Round summary| ranking applications

Select view rankings, the screen will default to those applications that do not have a rank number assigned to them.

You should assign the relevant criterion to the child in accordance with your determined admission arrangements, i.e a child confirmed to be looked after should be assigned criterion 1. When all children have been updated with a criterion click assign selected to

 Assign Selected

update the application.

Display: 

The children will now be displayed as Ranked Unranked Ranked

The system can assign a rank number to each child in distance order within each criterion. If you wish for the system to calculate the rank position for you select the children and click

 Generate List Positions

generate list positions

If a child changes criterion you should select the child and select unassign selected

 Unassign Selected

The child will now be available in the unranked display for you to reassign the revised criterion.

The system does allow schools to download the list of children in an excel format and to reload the ranked positions into the system. However, this is not recommended.
