Dear Requester

Thank you for your request for information about potholes.

You asked for a breakdown of the number of potholes reported, and the location of those potholes, by the elected members for Arnold South and Arnold North for the last four years

The following table is based on a report run from information held in the authorities Highway Asset Management System (HAMS), broken down by County Councillor, town, road name and the associated financial year. We have provided a complete list for pothole and damage for carriageways and footways, as the term 'pothole' is open to interpretation and can be recorded in HAMS under the damage heading.

This is the best data that is available but has to be provided with a number of caveats.

- An enquiry may have more than one highway defect associated with it.
- Not all enquiries raised by County Councillors are recorded on HAMS in their names where these enquiries are logged through officers.
- Enquiries made by County Councillors are not always made in their name (made on behalf of resident)
- Reports may be anonymous ie they don't provide their details.

**Number of Enquiries Raised for CW Pothole, CW Damage, FW Pothole, FW Damage  
Period: 01/05/2017 to 05/05/2021**
