

# Welcome to Berry Hill

## Mansfield, Nottinghamshire

**Travel Information Pack**

**BERRY HILL**

MANSFIELD

## A new home means new beginnings...

Now is the perfect time to explore your local travel options. Whether this means a change to your commute or finding the best way to the shops, this pack has the information you need to make the right travel choice for you. Using sustainable transport is a great way to make this change. It can get you from A to B quickly, save you money, improve your health and cut your carbon footprint.

### Did you know?

- Walking and cycling releases “feel good” chemicals to improve your mood, self-esteem, and energy levels – and then there’s all the physical health benefits too!
- Catching the bus or train gives you the chance to read a book, catch up on your emails or watch Netflix. Could you do that if you made the same journey by car?
- Giving a lift to a friend is more sociable and cheaper than driving alone.

# Berry Hill Local Links Map

Designed exclusively for Berry Hill residents, this handy guide will help you make the most of your local travel options.

## Walking and Cycling

Whether you want to walk or cycle in your leisure time, or cycle to work, then check out the network of routes in and around Berry Hill. Local walking and cycling maps are provided in this pack, with more information online at:

## Cycle safety

Top tips for safer riding:

- Keep your bike in good working order, particularly the brakes, steering and tyres.
- Always keep a look out for possible hazards. It is best to ride around any obstacles if possible, but try to avoid any sudden, sharp movements.
- Look all around before moving off. When changing direction, look behind and if safe, signal clearly before turning.
- Be especially careful when leaving a cycle route as most cycle accidents happen when cyclists rejoin moving traffic.
- If you are unable to avoid a roundabout or busy junction and are unsure how to tackle it, get off your bike and walk across.
- Be safe, be seen. Wear something fluorescent during the day or reflective at night. At night and in poor light make sure your front and rear lights are lit and that your red rear reflector can be seen. It is against the law to cycle at night without lights.
- Plan your route ahead, note any possible hazards and think about how you will overcome these.
- Cycle training can help your confidence and skills.
- Invest in a good quality solid lock and always use it whenever you park your bicycle.
- Cycle helmets can reduce the possibility of serious head injury, providing that they are worn correctly, although they will not stop you having an accident.
- When using shared paths please give way to pedestrians, wheelchair users and horse riders. Be prepared to slow down and use your bell to warn people on foot.

Additional cycling safety advice can be found on the Nottinghamshire County Council website:

## Who can share?

“Nottinghamshare” is a free online tool to help you find a car share buddy. Whether it’s a regular journey or a one-off trip, Nottinghamshare will search to see if there is anyone who you could share with!

You don’t need to own a car to become a car sharer - you can be either a passenger or a driver with “Nottinghamshare”. It’s fun, flexible and free to join!

## Get started

Visit [www.nottinghamshare.com](http://www.nottinghamshare.com) today and find a driver or passenger to share your journey with by following these 3 easy steps:

1. Add your journey details and filter your preferences
2. Pick a travel companion from your list of matches
3. Confirm your journey and start sharing!

You can also calculate how much money you will save per year by car sharing!

**You’re not committing to anything  
by signing up, so join now!**
