Change assessment for the Environment Statement to support the Planning Application later this year by our consultants Aecom.

I hope this assists. Should you have any further enquiries please do not hesitate to contact me directly on the details below.
