Example of a pupil taught out of year – see shaded boxes above and following scenario:

You may have a situation where a pupil is taught in a year group above or below their normal age group. Their **Year Group** field should reflect their age by date of birth and the **Year Taught In** field must be the National Curriculum year that they are taught in.

For example, a pupil with a date of birth of 15th October 2014* but taught as Year 4 would have Year 5 in the Year Group field** and Curriculum Year 4 in the Year Taught In field*** (National Curriculum Year).
