Dear Mr. Brennon,

Please find enclosed 'Application for a Modification order' from Bridleway 30 in the Parish of Everton.

This application is made following the Inspector's decision letter into the floodbank Bridleway (Ref: ROW 3301945) Confirming Everton Bridleway No 30. The County Council had failed to include a short length of Bridleway joining BW 30 Northwards to the embarkation point - see Notts County Council Plan "Proposed Modification order plan C", on which the missing section comprises M-O-P and N-O.

This omission was made despite the link to the ferry Embarkation point being described in the application originally dated 14/3/2016.

The Inspector felt unable to correct this despite him confirming that the Bridleway led all the way to the Riverbank.

The original application was for the confirmation of the Bridleway which provided access to and from the ferry. This can only be achieved by connecting the confirmed BW 30 to the ferry embarkation points

as per the attached plans:

- ① modern County Council 1:1250
- ② 1921 1:2500
- ③ OS 1891 6"/mile.

From the original application, we draw your attention to the following documents and maps, all of which, (together with considerable additional evidence) is already in Notts County Council possession.

- ① Chapmans Map 1774 - Shows bridleway leading to ferry crossing.
- ② The conveyance of Ferryboat Inn 1877
- ③ 1879 - 1885 Wrights, Kellys and Whites Directories.
- ④ Ordnance Survey 6" and 25" Maps - Late 1800's & Early 1900's.
