

Dear Requester

I refer to your recent Freedom of Information request:

Could you kindly provide me with the answer to the questions listed below for the years 2011-2021:

- How much money had been spent on subsidence repairs per year for the last ten years?

I would like to please ask, if the information dating back to 2016 is not available, could I nonetheless please obtain the information which you have for all other available years between 2016 and 2021. Any information provided would be greatly appreciated. If it is not possible to provide the information requested due to the information exceeding the cost of compliance limits identified in Section 12, please provide advice and assistance, under the Section 16 obligations of the Act, as to how I can refine my request.

The response is as follows:

We have Interrogated our asset management system, which contains records of all building repairs and maintenance projects.

Between 2016 and present we have no records of works or projects specific to subsidence, so can only report that we have spent £0 in each of the years in question for subsidence repairs.

Over the years we have undertaken works/projects addressing structural issues, but the causes of the structural issues being addressed are varied and whilst subsidence may have been a component, none of the records reference subsidence as the principal cause.

I hope this assists. Should you have any further enquiries please do not hesitate to contact me directly on the details below.

Complaints, Information and Mediation Officer  
Nottinghamshire County Council

In addition to this and for future reference Nottingham County Council regularly publishes previous FOIR,s and answers on its website, under Disclosure logs. (see link)
